China's charm offensive this book also explains what the structural configuration of these institutes can tell us about China's understanding of and approaches towards public diplomacy The study demonstrates that in contrast to their international counterparts CIs are normally organised as joint ventures between international and Chinese partners in the field of education or cultural exchange From this unique setting a more fundamental observation can be made namely China's willingness to engage and cooperate with foreigners in the context of public diplomacy Overall the author argues that by utilizing the current global fascination with Chinese language and culture the Chinese government has found interested and willing international partners to co finance the CIs and thus partially fund China's international charm offensive This book will be of much interest to students of public diplomacy Chinese politics foreign policy and international relations in general
