## **New Directions In Jewish Philosophy:**

**New Directions in Jewish Philosophy** Aaron W. Hughes, Elliot R. Wolfson, 2010 Breaking with strictly historical or textual perspectives this book explores Jewish philosophy as philosophy Often regarded as too technical for Judaic studies and too religious for philosophy departments Jewish philosophy has had an ambiguous position in the academy These provocative essays propose new models for the study of Jewish philosophy that embrace wider intellectual arenas including linguistics poetics aesthetics and visual culture as a path toward understanding the particular philosophic concerns of Judaism As they reread classic Jewish texts the essays articulate a new set of questions and demonstrate the vitality and originality of Jewish philosophy The Future of Jewish Philosophy Hava Tirosh-Samuelson, Aaron W. Hughes, 2018-08-13 This anthology of original essays reflects on the future of Jewish philosophy in light of the Library of Contemporary Jewish Philosophers Brill 2013 2018 The volume assesses the strengths of Jewish philosophy explores the place of Jewish philosophy within the Western academy as a critique of and contribution to the discipline of philosophy and showcases the relevance of Jewish philosophy to contemporary Jewish culture The volume argues that Jewish philosophy is more vibrant diverse and culturally significant than its public image implies Special attention is paid to the interdisciplinary nature of Jewish philosophy the institutional settings for generating Jewish philosophy and the contribution of philosophizing to contemporary Tewish self understanding **Iewish Philosophy for the Twenty-First Century** Hava Tirosh-Samuelson, Aaron W. Hughes, 2014-08-21 Jewish Philosophy for the Twenty First Century encourages contemporary Jewish thinkers to reflect on the meaning of Judaism in the modern world by connecting these reflections to their own personal biographies In so doing it reveals the complexity of Jewish thought in the present moment The contributors reflect on a range of political social ethical and educational challenges that face Jews and Judaism today and chart a path for the future The results showcase how Jewish philosophy encompasses the methodologies and concerns of other fields such as political theory intellectual history theology religious studies anthropology education comparative literature and cultural studies By presenting how Jewish thinkers address contemporary challenges of Jewish existence the volume makes a valuable contribution to the humanities as a whole especially at a time when the humanities are increasingly under duress for being irrelevant Ibn Gabirol's Theology of Desire Sarah Pessin, 2013-07-08 The first full length treatment of Ibn Gabirol's philosophy in English this study completely reinvents the medieval author of the Fountain of Life or Fons Vitae known to many in the history of philosophy by his Latinized name Avicebron Developing Ibn Gabirol s vision in terms of a Theology of Desire the book rescues the voice of the eleventh century Jewish poet philosopher from centuries of misreadings as it sets out to examine the role of love desire and ethical self transformation in medieval Jewish Neoplatonism David Novak: Natural Law and Revealed Torah Hava Tirosh-Samuelson, Aaron W. Hughes, 2013-11-07 This volume features the thought and writings of Rabbi David Novak the J Richard and Dorothy Shiff Chair of Jewish Studies Professor of the Study of Religion and Professor of Philosophy at the

University of Toronto Novak is a leading Jewish theologian ethicist and scholar of Jewish philosophy and law Natural Law and Revealed Torah presents the work of Novak a thinker interested in the intersection of traditional Judaism and the modern world especially how religious Jews can simultaneously exist within the liberal and democratic nation state yet remain separate from its tradition of secularism Michael Fishbane: Jewish Hermeneutical Theology Hava Tirosh-Samuelson, Aaron W. Hughes, 2015-09-29 Michael Fishbane is Nathan Cummings Distinguished Service Professor of Jewish Studies at the University of Chicago Divinity School Trained in biblical studies and the ancient Near East at Brandeis University he has written on rabbinic interpretation medieval Jewish philosophy and mysticism Hasidism modern Jewish philosophy and Hebrew poetry His earlier groundbreaking historical work has provided the foundation for his more recent constructive hermeneutic theology Among his numerous books are the award winning Biblical Interpretation in Ancient Israel 1985 and Kiss of God 1994 Biblical Myth and Rabbinic Mythmaking 2003 and Sacred Attunement A Jewish Theology 2008 He is in addition an elected member of the American Academy of Jewish Research and the American Academy of Arts Gendering Modern Jewish Thought Andrea Dara Cooper, 2021-11-02 The idea of brotherhood has been an and Sciences important philosophical concept for understanding community equality and justice In Gendering Modern Jewish Thought Andrea Dara Cooper offers a gendered reading that challenges the key figures of the all male fraternity of twentieth century Jewish philosophy to open up to the feminine Cooper offers a feminist lens which when applied to thinkers such as Franz Rosenzweig and Emmanuel Levinas reveals new ways of illuminating questions of relational ethics embodiment politics and positionality She shows that patriarchal kinship as models of erotic love brotherhood and paternity are not accidental in Jewish philosophy but serve as norms that have excluded women and non normative individuals Gendering Modern Jewish Thought suggests these fraternal models do real damage and must be brought to account in more broadly humanistic frameworks For Cooper a more responsible and ethical reading of Jewish philosophy comes forward when it is opened to the voices of mothers sisters and daughters Joseph Ibn Kaspi Adrian Sackson, 2017-07-03 Joseph Ibn Kaspi was among the most prolific philosophical writers in one of the most vibrant productive creative periods in the history of Jewish philosophy Born around 1280 in Provence Ibn Kaspi penned works engaging a broad range of fields including philosophy theology grammar logic biblical exegesis and interreligious polemics In Joseph Ibn Kaspi Portrait of a Hebrew Philosopher in Medieval Provence Adrian Sackson asks the question What was Ibn Kaspi's overarching intellectual project The book focuses on several key themes Ibn Kaspi s conception of the formative not just discursive function of philosophy his multi layered esotericism his distinct approach to the interpretation of Maimonides his Maimonidean philosophical approach to the interpretation of religious texts and practices his Platonic political thought his approach to messianism and his attendant conception of the nature of human history Winged Words: Benjamin, Rosenzweig, and the Life of Quotation Benjamin E. Sax, 2023-07-24 This is the first book to explore the role of guotation in modern Jewish thought Weaving back

