In turn, we renew the sense of peace within ourselves. And the effects on our romantic, family, and professional relationships are undeniable. In *The Wisdom of Listening*, award-winning author, teacher, and trainer Dr. Mark Brady and contributors that include Ram Dass and A. H. Almaas help us to develop the listening warrior inside us all. Inspiring and easy to follow, the lessons here can transform the ways that we interact with others, whether in a large meeting or in a face-to-face encounter. Listening is almost a lost art; some of us may have forgotten how to do it, some of us may have never quite learned. *The Wisdom of Listening* gives readers the skills to overcome our culture's tendency towards distraction and reaction and to be more fully in the world.

Mindfulness in Early Buddhism Tse-fu Kuan,2007-12-18 This book identifies what is meant by sati smṛti usually translated as mindfulness in early Buddhism and examines its soteriological functions and its central role in the early Buddhist practice and philosophy Using textual analysis and criticism it takes new approaches to the subject through a comparative study of Buddhist texts in Pali Chinese and Sanskrit It also furnishes new perspectives on the ancient teaching by applying the findings in modern psychology In contemporary Buddhism the practice of mindfulness is zealously advocated by the Theravada tradition which is the only early Buddhist school that still exists today Through detailed analysis of Theravada s Pali Canon and the four Chinese Agamas which correspond to the four main Nikayas in Pali and belong to some early schools that no longer exist this book shows that mindfulness is not only limited to the role as a method of insight vipassana meditation as presented by many Theravada advocates but it also has a key role in serenity samatha meditation It elucidates how mindfulness functions in the path to liberation from a psychological perspective that is how it helps to achieve an optimal cognitive capability and emotional state and thereby enables one to attain the ultimate religious goal Furthermore the author argues that the well known formula of ekaayano maggo which is often interpreted as the only way implies that the four satipa t thaanas establishments of mindfulness constitute a comprehensive path to liberation and refer to the same as kaayagataa sati which has long been understood as mindfulness of the body by the tradition The analysis shows that

kaayagataa sati and the four satipa t thaanas are two different ways of formulating the teaching on mindfulness according to different schemes of classification of phenomena
