Collins, Phillip D. Collins, 2020-11-22 The Gnostic revival of the Enlightenment witnessed the erection of what could be called the Kantian Rift an epistemological barrier between external reality and the mind of the percipient Arbitrarily proclaimed by German philosopher Immanuel Kant this barrier rendered the world as a terra incognita Suddenly the world out there was deemed imperceptible and unknowable In addition to the outer world the cherished metaphysical certainties of antiquity the soul a transcendent order and God swiftly evaporated The way was paved for a new set of modern mythmakers who would populate the world out there with their own surrogates for the Divine Collectively these surrogates could be referred to as the Beyond because they epistemologically and ontologically overwhelm humanity In recent years the Beyond has been invoked by theoreticians literary figures intelligence circles and deep state operatives who share some variant of a technocratic vision for the world In turn these mythmakers have either directly or indirectly served elitist interests that have been working toward the establishment of a global government and the creation of a New Man Their hegemony has been legitimized through the invocation of a wrathful earth goddess a technological Singularity a superweapon and extraterrestrial gods All of these are merely masks for the same counterfeit divinity the Beyond **The Complete Idiot's Guide to the New World Order** Alan Axelrod, Ph.D., 2010-09-07 The good the bad and the ugly behind the NWO The New World Order NWO is a conspiracy theory describing the evolution or existence of one world government administered by the powerful elite Now Alan Axelrod offers an understandable look at what the NWO really means to people and lets the reader decide which theories are correct or whether perhaps it s a little bit of every proposed theory He discusses The Knights of Templar the Illuminati the Masons ancient and modern day religionists and how they paved the way for a possible Fourth Reich The link between the lost island of Atlantis Hitler and the first President Bush with the concept of a future one world government The United Nations Yale University s Skull and Bones society the Rockefellers Morgans Rothschilds and Kennedys **Eccentric Lives and Peculiar Notions** John Michell, 1999-04 Takes us into the bizarre and often humorous lives of such people as Lady Blount who was sure that the earth is flat Cyrus Teed who believed that the earth is a hollow shell with us in the inside Edward Hine who believed that the British are the lost Tribes of Israel and Baron de Guldenstubbe who was sure that statues wrote him letters British writer and housewife Nesta Webster devoted her life to exposing international conspiracies and

Father O Callaghan devoted his to opposing interest on loans The extraordinary characters in this book were and in some cases still are wholehearted enthusiasts for the various causes and outrageous notions they adopted and John Michell describes their adventures with spirit and compassion Conspiracy Theories in American History Peter Knight,2003-12-11 The first comprehensive history of conspiracies and conspiracy theories in the United States Conspiracy Theories in American History An Encyclopedia is the first comprehensive research based scholarly study of the pervasiveness of our deeply ingrained culture of conspiracy From the Puritan witch trials to the Masons from the Red Scare to Watergate Whitewater and the War on Terror this encyclopedia covers conspiracy theories across the breadth of U S history examining the individuals organizations and ideas behind them Its over 300 alphabetical entries cover both the documented records of actual conspiracies and the cultural and political significance of specific conspiracy speculations Neither promoting nor dismissing any theory the entries move beyond the usual biased rhetoric to provide a clear sighted dispassionate look at each conspiracy real or imagined Readers will come to understand the political and social contexts in which these theories arose the mindsets and motivations of the people promoting them the real impact of society s reactions to conspiracy fears warranted or not and the verdict when verifiable that history has passed on each case *Aberration in the Heartland of the Real* Wendy S. Painting,2016-04-19 Presenting startling new biographical details about Timothy McVeigh and exposing stark contradictions and errors contained in previous depictions of the All American Terrorist this book traces McVeigh s life from childhood to the Army throughout the plot to bomb the Alfred P Murrah Federal Building and the period after his 1995 arrest until his 2001 execution McVeigh s life as Dr Wendy Painting describes it offers a backdrop for her discussion of not only several intimate and previously unknown details about him but a number of episodes and circumstances in American History as well In *Aberration in the Heartland* Painting explores Cold War popular culture all American apocalyptic fervor organized racism contentious politics militarism warfare conspiracy theories bioethical controversies mind control the media s construction of villains and demons and institutional secrecy and cover ups All these stories are examined compared and tested in *Aberration in the Heartland of the Real* making this book a much closer examination into the personality and life of Timothy McVeigh than has been provided by any other biographical work about him *Underground Bases and Tunnels* Richard Sauder,1995 Go behind the scenes into little known corners of the public record and discover how corporate America has worked hand in glove with the Pentagon for decades dreaming about planning and actually constructing secret underground bases And newly uncovered information indicates that the strangeness continues with bizarre high tech gadgets like portable hand held surgical lasers and injectable electronic IDs as small as a grain of rice The Arch Conspirator Len Bracken,1999 Veteran conspiracy author Len Bracken s collection of witty essays and articles takes readers down the dark corridors of conspiracy politics murder and mayhem A fascinating maze of interwoven tales it includes juicy morsels for conspiracy theorists including the Russian conspiracy and an interview with Costa Rican novelist Joaquin Gutierrez A pop

conspiracy classic it even includes a psychogeographic map of the third millennium [The Lost Science of Measuring the Earth](#) Robin Heath, John Michell, 2006 Long trackways stone rows circles standing stones and huge earthworks may be found all over Britain monuments dating back well over 4000 years The authors have made a remarkable breakthrough in understanding the system by which prehistoric monuments were designed and placed *Conspiracy Theories* Aaron John Gulyas, 2016-02-22 Narratives based on conspiratorial and paranoid thinking have become increasingly prominent throughout the 20th and 21st centuries From the prosaic to the outlandish conspiracy theories involve aliens and Nazis underground bases and mind control technology They range from sinister tales of malevolent reptilian beings infiltrating our government to fears of the New World Order rounding up patriotic Americans and putting them into internment camps These stories and their underlying concerns have a long history in the U S and have often been bolstered by revelations of real conspiracies and cover ups by private and public entities This book examines conspiracy theories and the narratives constructed by those who believe and propagate them providing a unique view of U S history and highlighting fears both founded and unfounded
