Guran,2016-04-14 For more than 80 years H P Lovecraft has inspired writers of horror and supernatural fiction with his dark
vision of humankind s insignificant place in a vast uncaring cosmos At the time of his death in 1937 Lovecraft was virtually
unknown but from early cult status his readership expanded exponentially his nightmarish visions laying down roots in the
collective imagination of his readers Now this master of the macabre is accepted as part of the literary mainstream as an
American author of note and the impact of his work on modern popular culture in literature film television music the graphic
arts gaming and theatre has been profound As Stephen King wrote in Danse Macabre the shadow of H P Lovecraft underlies
almost all of the important horror fiction that has come since Today Lovecraft s themes of cosmic indifference the utter
insignificance of humankind minds invaded by the alien and the horrors of history remain not only viable motifs for modern
speculative fiction but are more relevant than ever as we explore the mysteries of a universe in which our planet is
infinitesimal This outstanding anthology of original stories from both established award winning authors and exciting new
voices collects tales of cosmic horror inspired by Lovecraft from authors who do not merely imitate but reimagine re energize
and renew the best of his concepts in ways relevant to today s readers to create fresh new fiction that explores our modern
fears and nightmares From the depths of R lyeh to the heights of the Mountains of Madness some of today s best weird
fiction writers traverse terrain created by Lovecraft and create new eldritch geographies to explore With stories by Laird

Beyond the Woods Paula Guran,2016-07-05 Once upon a time the stories that came to be known as fairy tales were cultivated to entertain adults more than children it was only later that they were tamed and pruned into less thorny versions intended for youngsters But in truth they have continued to prick the imaginations of readers at all ages Over the years authors have often borrowed bits and pieces from these stories grafting them into their own writing creating literature with both new meaning and age old significance In the last few decades or so they ve also intentionally

retold and reinvented the tales in a variety of ways delightful or dark wistful or wicked sweet or satirical that forge new trails through the forests of fantastic fiction This new anthology compiles some of the best modern fairy tale retellings and reinventions from award winning and bestselling authors acclaimed storytellers and exciting new talents into an enchanting collection Explore magical new realms by traveling with us Beyond the Woods [Theology and H.P. Lovecraft](#) Austin M. Freeman,2022-08-15 While still relatively unknown to the general public early twentieth century American horror author H P Lovecraft left an indelible stamp upon popular culture Images of tentacled horrors forbidden tomes and protagonists struggling against the insanity that comes with the revelation of the terrible truth of reality Lovecraft pioneered all of these Best known for his short story The Call of Cthulhu Lovecraft instantiated his philosophy of cosmicism into every one of his tales This collection of fourteen essays is the first sustained academic engagement with horror author H P Lovecraft from a theological perspective Covering the major themes of Lovecraft s work such as nihilism xenophobia dark cults and unimaginable horrors beyond the stars the book is divided into five sections corresponding to each of the divisions of theology biblical historical systematic practical and comparative With responses ranging from admiration to critique the contributors explore the dark uncharted regions of Lovecraft s dark mythology in the service of theological truth [New Directions in Children's Gothic](#) Anna Jackson,2017-03-27 Children s literature today is dominated by the gothic mode and it is in children s gothic fictions that we find the implications of cultural change most radically questioned and explored This collection of essays looks at what is happening in the children s Gothic now when traditional monsters have become the heroes when new monsters have come into play when globalisation brings Harry Potter into China and yaoguai into the children s Gothic and when childhood itself and children s literature as a genre can no longer be thought of as an uncontested space apart from the debates and power struggles of an adult domain We look in detail at series such as The Mortal Instruments Twilight Chaos Walking The Power of Five Skulduggery Pleasant and Cirque du Freak at novels about witches and novels about changelings at the Gothic in China Japan and Oceania and at authors including Celia Rees Frances Hardinge Alan Garner and Laini Taylor amongst many others At a time when the energies and anxieties of children s novels can barely be contained anymore within the genre of children s literature spilling over into YA and adult literature we need to pay attention Weird things are happening and they matter
