Never Built Los Angeles:

Never Built Los Angeles Greg Goldin, Sam Lubell, 2013 *Never Built Los Angeles* explores the what if Los Angeles investigating the values and untapped potential of a city still in search of itself A treasure trove of buildings master plans parks follies and mass transit proposals that only saw the drawing board the book asks why is Los Angeles a mecca for great architects yet so lacking in urban innovation Featured are more than 100 visionary works that could have transformed both the physical reality and the collective perception of the metropolis from Olmsted Brothers and Bartholomew s groundbreaking 1930 Plan for the Los Angeles Region which would have increased the amount of green space in the notoriously park poor city fivefold to John Lautner s Alto Capistrano a series of spaceship like apartments hovering above a mixed use development to Jean Nouvel s 2008 Green Blade a condominium tower clad entirely in cascading plants Through text and more than 400 color and black and white illustrations drawn from archives around the U S authors Sam Lubell and Greg Goldin explore the visceral and sometimes misleading power of architectural ideas conveyed through sketches renderings blueprints models and the now waning art of hand drawing Many of these schemes promoting a denser more vibrant city are still relevant today and could inspire future designs *Never Built Los Angeles* will set the stage for a renewed interest in visionary projects in this one of the world s great cities

Never Built New York Greg Goldin, Sam Lubell, 2016 Following on the success of *Never Built Los Angeles* Metropolis Books 2013 authors Greg Goldin and Sam Lubell now turn their eye to New York City New York towers among world capitals but the city we know might have reached even more stellar heights or burrowed into more destructive depths had the ideas pictured in the minds of its greatest dreamers progressed beyond the drawing board and taken form in stone steel and glass What is wonderfully elegant and grand might easily have been ingloriously grandiose what is blandly unremarkable equally might have become delightfully provocative or humanely inspiring The ambitious schemes gathered here tell the story of a different skyline and a different sidewalk alike Nearly 200 ambitious proposals spanning 200 years encompass bridges skyscrapers master plans parks transit schemes amusements airports plans to fill in rivers and extend Manhattan and much much more Included are alternate visions for such landmarks as Central Park Columbus Circle Lincoln Center MoMA the U N Grand Central Station and the World Trade Centre site among many others sites Fact filled and entertaining texts as well as sketches renderings prints and models drawn from archives all across the New York metropolitan region tell stories of a new New York one that surely would have changed the way we inhabit and move through the city

Loos Fischer and his California structures have until now escaped the attention of architectural history Exiled in L A examines Fischer s important yet overlooked contributions to Southern California architecture As the whereabouts of Fischer s archives remain unknown Volker M Welter grounds the designer s California works in comparison with his pre exile projects and the compositions of fellow architects in California In the 1920s Fischer created experimental working class housing estates in Germany that pioneered ecological construction and living practices Comparable to their predecessors Fischer s California buildings revolve around the functioning the organization of a home as he defined domestic architecture in 1926 Featuring new photography and detailed architectural plans this book is an original contribution to the literature on Southern California s built heritage *Under One Roof* George C. Holliday, 2016-05-03 A vivid and engaging exploration of California's debt to the ancient world Discussing the influence of the classics on America is nothing new indeed classical antiquity could be considered second only to Christianity as a force in modeling America's national identity What has never been explored until now is how from the beginning Californians in particular chose to visually and culturally craft their new world using the rhetoric of classical antiquity Through a lively exploration of material culture literature and architecture American Arcadia offers a tour through California's development as a Mediterranean haven from the late nineteenth century to the present In its earliest days California was touted as the last opportunity for alienated Yankees to establish the refined gentleman farmer culture envisioned by Jefferson and build new cities free of the filth and corruption of those they left back East Through architecture and landscape design Californians fashioned an Arcadian setting evocative of ancient Greece and Rome Later as Arcadia gave way to urban sprawl entire city plans were drafted to conjure classical antiquity self-styled villas dotted the hills and utopian communities began to shape the state's social atmosphere Art historian Peter J. Holliday traces the classical influence primarily through the evidence of material culture yet the book emphasizes the stories and people famous and forgotten behind the works such as Florence Yoch the renowned landscape designer and set designer for *Gone with the Wind* and Sister Aimee Semple McPherson the most publicized Christian evangelist of her day whose sermons filled the Pantheon like Angelus Temple Telling stories from the creation of the famed aqueducts that turned the semi-arid landscape to a cornucopia of almonds alfalfa and oranges to the birth of the body sculpting movement American Arcadia offers readers a new way of seeing our past and ourselves