and forth from Benjamin to Rosenzweig the book searches for the recovery of concealed and lost meaning in the community of letters sacred scripture the collecting of books storytelling and the life of liturgy It also explores how the legacy of Goethe can be used to develop new strata of religious and Jewish thought We learn how quotation is the binding tissue that links language and thought modernity and tradition religion and secularism as a way of being in the world The Routledge Handbook of Judaism in the 21st Century Keren Eva Fraiman, Dean Phillip Bell, 2023-03-01 The Routledge Handbook of Judaism in the 21st Century is a cutting edge volume that addresses central questions and issues animating Judaism Jewish identity and Jewish society in a global integrated and forward looking way It introduces readers to the complexity of Judaism as it has developed and continues to develop throughout the 21st century through the prism of three contemporary sets of issues identities and geographies structures and power and knowledge and performances Within these sections international contributors examine central issues topics and debates including individual and collective identity globalization and localization Jewish demography diversity denominations and pluralism interreligious relations political orientations community organization family and gender the Bible and Talmud today Jewish philosophy and authority in Jewish thought digital Judaism antisemitism Jewish spirituality and rituals memory language religious education material culture literature music and art approaches to the environment and contemporary Zionism and Israel The handbook also includes an extensive bibliography to help orient readers to the most important and leading work in the field The Routledge Handbook of Judaism in the 21st Century is essential reading for students and researchers in religious studies and Jewish studies It will also be useful for those in related fields such as cultural studies literature sociology anthropology and history as well as Jewish professionals and lay leaders Thinking in Public Benjamin Aldes Wurgaft, 2019-05-17 Long before we began to speak of public intellectuals the ideas of the public and the intellectual raised consternation among many European philosophers and political theorists Thinking in Public examines the ambivalence these linked ideas provoked in the generation of European Jewish thinkers born around 1900 By comparing the lives and works of Hannah Arendt Emmanuel Levinas and Leo Strauss who grew up in the wake of the Dreyfus Affair and studied with the philosopher and sometime National Socialist Martin Heidegger Benjamin Aldes Wurgaft offers a strikingly new perspective on the relationship between philosophers and politics Rather than celebrate or condemn the figure of the intellectual Wurgaft argues that the stories we tell about intellectuals and their publics are useful barometers of our political hopes and fears What ideas about philosophy itself and about the public s capacity for reasoned discussion are contained in these stories And what work do we think philosophers and other thinkers can and should accomplish in the world beyond the classroom The differences between Arendt Levinas and Strauss were great but Wurgaft shows that all three came to believe that the question of the social role of the philosopher was the question of their century. The figure of the intellectual was not an ideal to be emulated but rather a provocation inviting these three thinkers to ask whether truth and politics could ever be harmonized whether philosophy was a fundamentally worldly or

