Mild Traumatic Brain Injury Shane S. Bush, Dominic Carone, 2012-08-22 This authoritative volume is the first book specifically devoted to symptom validity assessment with individuals with a known or suspected history of mild traumatic brain injury (MTBI). It brings together leading experts in MTBI symptom validity assessment and malingering to provide a thorough and practical guide to the challenging task of assessing the validity of patient presentations after an MTBI. The book describes techniques that can drastically alter case conceptualization, treatment, and equitable allocation of resources. In addition to covering the most important symptom validity assessment methods, this timely volume provides guidance to clinicians on professional and research issues and information on symptom validity testing in varied populations. The book covers MTBI assessment in such specific settings and populations as clinical, forensic, sports, children, gerontological, and military. It also addresses professional issues such as providing feedback to patients about symptom validity, ethical issues, and diagnostic schemas. *Mild Traumatic Brain Injury* will provide neuropsychologists, referring health care providers, courts, disability insurance companies, the military, and athletic teams/leagues with the in-depth, current information that is critical for the accurate and ethical evaluation of MTBI. Key Features: Provides in-depth expert coverage of one of the most critical topics for clinical neuropsychologists. Includes contributions from the leading authorities on both MTBI/postconcussive syndrome and malingering/symptom validity. Covers assessment in such contexts as civil forensics, sports, military veterans, and gerontological settings.

Tasman's Psychiatry Allan Tasman, Michelle B. Riba, Renato D. Alarcón, César A. Alfonso, Shigenobu Kanba, Dusica Lecic-Tosevski, David M. Ndeti, Chee H. Ng, Thomas G. Schulze, 2024-09-04 Authored by over 500 internationally acclaimed expert editors and chapter authors from around the world. Completely updated and expanded with almost 40 new chapters. Significantly increased attention to the role of culture in all aspects of evaluation and care. New sections on Digital Mental Health Services and Technologies, Treatment Issues in Specific Populations and Settings, and on Prevention Systems of Care and Psychosocial Aspects of Treatment address key advances. This edition is the first comprehensive reference work to cover the entire field of psychiatry in an updateable format ensuring access to state-of-the-art information. Earlier editions were called the best current textbook of psychiatry by the *New England Journal of Medicine* and the gold standard by the *American Journal of Psychiatry*. *Tasman's Psychiatry* 5th Edition builds on the initial vision in prior editions of approaching psychiatric evaluation and care from an integrative bio-psycho-social-cultural perspective. It is designed to be an essential and accessible reference for readers at any level of experience. This editorial approach encompasses the importance of the first encounter between patient and clinician, followed by the complex task of beginning to develop a therapeutic relationship and to develop and implement a treatment plan in collaboration with the patient. The importance of increasing attention to the role of culture and social determinants of mental health is reflected both in specific chapters and in components of many chapters throughout the book, especially in those pertaining to clinical evaluation, the therapeutic alliance, and treatment. The global scope of this

edition is reflected throughout the book including the section on psychiatric disorders where evaluation using both ICD 11 and DSM 5 TR is discussed Most chapters are authored by experts from at least two different countries or continents adding a critically important dimension which often is missing in major psychiatric textbooks Tasman s Psychiatry 5th Edition is an essential reference for all medical professionals and students who need a trusted reference or learning tool for psychiatry psychology clinical research social work counseling therapy and all others
