

The background of the cover is a solid light blue. In the top right corner, a portion of the American flag is visible, showing the red and white stripes and a small section of the blue field with stars. The flag appears to be waving. In the center-left, a black helicopter is shown in flight, facing left. The main title is overlaid on the background.

Natsu Taylor Saito

New Deportations Delirium Interdisciplinary Citizenship:

The New Deportations Delirium Daniel Kanstroom, M. Brinton Lykes, 2015-12-25 Since 1996 when the deportation laws were hardened millions of migrants to the U S including many long term legal permanent residents with green cards have experienced summary arrest incarceration without bail transfer to remote detention facilities and deportation without counsel The complexities of these issues are discussed and an argument is made for an interdisciplinary dialogue and response Deportation policy is debated by lawyers judges social workers researchers and clinical and community psychologists as well as educators researchers and community activists

The New Deportations Delirium Dan Kanstroom, M. Brinton Lykes, 2015

Handbook on the Consequences of Sentencing and Punishment Decisions Beth M. Huebner, Natasha A. Frost, 2018-08-06 Handbook on the Consequences of Sentencing and Punishment Decisions the third volume in the Routledge ASC Division on Corrections Sentencing Series includes contemporary essays on the consequences of punishment during an era of mass incarceration The Handbook Series offers state of the art volumes on seminal and topical issues that span the fields of sentencing and corrections In that spirit the editors gathered contributions that summarize what is known in each topical area and also identify emerging theoretical empirical and policy work The book is grounded in the current knowledge about the specific topics but also includes new synthesizing material that reflects the knowledge of the leading minds in the field Following an editors introduction the volume is divided into four sections First two contributions situate and contextualize the volume by providing insight into the growth of mass punishment over the past three decades and an overview of the broad consequences of punishment decisions The overviews are then followed by a section exploring the broader societal impacts of punishment on housing employment family relationships and health and well being The third section centers on special populations and examines the unique effects of punishment for juveniles immigrants and individuals convicted of sexual or drug related offenses The fourth section focuses on institutional implications with contributions on jails community corrections and institutional corrections

Money Matters in Migration Tesseltje de Lange, Willem Maas, Annette Schrauwen, 2021-11-18 Money shapes all aspects of migration This book explains how and why focusing on policy participation and citizenship

The Oxford Handbook of Migration Crises Dr. Cecilia Menjivar, Dr. Marie Ruiz, Dr. Immanuel Ness, 2019-01-16 The objective of The Oxford Handbook of Migration Crises is to deconstruct question and redefine through a critical lens what is commonly understood as migration crises The volume covers a wide range of historical economic social political and environmental conditions that generate migration crises around the globe At the same time it illuminates how the media and public officials play a major role in framing migratory flows as crises The volume brings together an exceptional group of scholars from around the world to critically examine migration crises and to revisit the notion of crisis through the context in which permanent and non permanent migration flows occur The Oxford Handbook of Migration Crises offers an understanding of individuals in societies socio economic

structures and group processes Focusing on migrants departures and arrivals in all continents this comprehensive handbook explores the social dynamics of migration crises with an emphasis on factors that propel these flows as well as the actors that play a role in classifying them and in addressing them The volume is organized into nine sections The first section provides a historical overview of the link between migration and crises The second looks at how migration crises are constructed while the third section contextualizes the causes and effects of protracted conflicts in producing crises The fourth focuses on the role of climate and the environment in generating migration crises while the fifth section examines these migratory flows in migration corridors and transit countries The sixth section looks at policy responses to migratory flows The last three sections look at the role media and visual culture gender and immigrant incorporation play in migration crises *Routledge International Handbook of Migration Studies* Steven J. Gold, Stephanie J. Nawyn, 2019-05-08 This revised and expanded second edition of *Routledge International Handbook of Migration Studies* provides a comprehensive basis for understanding the complexity and patterns of international migration Despite increased efforts to limit its size and consequences migration has wide ranging impacts upon social environmental economic political and cultural life in countries of origin and settlement Such transformations impact not only those who are migrating but those who are left behind as well as those who live in the areas where migrants settle Featuring forty six essays written by leading international and multidisciplinary scholars this new edition showcases evolving research and theorizing around refugees and forced migrants new migration paths through Central Asia and the Middle East the condition of statelessness and South to South migration New chapters also address immigrant labor and entrepreneurship skilled migration ethnic succession contract labor and informal economies Uniquely among texts in the subject area the Handbook provides a six chapter compendium of methodologies for studying international migration and its impacts Written in a clear and direct style this Handbook offers a contemporary integrated resource for students and scholars from the perspectives of social science humanities journalism and other disciplines