unworldly practice **Understanding the Jewish Roots of Christianity** Gerald McDermott, 2021-03-17 How Jewish is Christianity The question of how Jesus followers relate to Judaism has been a matter of debate since Jesus first sparred with the Pharisees The controversy has not abated taking many forms over the centuries In the decades following the Holocaust scholars and theologians reconsidered the Jewish origins and character of Christianity finding points of continuity Understanding the Jewish Roots of Christianity advances this discussion by freshly reassessing the issues Did Jesus intend to form a new religion Did Paul abrogate the Jewish law Does the New Testament condemn Judaism How and when did Christianity split from Judaism How should Jewish believers in Jesus relate to a largely gentile church What meaning do the Jewish origins of Christianity have for theology and practice today In this volume a variety of leading scholars and theologians explore the relationship of Judaism and Christianity through biblical historical theological and ecclesiological angles This cutting edge scholarship will enrich readers understanding of this centuries old debate "Into Life." Franz Rosenzweig on Knowledge, Aesthetics, and Politics, 2021-07-26 The articles collected in Into Life Franz Rosenzweig on Knowledge Aesthetics and Politics focus on the significance of Franz Rosenzweig's work far beyond the realms of theology and philosophy of religion They engage with a wide range of issues in philosophy and offer new insights both by presenting an array of unpublished and underestimated sources and by bringing Rosenzweig's thought into dialogue with new approaches and interlocutors such as Stanley Cavell William Alston Carl Schmitt and Martin Heidegger The result is a refreshing and original perspective on the work of one of the most significant thinkers of the twentieth century III Michael Tilly, Burton L. Visotzky, 2020-04-28 Judaism the oldest of the Abrahamic religions is one of the pillars of modern civilization A collective of internationally renowned experts cooperated in a singular academic enterprise to portray Judaism from its transformation as a Temple cult to its broad contemporary varieties. In three volumes the long running book series Die Religionen der Menschheit Religions of Humanity presents for the first time a complete and compelling view on Jewish life now and then a fascinating portrait of the Jewish people with its ability to adapt itself to most different cultural settings always maintaining its strong and unique identity Volume III completes this ambitious project with profound chapters on Modern Jewish Culture Halakhah Jewish Law Jewish Languages Jewish Philosophy Modern Jewish Literature Feminism and Gender and on Judaism and inter faith relations Judaism and the West Robert Erlewine, 2016-08-08 Grappling with the place of Jewish philosophy at the margin of religious studies Robert Erlewine examines the work of five Jewish philosophers Hermann Cohen Martin Buber Franz Rosenzweig Abraham Joshua Heschel and Joseph Soloveitchik to bring them into dialogue within the discipline Emphasizing the tenuous place of Jews in European and particularly German culture Erlewine unapologetically contextualizes Jewish philosophy as part of the West He teases out the antagonistic and overlapping attempts of Jewish thinkers to elucidate the philosophical and cultural meaning of Judaism when others sought to deny and even expel Jewish influences By reading the canon of Jewish philosophy in this new light Erlewine offers insight into how

Jewish thinkers used religion to assert their individuality and modernity The Open Past:Subjectivity and Remembering in the Talmud Sergey Dolgopolski, 2013 The Open Past challenges a view of time that has dominated philosophical thought for the past two centuries In that view time originates from a relationship to the future and the past can be only a fictitious beginning the necessary phantom of a starting point a chronological period of before This view of the past has permeated the study of the Talmud as well resulting in the application of modern philosophical categories such as the thinking subject subjectivity and temporality to the thinking displayed in the texts of the Talmud The book seeks to reclaim the originary power and authority the past exerts in the Talmud Central to the task of reclaiming a radical role for the past are medieval notions of the virtual and their contrasting modern appropriations the thinking subject among them These serve as both a bridging point and a demarcation between the practices of thinking and remembering displayed in the conversations held by the characters in the Talmud by contrast to other rhetorical or philosophical schools and disciplines of thought Matter and Form of Maimonides' Guide Josef Stern, 2013-06-03 Maimonides Guide of the Perplexed is generally read as an attempt either to harmonize reason and revelation or to show that they are irreconcilable Moving beyond these familiar debates Josef Stern argues that the perplexity addressed in this famously enigmatic work is the tension between human matter and form the body and intellect Hermann Cohen and the Crisis of Liberalism Paul E. Nahme, 2019-03-28 A fresh look at a nineteenth century lewish philosopher whose theology offers a beacon in an illiberal twenty first century world Recommended Choice Hermann Cohen is often held to be one of the most important Jewish philosophers of the nineteenth century Paul E Nahme in this new consideration of Cohen liberalism and religion emphasizes the idea of enchantment or the faith in and commitment to ideas reason and critique the animating spirits that move society forward Nahme views Cohen through the lenses of the crises of Imperial Germany the rise of antisemitism nationalism and secularization to come to a greater understanding of liberalism its Protestant and Jewish roots and the spirits of modernity and tradition that form its foundation Nahme's philosophical and historical retelling of the story of Cohen and his spiritual investment in liberal theology present a strong argument for religious pluralism and public reason in a world rife with populism identity politics and conspiracy theories Norbert M. Samuelson: Reasoned Faith Hava Tirosh-Samuelson, Aaron W. Hughes, 2015-08-25 Norbert M Samuelson is Harold and Jean Grossman Chair of Jewish Studies and Professor of Religious Studies at Arizona State University in Tempe Arizona Trained as an analytic philosopher he went on to establish the Academy of Jewish Philosophy in 1980 which contributed greatly to the professionalization of Jewish philosophy in America An ordained Reform rabbi a constructive theologian and a public intellectual Samuelson has insisted that philosophy is the very heart of Judaism and that in order to survive in the 21st century Judaism must rethink itself in light of contemporary science Through his scholarship and organizational work he has brought a Jewish voice to the dialogue of religion and science Viewing Jewish philosophy as central to the understanding of the Jewish past Samuelson has

explicated the philosophical dimension of Judaism from the Bible to the present 
Jewish Theology for a Postmodern Age Miriam Feldmann Kaye,2019-03-08 Through a critical study of the writings of Rav Shagar and Tamar Ross Miriam Feldmann Kaye asks how Jewish theology can survive the tide of postmodernism and its refutation of a single objective and ultimate truth and suggests how aspects of postmodernism might be conceived of as a potential resource for rejuvenating religion
