Insurrection Keith David Reeves,2015-10-01 Enough Private interests politicians reformers and pundits have had their chance and enough is enough Teachers have been pushed around and pushed to the edge and the time for tolerating the failed system of our public education policies is over It s time to drag the standardized testing commercial complex out of our schools kicking and screaming if need be and take back our schools for our kids The revolution has already begun We must understand the etiology of the American public school s seeming inability to meaningfully and holistically teach every child if we are to have any hope of changing that school for the better We must wrestle with the philosophical sociological and psychological roots of our misperception and mistreatment of children in order to change the way we understand our students We must also understand the history of reform in American education in order to avoid repeating failed experiments Once we do this we can dismantle the traditional structures of the American Public School deliberately and thoughtfully and capitalize upon the intense zeitgeist of the movement against corporatized standardized multiple choice testing in order to truly revolutionize our schools Over five sequential sections Insurrection addresses educational philosophy the system of schools the social issue of misunderstanding children replacement structures for those that are incompatible with

understandings corrected in the first three sections and a possible manner in which current school employees can lend their efforts to the revolution called for by Sir Ken Robinson in his 2010 TED Talk which served as the impetus for the work

The Western Crisis Peter J. Sandys, 2025-04-07 For decades the Western world has embraced liberal democracy and human rights as its guiding principles But beneath these ideals lurks a dangerous globalist agenda eroding Western culture from within Once a beacon of faith and tradition the West now finds itself divided its best citizens are disillusioned while its worst are emboldened by a toxic zeal Leftist intellectuals with the help of elites have spread their ever shifting ideologies merging democracy socialism and liberalism leading to the capture of Western civilization by progressive socialist and left liberal forces As Western societies struggle with identity and values the battle over diversity nationalism patriotism and race intensifies A suicidal dogma of wokeness historical revisionism and divisive

politics masquerades as democracy and equality pushing progressivism and utopianism as the new religion Meanwhile non Western national conservative states uphold independence and traditional moral values presenting a stark contrast to the West s ideological collapse This book presents a politically incorrect and radical narrative that challenges the foundations of liberal democracy It calls for readers to reject despair awaken to the truth and take action against the forces tearing the West apart The Disunited States of America has become a modern echo of the Soviet Union while the so called Wokers Paradise harbors the seeds of modern barbarism America s identity crisis reflects a deeper fracture across the entire Western world one driven by cultural decline economic deception and the abandonment of democratic values With bold insight this book exposes how woke globalist agendas and rainbow capitalism conceal a Marxist worldview threatening the very fabric of Western civilization The fight for the future of the West is more than a clash between democracy and autocracy it is an ideological and cultural war and the stakes have never been higher The time to act is now *Feel Better Fast and Make It Last* Daniel G.