Imhotep Today Jean-Marcel Humbert, 2016-06-16 This book presents and analyses the results of the use and adaptation of ancient Egyptian architecture in modern times It traces the use of ancient Egyptian motifs and constructions across the

world from Australia the Americas and Southern Africa to Western Europe It also inquires into the cultural economic and social contexts of this practice Imhotep Today is exceptional not only in its global coverage but in its analyses of thorny questions such as what was it about Ancient Egypt that inspired such Egyptianizing monuments and was it just one idea or several different ones which formed the basis of such activities The book also asks why only certain images such as obelisks and sphinxes were incorporated within the movement The contributors explore how these monuments fitted into the local architecture of the time and in this context they investigate whether Egyptianizing architecture is an ongoing movement and if so how it differs from earlier similar activities Contemporary Architects Muriel Emanuel,2016-01-23 **The Making of Place** John Dixon Hunt,2015-11-15 Gardening is rich in tradition and many gardens are explicitly designed to refer to or honor the past But garden design is also rich in innovation and in *The Making of Place* John Dixon Hunt explores the wide varieties of approaches aesthetics and achievements in garden design throughout the world today The gardens Hunt explores offer surprising new ideas about how we can carve out a space for respite in nature Taking readers to gardens public and private busy and hidden away to botanical gardens small parks university campuses and vernacular gardens Hunt showcases the differences between cultures and countries around the globe including the United States United Kingdom France Germany China and Australia Richly illustrated *The Making of Place* is sure to enchant and inspire even the most modest of home gardeners *Crossing Boundaries* Brian D. Behnken,Simon Wendt,2013-06-27 *Crossing Boundaries* Ethnicity Race and National Belonging in a Transnational World explores ethnic and racial nationalism within a transnational and transcultural framework in the long twentieth century late nineteenth to early twenty first century The contributors to this volume examine how national solidarity and identity with their vast array of ideological political intellectual social and ethno racial qualities crossed juridical territorial and cultural boundaries to become transnational how they altered the ethnic and racial visions of nation states throughout the twentieth century and how they ultimately influenced conceptions of national belonging across the globe Human beings live in an increasingly interconnected transnational global world National economies are linked worldwide information can be transmitted around the world in seconds and borders are more transparent and fluid In this process of transnational expansion the very definition of what constitutes a nation and nationalism in many parts of the world has been expanded to include individuals from different countries and more importantly members of ethno racial communities But crossing boundaries is not a new phenomenon In fact transnationalism has a long and sordid history that has not been fully appreciated Scholars and laypeople interested in national development ethnic nationalism as well as world history will find *Crossing Boundaries* indispensable **Journey** Marsha Mason,2002-01-27 As an actress Marsha Mason has had a varied and very successful career Winner of the Golden Globe award as best actress and a four time Academy Award nominee she has worked in film perhaps most notably in the movies *Cinderella Liberty* *Chapter Two* and *The Goodbye Girl* television most recently as Sherry on *Frasier* and the theater having

performed in London's West End on and off Broadway and in regional theater around the U S While the path she followed to achieve her success was seldom an easy one Marsha Mason never wavered in her determination She wanted to be an actress that much she knew even as a young girl growing up in a modest neighborhood in St Louis For her acting would be an escape a chance to be someone other than the girl who seemed always to disappoint and anger her parents the ticket that would take her out of their provincial strict Catholic household and transport her to another world somewhere between reality and fantasy Now in Journey Marsha Mason retraces the path she followed out of her difficult childhood She moved to New York City where she worked as a waitress and go go dancer before landing a role in the then popular daytime TV soap opera Love of Life After that her world started to change as one success led to another The biggest change however came when she met Neil Simon Broadway's most successful and powerful playwright the creator of such long running shows as Barefoot in the Park and The Odd Couple Cast in his play The Good Doctor Mason found herself drawn to the charismatic Simon who was still struggling with the pain of losing his wife Joan to cancer After a brief whirlwind courtship they married and nothing was ever the same The couple moved to Hollywood so Mason could pursue film work and Simon began writing a string of films to star his new wife Her journey had indeed taken her far as she realized an undreamed of level of success There was however a price to pay The marriage to Simon ended so abruptly and left such a major void that for quite some time afterward Marsha Mason seemed to have neither direction nor focus in her life Finally deciding to leave Hollywood and to undertake an entirely different career raising herbs on a ranch in New Mexico she began a new stage of her journey the one that frames this very personal and involving memoir by packing up a lifetime of memories and setting off with friends on an odyssey that finds her today a successful farmer with a still active career as an actress Marsha Mason's Journey is revealing of the demands and sacrifices of the life of a successful actress and at the same time inspiring as she traces a lifetime spent in search of an elusive happiness As an adult child of alcoholics she has come to understand the forces that shaped her life and propelled her along a path that was as inevitable as it was debilitating And now from her present vantage point she is able to look back with a new understanding one that enables her to take comfort in the success she has found and find joy in learning to celebrate life
