Committee on Veterans' Affairs, 1994     *Is Military Research Hazardous to Veterans' Health? Lessons Spanning Half a Century*, 1994 During the last 50 years hundreds of thousands of military personnel have been involved in human experimentation and other intentional exposures conducted by the Department of Defense DOD often without a servicemember's knowledge or consent In some cases soldiers who consented to serve as human subjects found themselves participating in experiments quite different from those described at the time they volunteered For example thousands of World War II veterans who originally volunteered to test summer clothing in exchange for extra leave time found themselves in gas chambers testing the effects of mustard gas and lewisite Additionally soldiers were sometimes ordered by commanding officers to volunteer to participate in research or face dire consequences For example several Persian Gulf War veterans interviewed by Committee staff reported that they were ordered to take experimental vaccines during Operation Desert Shield or face prison The goals of many of the military experiments and exposures were very appropriate For example some experiments were intended to provide important information about how to protect U S troops from nuclear biological and chemical weapons or other dangerous substances during wartime In the Persian Gulf War U S troops were intentionally exposed to an investigational vaccine that was intended to protect them against biological warfare and they were given pyridostigmine bromide pills in an experimental protocol intended to protect them against chemical warfare     **Is Military Research Hazardous to Veterans' Health?** United States. Lessons From World War II, the Persian Gulf, and Today**, 2018-02 Excerpt from *Is Military Research Hazardous to Veterans Health Lessons From World War II the Persian Gulf and Today* Hearing Before the Committee on Veterans Affairs United States Senate One Hundred Third Congress Second Session May 6 1994 A few months ago Americans were shocked to learn that our Government had intentionally exposed thousands of us Citizens to radiation without their knowledge and without their consent Although many of us expressed horror at the apparently unethical behavior of our Government we all

were relieved to hear that such experiments had been stopped long ago We d like to think that these kinds of abuses are a thing of the past but sad to say the legacy continues During the Persian Gulf War hundreds of thousands of soldiers were given experimental vaccines and drugs and today we will hear evidence that these medical products could be causing many of the so called mysterious illnesses that those veterans are now experiencing And for several decades and continuing today the testing of chemical and biological agents at us Military facilities has put soldiers and civilians at risk Today s hearing will examine the results of an intensive 6 month investigation conducted by this Committee s staff particularly staff members Diana Zuckerman and Patricia Olson The investigation focuses on Persian Gulf War veterans but extends from World War ii era veterans to the present So while we re focusing on the Persian Gulf War this is a pattern which has gone on for a long long time About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

**Vaccine A** Gary Matsumoto,2009-04-29 In this provocative look at the US military from the Persian Gulf War through the 2003 invasion of Iraq investigative journalist Gary Matsumoto contends that an anthrax vaccine dispensed by the Department of Defense was the cause of Gulf War Syndrome and the origins of a massive cover up Matsumoto calls it the worst friendly fire incident in military history A skillfully woven narrative that serves as a warning about this man made epidemic Vaccine A is a much

needed account of just what went wrong and why The Price of Perfection Maxwell J. Mehlman, 2009-07-15 Few would question the necessity of artificial limbs for amputees But what of surgery to lengthen the legs of children who are merely shorter than average Hardly anyone would challenge the decision to prescribe Aricept to people with dementia But is it acceptable to give the same medication to airline pilots seeking sharper mental focus on long haul flights Humans have engaged in biological self improvement since long before recorded history from the impotence curing wild lotus brew of the ancient Egyptians to the herbal energy drink favored by early Olympians Now biomedical enhancements are pushing the boundaries of possibility and acceptability Where do we draw the line How do we know the true ramifications of pioneering medicine What price are we willing to pay for perfection Maxwell J Mehlman s provocative examination of these issues speaks to fundamental questions of what it means to be human He finds public officials ill equipped to handle the ethical scientific and public policy quandaries of biomedical enhancement Instead of engaging difficult questions of morality access fairness and freedom elected officials have crafted toothless and counterproductive laws and regulations Mehlman outlines policy options to boost the societal benefits and minimize the risks from these technologies In the process he urges the public to face the ethical issues surrounding biomedical enhancement lest our quest for perfection compromise our very humanity

**Whiteout** Alexander Cockburn, Jeffrey St. Clair, 2014-12-16 On March 16 1998 the CIA s Inspector General Fred Hitz finally let the cat out of the bag in an aside at a Congressional Hearing Hitz told the US Reps that the CIA had maintained relationships with companies and individuals the Agency knew to be involved in the drug business Even more astonishingly Hitz revealed that back in 1982 the CIA had requested and received from Reagan s Justice Department clearance not to report any knowledge it might have of drug dealing by CIA assets With these two admissions Hitz definitively sank decades of CIA denials many of them under oath to Congress Hitz s admissions also made fools of some of the most prominent names in US journalism and vindicated investigators and critics of the Agency ranging from Al McCoy to Senator John Kerry The involvement of the CIA with drug traffickers is a story that has slouched into the limelight every decade or so since the creation of the Agency Most recently in 1996 the San Jose Mercury News published a sensational series on the topic Dark Alliance and then helped destroy its own reporter Gary Webb In Whiteout Alexander Cockburn and Jeffrey St Clair finally put the whole story together from the earliest days when the CIA s institutional ancestors the OSS and the Office of Naval Intelligence cut a deal with America s premier gangster and drug trafficker Lucky Luciano They show that many of even the most seemingly outlandish charges leveled against the Agency have basis in truth After the San Jose Mercury News series for example outraged black communities charged that the CIA had undertaken a program stretching across many years of experiments on minorities Cockburn and St Clair show how the CIA imported Nazi scientists straight from their labs at Dachau and Buchenwald and set them to work developing chemical and biological weapons tested on black Americans some of them in mental hospitals Cockburn and St Clair show how the CIA s complicity with drug dealing criminal gangs was part

