Military Security Developments Involving Republic:

Chinese Military Modernization and Force Development Anthony H. Cordesman, Ashley Hess, Nicholas S. Yarosh, 2013-10-22 China's military development has become a key focus of US security policy as well as that of virtually all Asia Pacific states. This report from the CSIS Burke Chair in Strategy examines trends in Chinese strategy, military spending, and military forces based on Chinese defense white papers and other official Chinese sources, US reporting by the Department of Defense and other defense agencies, and other government sources including Japanese and Korean defense white papers and the International Monetary Fund. The analysis also draws on the work of experts outside of government, various research centers, and nongovernmental organizations. Continental Powers and Naval Development Brian C. Chao, 2025-10-16 This book examines how continental great powers have attempted to develop and wield strong navies since 1801. Continental Powers and Naval Development argues that a continental great power's ability to build and effectively use a strong navy is greatly affected by two factors: a naval force design capable of executing national strategy, strategy coherence, and the deployment of that navy to places or for purposes that minimize the dominant naval power's threat perception, threat diffusion. Each factor is deceptively difficult for a continental great power to achieve, but through an analysis of four historical case studies, this book shows how both factors are vital, not just for successful naval development, but for keeping the peace among great powers. Finally, it highlights how states commonly thought of as unnatural naval powers can nonetheless achieve their political objectives at sea. This book will be of much interest to students of naval history, maritime strategy, and International Relations. **2017 Report to Congress of the U.S.-China Economic and Security Review Commission, November 2017, 115-1**, 2018 The Changing Military Balance in the Koreas and Northeast Asia Anthony H. Cordesman, Aaron Lin, 2015-07-07 The tensions between the Koreas and the potential involvement of China, Japan, Russia, and the United States in a Korean conflict create a nearly open-ended spectrum of possible conflicts. These conflicts could range from posturing and threats to a major conventional conflict on the Korean peninsula with intervention by outside powers to the extreme of nuclear conflict. The Korean balance is also affected by the uncertain mix of cooperation and competition between the United States and China, particularly with the U.S. pivot toward Asia and the steady modernization of Chinese forces. This new volume, up to date through Spring 2015, provides a detailed examination of the military forces in Northeast Asia: North and South Korea, China, Russia, Japan, and the United States, setting those forces in the larger geostrategic context. *Forward Defense* Seth G. Jones, Seamus P. Daniels, Catrina Doxsee, Daniel Fata, Kathleen J. McInnis, 2024-07-07 Russia's February 2022 invasion of Ukraine triggered the bloodiest war in Europe since World War II and raised significant questions about the United States' role in Europe. This CSIS report examines the U.S. force posture in Europe, including the military capabilities, personnel, infrastructure, and agreements that support defense operations and plans, and makes recommendations for future U.S. posture. It finds that the United States needs a robust long-term military

force posture in Europe focused on the North Atlantic Treaty Organization's NATO eastern flank to deter future Russian aggression

Chinese Strategy and Military Modernization in 2015 Anthony H. Cordesman,Steven Colley,2016-01-12 China's emergence as a global economic superpower and as a major regional military power in Asia and the Pacific has had a major impact on its relations with the United States and its neighbors China was the driving factor in the new strategy the United States announced in 2012 that called for a rebalance of U S forces to the Asia Pacific region At the same time China's actions on its borders in the East China Sea and in the South China Sea have shown that it is steadily expanding its geopolitical role in the Pacific and having a steadily increasing impact on the strategy and

military developments in other Asian powers

Reshaping the Chinese Military Richard A. Bitzinger, James

Char, 2018-11-09 This edited volume examines the recalibration of the People's Liberation Army's PLA roles and missions in China's domestic and foreign policymaking since Xi Jinping's ascension to power in late 2012. This book explores how China's growing military prowess along with Beijing's ongoing shift away from keeping a low profile owes much to the policies of the China's Communist Party under Xi Jinping's leadership. The chapters in the book share a central theme: the recalibration of the PLA roles and missions since Xi Jinping assumed the trifecta of party-state military power. These contributions seek to explore in depth some of the key issues and scrutinize the enhancements in the PLA's operational capabilities both in terms of its hardware as well as its heartware: the human elements of its development such as operational culture and doctrine. In all the chapters document the transformative change the PLA has undergone since the profound realization of its previous limitations vis-à-vis the United States' advanced military operations of the previous century as well as pointing to continuity amid change. This book will be of much interest to students of strategic studies, Chinese politics, Asian security, defense studies, and international relations in general.

The US-China Military and Defense Relationship during the Obama Presidency James Johnson, 2018-04-28 This book offers a timely and compelling explanation for the deterioration of U.S.-China security relations during the Obama Presidency. The U.S.-China relationship has become one of, if not the most vital features of contemporary world politics, and with arrival of Donald Trump to the White House in 2017, this vital geopolitical relationship sits at a precarious and dangerous crossroads. This book assesses a wide array of sources to systematically unpack the policy rhythms, drivers, and dynamics that defined the course of Sino-American security relations during the Obama era. It fills several gaps in the literature on international security and conflict and offers a nuanced and innovative comparative approach to examine individual military domains. The case study chapters draw on recent Chinese and English sources on military doctrine, capabilities, and defense strategy to build a clear understanding of the main sources of U.S.-China misperceptions and highlight the problems these assessments can create for the conduct of statecraft across strategically competitive geopolitical dyads. The book builds a sobering picture of U.S.-China relations that will appeal to specialists and generalists alike with an interest in future warfare, emerging military technologies, military studies, arms control, and foreign policy issues in the Asia-Pacific region more broadly.

A Glass Half Full? Michael E. O'Hanlon, James

Steinberg, 2017-05-30 How to stabilize the security relationship between Washington and Beijing? The U.S.-China relationship has not always been smooth, but since Richard Nixon's opening in the early 1970s, the two countries have evolved a relationship that has been generally beneficial to both parties. Economic engagement and a diplomatic partnership together with robust trade and investment relations among other activities have meant a peaceful context for reform and China's rise, helping to lift millions of Chinese out of poverty and giving the PRC incentive to work within the U.S.-led global order. The logic of the relationship, however, is now open to serious debate on both sides of the Pacific. After a period of American

preoccupation with the Middle East President Obama attempted a rebalancing of U S interests toward the Asia Pacific region With the Trump administration in office the U S China relationship appears to be at a crossroads does it continue to focus on constructive engagement and managing differences or prepare for a new era of rivalry and conflict Here following up on their 2014 book *Strategic Reassurance and Resolve* the authors provide a more balanced assessment of the current state of relations and suggest measures that could help stabilize the security relationship without minimizing the very real problems that both Beijing and Washington must address The authors are hopeful but are also under no illusions about the significance of the challenges now posed to the bilateral relationship as well as regional order by the rise of China and the responses of America together with its allies
