Bendiksen,2019-12-02 The book presents a comparative study of children s constitutional rights in Denmark Finland Iceland Norway and Sweden The authors discuss the value of enshrining children s rights in national constitutions in addition to implementing the Convention on the Rights of the Child CRC Central issues are whether enshrining children s rights in the Constitution improves implementation and enforcement of those rights by providing advocacy tools and by mandating courts legislators policy makers and practitioners to take children s rights seriously The study assesses whether the Nordic constitutions are in

line with the child rights approach of the CRC both on a general level and in detail in three domains the best interests of the child participation rights and the right to respect for family life      **The Human Rights** Valentin Matcas,2016-04-20 People believe that governments and systems of justice give them the human rights through specific rules laws and regulations but this is never the case Because your human rights are yours continuously as they are innate since you are a living human being by nature Authorities may give you privileges yet rights and privileges are separate concepts In fact authorities take away your human rights and many times they do so with your full agreement in a trivial manner Since surprisingly you cannot have authorities and human rights simultaneously Should authorities not take away your human rights mostly when you break the law No since human rights are innate as this is your human nature Even more human rights are of the third intelligent human level while laws beliefs privileges corporations and jurisdictions are of the first fictitious level remaining incompatible While authorities write these laws themselves to infringe the human rights Everybody knows it and everybody makes it possible losing the human rights while also losing themselves and their loved ones So you always wave your human rights and fall into their jurisdiction where they own you entirely and they do to you as they please And it always happens with humans souls and everyone else But why exactly do people go against people continuously losing themselves and the entire world It always depends on the interaction between people because sometimes this is harmonious and sometimes harmful It is always preferred to have harmony in this world yet when you want to have more than others do you cannot have it in a harmonious egalitarian manner but only by force called robbery And when you persist to desire more than others you have to change the entire world on your behalf as tyrants do Yet this is not the human world anymore as it is not the human meaning but only a fictitious enterprise where humans become merchandise themselves while fighting and exploiting themselves in a disconnected manner Because many times people create entire wars to take what others have in an organized crime while other times people use fictitious schemes and trickery to determine others to hand them everything including themselves which is the same organized crime And again this is not at all the human meaning yet it is always possible through agreements through their agreement to give you everything while even calling you their great king wonderful master good lord helpful patron or wonderful chief as you are always their tyrant serving you for life While you are not a human being anymore and neither are they With the human rights always present to assure the continuous human freedom meaning and fulfillment in life and in this world and with an entire world fictitious under oath and serving vehemently a multitude of tyrants taking everything for themselves so what exactly is going on This book helps you maintain control throughout life while protecting yourself helping you understand your status rights privileges and place in life and in this world further helping you become more aware and more responsible Otherwise you end up with your entire human condition altered and therefore with all human rights infringed      *Silicon Valley Imperialism* Erin McElroy,2024-02-02 Erin McElroy maps processes of gentrification racial dispossession and economic predation in the San Francisco Bay Area and

postsocialist Romania to expose the mechanisms through which global techno capitalism devours space and societies in order to expand its reach      *Unaccompanied Migrant Children* Molly Greening,Hille Haker,2018-12-12 Unaccompanied migrant children are the most vulnerable group of migrants and refugees Their experiences their contested legal status in the host countries and their treatment before during and after migration call for an ethics of child migration that places unaccompanied migrant children at the center This volume gathers international experts from the fields of social work social science law philosophy and Catholic ethics Social science psychological and social work studies analyses of US and international law of child migration refuge and asylum policies and several case studies regarding law enforcement highlight the more recent shifts in policies both in the United States and Europe The current policies are confronted with two major normative frameworks that go beyond migration laws or the international refugee and asylum provisions the United Nations Convention of the Rights of the Child and the approach of the Catholic social ethics of migration The authors address the challenges of childhood under the conditions of migration the uprooting of lives the journey and transition into foreign countries and cultures and the transition into adulthood They discern the legal provisions and obstacles of the immigration process the securitization of the borders and the criminalization of unaccompanied migrant children Catholic social ethics the theological authors argue must offer more than its pastoral call for charity solidarity and compassion that is already in place inspiring multiple Catholic organizations groups and individuals The Christian emphasis on family rights and values originating in the story of the Holy Family is necessary yet insufficient when children are separated from their parents instead children must be recognized as vulnerable agents in their own right and the moral dilemmas families sometimes face be acknowledged US and European policies must be informed by the interpretation of justice and the principle of the common good must be held against the firewalling of the West As a political ethics Catholic social ethics must critique and reject the use of the Christian religion for nationalist policies and depictions of migrant children as a threat to the cultural identity of Western societies      **Stress and Your Child** Bettie B. Youngs,2011-03-30 GIVE YOUR CHILDREN BACK THEIR