and parcel of its attacks on labor organizers whether on the docks of New York or of Marseilles and Shanghai They trace how the Cold War and counterinsurgency led to an alliance between the Agency and the vilest of war criminals such as Klaus Barbie or fanatic heroin traders like the mujahed in Afghanistan Whiteout is a thrilling history that stretches from Sicily in 1944 to the killing fields of South East Asia to CIA safe houses in Greenwich Village and San Francisco where CIA men watched Agency paid prostitutes feed LSD to unsuspecting clients We meet Oliver North as he plotted with Manuel Noriega and Central American gangsters We travel to little known airports in Costa Rica and Arkansas We hear from drug pilots and accountants from the Medellin Cocaine Cartel We learn of DEA agents whose careers were ruined because they tried to tell the truth The CIA drugs and the press Cockburn and St Clair dissect the shameful way many American journalists have not only turned a blind eye on the Agency's misdeeds but helped plunge the knife into those who told the real story Here at last is the full saga Fact packed and fast paced Whiteout is a richly detailed excavation of the CIA's dirtiest secrets For all who want to know the truth about the Agency this is the book to start with

**Monthly Catalogue, United States Public Documents**, 1995     Monthly Catalog of United States Government Publications, 1995     **Monthly Catalog of United States Government Publications** United States. Superintendent of Documents, 1995     **Unyielding** Thomas L.

Rempfer, 2024-06-11 Unyielding tackles a recurring topic of national importance as a history lesson for future generations Controversial illegal medical mandates impacted military populations for many decades but it was not until the COVID era that the American people witnessed similar overreach Colonel Tom Buzz Rempfer's memoir retraces the anthrax vaccine history since it marked the first time the military was served with court rulings condemning premeditated illegal experimentation on our nation's troops The advent of COVID mandates imposed on the population in 2021 gave the American people a taste of the mistreatment previously reserved for our nation's warriors Legal protections enacted by the Congress to guard against medical experimentation meant to ensure safe effective and FDA approved products were instead adulterated to foist mandates on American society According to the FBI the motive for the anthrax letter lab leaks in 2001 was to rejuvenate the failing anthrax vaccine Similarly the suspected Wuhan lab leak two decades later resulted in a push for COVID injections The pattern of fear based bioincidents resulting from reckless biodefense enterprises and lessons not learned with illegal mandates paralyzed government and military leaders while wreaking havoc on the trust and health of our troops and the American people Buzz's decades long analysis of the breakdowns stands as a unique treatise on the failures of leaders to learn lessons from these enduring clashes and to correct the damage Future generations will sort out the aftermath but in the meantime Colonel Rempfer's Unyielding effort attempts to ensure that the lessons are not lost

**Killing Hope** William Blum, 2003-07-31 Is the United States a force for democracy From China in the 1940s to Guatemala today William Blum presents a comprehensive study of American covert and overt interference by one means or another in the internal affairs of other countries Each chapter of the book covers a year in which the author takes one particular country case and tells the

story and each case throws light on particular US tactics of intervention      Useful Enemies Richard Rashke, 2013-01-22 John Iwan Demjanjuk was at the center of one of history's most complex war crimes trials. But why did it take almost sixty years for the United States to bring him to justice as a Nazi collaborator? The answer lies in the annals of the Cold War when fear and paranoia drove American politicians and the U.S. military to recruit useful Nazi war criminals to work for the United States in Europe as spies and saboteurs and to slip them into America through loopholes in U.S. immigration policy. During and after the war that same immigration policy was used to prevent thousands of Jewish refugees from reaching the shores of America. The long and twisted saga of John Demjanjuk, a postwar immigrant and auto mechanic living a quiet life in Cleveland until 1977, is the final piece in the puzzle of American government deceit. The White House, the Departments of War and State, the FBI, and the CIA supported policies that harbored Nazi war criminals and actively worked to hide and shelter them from those who dared to investigate and deport them. The heroes in this story are men and women such as Congresswoman Elizabeth Holtzman and Justice Department prosecutor Eli Rosenbaum, who worked for decades to hold hearings, find and investigate alleged Nazi war criminals, and successfully prosecute them for visa fraud. But it was not until the conviction of John Demjanjuk in Munich in 2011 as an SS camp guard serving at the Sobibor death camp that this story of deceit can be told for what it is: a shameful chapter in American history. Riveting and deeply researched, *Useful Enemies* is the account of one man's criminal past and its devastating consequences and the story of how America sacrificed its moral authority in the wake of history's darkest moment.

*The Irritable Heart* Jeff Wheelwright, 2001 Wheelwright, former science editor for Life magazine, profiles five ailing Gulf War veterans from their deployment to the Gulf through their experiences in the Gulf War and their subsequent illnesses and attempts to discover the causes. He argues that the illnesses belong in the company of chronic fatigue syndrome, fibromyalgia, and multiple chemical sensitivity. Pointing out precedents in military history that go back as far as a Civil War malady known as irritable heart, he argues that the illnesses are a combination of physical symptoms greatly magnified by psychological distress. Because modern medicine deals with the body and mind separately, he contends the health investigation of the veteran's illnesses is bound to fail.
