The Business Cycle Howard J. Sherman, 2014-07-14 Are the recurring recessions of the capitalist world merely short term adjustments to changing economic circumstances in a system that tends in general toward equilibrium In this accessible study of the business cycle Howard Sherman makes a powerful case that recessions and painful involuntary unemployment are endogenous to capitalism Drawing especially on the work of Wesley Clair Mitchell Karl Marx and John M Keynes Sherman explains why the nature of the business cycle produces serious economic loss and misery during its contraction phase just as it produces growth in its expansion phase Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