Deported Americans Beth C. Caldwell, 2019-02-28 When Gina was deported to Tijuana Mexico in 2011 she left behind her parents siblings and children all of whom are U S citizens Despite having once had a green card Gina was removed from the only country she had ever known In *Deported Americans* legal scholar and former public defender Beth C Caldwell tells Gina s story alongside those of dozens of other Dreamers who are among the hundreds of thousands who have been deported to Mexico in recent years Many of them had lawful status held green cards or served in the U S military Now they have been banished many with no hope of lawfully returning Having interviewed over one hundred deportees and their families Caldwell traces deportation s long term consequences such as depression drug use and homelessness on both sides of the border Showing how U S deportation law systematically fails to protect the rights of immigrants and their families Caldwell challenges traditional notions of what it means to be an American and recommends legislative and judicial reforms to mitigate the injustices suffered by the millions of U S citizens affected by deportation **At Home in Two Countries** Peter

J Spiro, 2016-06-07 Read Peter's Op ed on Trump's Immigration Ban in The New York Times The rise of dual citizenship could hardly have been imaginable to a time traveler from a hundred or even fifty years ago Dual nationality was once considered an offense to nature an abomination on the order of bigamy It was the stuff of titanic battles between the United States and European sovereigns As those conflicts dissipated dual citizenship continued to be an oddity a condition that if not quite freakish was nonetheless vaguely disreputable a status one could hold but not advertise Even today some Americans mistakenly understand dual citizenship to somehow be illegal when in fact it is completely tolerated Only recently has the status largely shed the opprobrium to which it was once attached At Home in Two Countries charts the history of dual citizenship from strong disfavor to general acceptance The status has touched many there are few Americans who do not have someone in their past or present who has held the status if only unknowingly The history reflects on the course of the state as an institution at the level of the individual The state was once a jealous institution justifiably demanding an exclusive relationship with its members Today the state lacks both the capacity and the incentive to suppress the status as citizenship becomes more like other forms of membership Dual citizenship allows many to formalize sentimental attachments For others it's a new way to game the international system This book explains why dual citizenship was once so reviled why it is a fact of life after globalization and why it should be embraced today

Detain and Deport Nancy Hiemstra, 2019-03-15 Detention and deportation have become keystones of immigration and border enforcement policies around the world The United States has built a massive immigration enforcement system that detains and deportes more people than any other country This system is grounded in the assumptions that national borders are territorially fixed and controllable and that detention and deportation bolster security and deter migration Nancy Hiemstra's multisited ethnographic research pairs investigation of enforcement practices in the United States with an exploration into conditions migrants face in one country of origin Ecuador Detain and Deport's transnational approach reveals how the U S immigration enforcement system's chaotic organization and operation distracts from the mismatch between these assumptions and actual outcomes Hiemstra draws on the experiences of detained and deported migrants as well as their families and communities in Ecuador to show convincingly that instead of deterring migrants and improving national security detention and deportation generate insecurities and forge lasting connections across territorial borders At the same time the system's chaos works to curtail rights and maintain detained migrants on a narrow path to deportation Hiemstra argues that in addition to the racialized ideas of national identity and a fluctuating dependence on immigrant labor that have long propelled U S immigration policies the contemporary emphasis on detention and deportation is fueled by the influence of people and entities that profit from them