CHILDHOOD We like to think of childhood as a carefree relaxed time of life but the truth is children today experience more stress than ever before parents fast paced lifestyles the frequent breakup of families urban crime schools in turmoil and a host of other problems However according to Bettie B Youngs Ph D Ed D one of America s most admired experts on child psychology children by mastering skills of coping and self awareness can actually draw vitality from stress and channel it to promote health fitness and self esteem *Stress and Your Child* helps parents understand the pressures that their children face and explores the essential ways to reduce manage and prevent stress from birth to age twenty Dr Youngs leads parents through each stage of their child s emotional and social development and teaches them How to recognize the physical and emotional signs of stress in children How to understand school related stress including social pressures personal safety and test taking How parental stress affects children and what parents can do to alleviate t How teaching kids self esteem and

emotional honesty can help them cope with stress How diet physical activity and realistic schedules can help to minimize stress in children Stress and Your Child is an invaluable parenting guide No family can afford to be without it     **The Government of Chronic Poverty** Sam Hickey, 2013-10-31 What are the underlying causes of chronic poverty Can development beyond neoliberalism offer the strategies required to challenge such persistent forms of poverty particularly through efforts to promote citizenship amongst poor people Drawing on case study evidence from Africa Latin America and South Asia the contributions critically examine different attempts to govern chronic poverty via the promotion of particular forms and notions of citizenship with a specific focus on the role of community based approaches social policy and social movements Poverty is seen here as deriving from underlying patterns of uneven development involving processes of capitalism and state formation that foster inequality generating mechanisms and particularly disadvantaged social categories Sceptics tend to deride the emphasis under current inclusive forms of Liberalism on tackling poverty through the promotion of citizenship as inevitably depoliticising and disempowering for poor people and our cases do suggest that citizenship based strategies rarely alter the underlying basis of poverty However our evidence also offers some support to those optimists who suggest that progressive moves towards poverty reduction and citizenship formation have become more rather than less likely at the current juncture The promotion of citizenship emerges here as a significant but incomplete effort to challenge poverty that persists over time This book was published as a special issue of the Journal of Development Studies     **Dear Child of Mine** Deirdre Tolhurst, 2015-10-30 In Dear Child of Mine Deirdre Tolhurst finds the beauty in each day that passes from conception to birth Addressing the growth of the baby within and giving God the glory for each of His miraculous works is the mainstay of this powerful devotional To be read out loud each devotion begins with sweet words to the baby The baby is told every day that it is loved and wanted and the devotion notes what miracles are happening as the child grows Followed by a prayer the exciting changes inside the mother are spoken of with adoration of God's kindness and miraculous ways A scripture completes the devotion always bringing the glory back to God This uniquely personal devotional has lines included each day so the mom can write the feelings and thoughts that captured her own heart at that stage of her pregnancy making this a beautiful heirloom for generations to enjoy     Proceedings of the Technology and the Mine Problem Symposium Albert M. Bottoms, Barbara Honegger, 1996     Hazardous Child Labour in Latin America G.K. Lietaen, 2011-01-21 In order to bridge the lack of information on child labour and to stimulate policy interventions the IREWOC Foundation International Research on Working Children has undertaken action based research in the field of the worst forms of child labour in Latin America In 2006 and 2007 a comparative study on the Worst Forms of Child Labour was carried out in 7 different economic sectors in Bolivia Guatemala and Peru focussing on the hazardous worst forms The central research objectives were as follows to map the working and living situations of children who are working in specific economic sectors and what the consequences of this work are for their physical and emotional wellbeing to investigate the reasons why these children are

working in these worst forms sectors The research results were expected to give important insights into the currently polarised debate between those who state child labour is above all related to cultural considerations and those who state that economic reasons are fundamental to the phenomena of child labour to map the existing policy initiatives for child labourers in the worst forms and to identify the best practices In the face of challenges imposed by achieving the Millennium Development Goals MDGs set by the UN specific attention was paid to educational initiatives Is education a useful tool in combating child labour and vice versa is child labour a significant obstacle to achieving universal primary education Although the evidence from the various cases discussed in the book illustrate positive trends in terms of the worst forms of child labor thousands of children were still found to be engaged in activities that form a direct threat to their physical mental and moral health and jeopardize their education This book proposes several practical recommendations for possible interventions

**Children and Youth in Armed Conflict (2 vols.)** Ann-Charlotte Nilsson, 2013-12-05 Children and youth in armed conflict grow up in very challenging circumstances Thus an in depth examination of the many interrelated issues they face is warranted which this comprehensive book provides This book addresses their situation in a multidisciplinary way linking their reality in peacetime to their situation in wartime and deals with issues such as their economic social and cultural rights public health the traumatic consequences of war whether violence gives rise to violent behavior the United Nations Convention on the Rights of the Child and international humanitarian law Other issues explored include the provision of education in armed conflict the African Union s Kampala Convention on internally displaced persons Colombia s Constitutional Court s Auto decision 251 on internally displaced children and youth the Inter American African and European human rights work on children in armed conflict and the numerous challenges involved with transitional justice Further the Monitoring and Reporting Mechanism set up by Security Council resolution 1612 2005 the work of the Security Council Working Group on Children and Armed Conflict and the Offices of the Special Representatives of Children and Armed Conflict and on Sexual Violence in Conflict gender based violence and the African Youth Charter are studied This is a book that students and professionals from different disciplines and backgrounds including from academia international organisations non governmental organisations the medical community governments etc will find to be a valuable resource in their quest to learn more about an area of study that has long been neglected 2 Volume set **Amnesty International**, 2004 *The United Mine Workers Journal*, 1917