Settler Colonialism, Race, and the Law Natsu Taylor Saito, 2020-03-10 2021 Outstanding Academic Title Choice Magazine How taking Indigenous sovereignty seriously can help dismantle the structural racism encountered by other people of color in the United States Settler Colonialism Race and the Law provides a timely analysis of structural racism at the intersection of law and

colonialism Noting the grim racial realities still confronting communities of color and how they have not been alleviated by constitutional guarantees of equal protection this book suggests that settler colonial theory provides a more coherent understanding of what causes and what can help remediate racial disparities Natsu Taylor Saito attributes the origins and persistence of racialized inequities in the United States to the prerogatives asserted by its predominantly Angloamerican colonizers to appropriate Indigenous lands and resources to profit from the labor of voluntary and involuntary migrants and to ensure that all people of color remain in their place By providing a functional analysis that links disparate forms of oppression this book makes the case for the oft cited proposition that racial justice is indivisible focusing particularly on the importance of acknowledging and contesting the continued colonization of Indigenous peoples and lands *Settler Colonialism Race and the Law* concludes that rather than relying on promises of formal equality we will more effectively dismantle structural racism in America by envisioning what the right of all peoples to self determination means in a settler colonial state

Illegal Encounters Deborah A. Boehm, Susan J. Terrio, 2019-02-19 The impact of the U S immigration and legal systems on children and youth In the United States millions of children are undocumented migrants or have family members who came to the country without authorization The unique challenges with which these children and youth must cope demand special attention *Illegal Encounters* considers illegality deportability and deportation in the lives of young people those who migrate as well as those who are affected by the migration of others A primary focus of the volume is to understand how children and youth encounter move through or are outside of a range of legal processes including border enforcement immigration detention federal custody courts and state processes of categorization Even if young people do not directly interact with state immigration systems because they are U S citizens or have avoided detention they are nonetheless deeply affected by the reach of the government in its many forms Contributors privilege the voices and everyday experiences of immigrant children and youth themselves By combining different perspectives from advocates service providers attorneys researchers and young immigrants the volume presents rich accounts that can contribute to informed debates and policy reforms *Illegal Encounters* sheds light on the unique ways in which policies laws and legal categories shape so much of daily life for young immigrants The book makes visible the burdens hopes and potential of a population of young people and their families who have been largely hidden from public view and are currently under siege following their movement through complicated immigration systems and institutions in the United States

The Routledge Handbook of Male Sex Work, Culture, and Society John Scott, Christian Grov, Victor Minichiello, 2021-03-20 Panoramic and provocative in its scope this handbook is the definitive guide to contemporary issues associated with male sex work and a must read for those who study masculinities male sexuality sexual health and sexual cultures This groundbreaking volume will have a powerful impact on our understanding of this challenging elusive subject While the internet has brought the previously hidden worlds of male sex work more starkly into public view academic research has often remained locked into descriptions

of male sex workers and their clients as perverse Drawing from a variety of regions the chapters provide insights into the historical popular cultural social and economic aspects of sex work as well as demographic patterns health outcomes and policy issues This approach shifts thought on male sex work from a hidden social problem to a publicly acknowledged social phenomenon The book challenges myths and reconceptualizes male sex work as a discrete field Importantly it provides a vehicle for the voices of male sex workers and new and established scholars This richly detailed humane and innovative collection retrieves male sex work from silence and invisibility on the one hand and its association with scandal and stigma on the other The findings within have profound implications for how governments approach public health and regulation of the sex industry and for how society can make sense of the complexities of human sexualities A compelling scholarly read and a major contribution to a commercial sector that is often neglected in policy debates on sex work this handbook will be of great interest to scholars of criminology sociology gender studies and cultural studies and all those interested in male sex work

Handbook of the Sociology of Morality, Volume 2 Steven Hitlin, Shai M. Dromi, Aliza Luft, 2023-10-25 This handbook articulates how sociology can re engage its roots as the scientific study of human moral systems actions and interpretation This second volume builds on the successful original volume published in 2010 which contributed to the initiation of a new section of the American Sociological Association ASA thus growing the field This volume takes sociology back to its roots over a century ago when morality was a central topic of work and governance It engages scholars from across subfields in sociology representing each section of the ASA who each contribute a chapter on how their subfield connects to research on morality This reference work appeals to broader readership than was envisaged for the first volume as the relationship between sociology as a discipline and its origins in questions of morality is further renewed The volume editors focus on three areas the current state of the sociology of morality across a range of sociological subfields taking a new look at some of the issues discussed in the first handbook which are now relevant in sometimes completely new contexts and reflecting on where the sociology of morality should go next This is a must read reference for students and scholars interested in topics of morality ethics altruism religion and spirituality from across the social science
