African Contextual Realities Rodney L. Reed,2018-08-14 Everyone who has eyes to see acknowledges the growing importance of the African church to the future of global Christianity But what does it mean for the church to take root in Africa How should the message of the gospel and the practice of Christianity be contextualized for Africa African Contextual Realities addresses many of the questions surrounding contextualization from a practical point of view and is the fruit of the 6th Annual Conference of the Africa Society of Evangelical Theology held in Nairobi in 2016 The book explores such questions as In what ways should the mission of God be universally recognizable in every cultural context In our efforts to contextualize how do we avoid compromising the very gospel we are to proclaim How can the African church wean itself away from dependency on the Western church How does Christianity speak into some of the cultural and social issues arising out of contemporary African settings issues like widow cleansing Christian Muslim relations and peace building All those who are interested to learn more about the contextualization of African Christianity will find this volume to be an important resource

Who Will Care for Grandma? Brent R. Kelly,2009-01-01 It is amazing to realize that much of the Western medical community is in a love hate relationship with the economics of medicine Quality Adjusted Life Years QALYs is one of the primary methods of guiding many medical decision makers in the allocation of limited medical resources Herein lies the problem of medicine and economics It seems that deciding who will receive limited medical resources is a task filled with moral and ethical difficulties even for those depending on the information obtained from QALY calculations These moral and ethical difficulties are beyond the scope of sound bites that tout the benefits of universal health care affordable insurance or the safety of the free market economy The breadth of the difficulty is found in the widespread disagreement concerning how the health care system should be distributed or fixed since most will agree that there is a problem with distributing medical resources It seemed obvious that some difficult decisions will need to be made that few are both willing and able to make

This difficulty is particularly true in decisions about health care allocation and that is where QALYs have been found useful and problematic. Limiting medical care for the elderly based upon their age did not occur until the mid twentieth century possibly because the elderly held a unique position of respect in the Western community. It is no longer the case that the elderly are given a unique position of respect and dignity. Rather it seems that with the increased use of QALY calculations the elderly are in danger of receiving less medical care than they are warranted. It is imperative that Christians respond to the ethical implications of significant models of resource allocation that currently assist decision makers in the allocation process such as QALYs.

Life in Transit: Theological and Ethical Contributions on Migration Manitzka Kotzé, Riaan Rheeder, 2020-12-31 Migration is an issue that is under discussion worldwide and affects South Africa, the United States of America and Germany in a distinctive way. This book reflects academically on this significant and topical subject of migration from the often neglected perspective of the fields of theology and Christian ethics. While the majority of contributions are from the South African context, there are also chapters reflecting on the topic from the other two aforementioned contexts. While numerous publications have recently appeared on the subject, reflection from theology and Christian ethics are often lacking. As such, this scholarly publication wants to add ethical value to the local and global conversations on the theme from a theological perspective. The book reflects on migration from the perspectives originated in the disciplines of biblical studies, the Hebrew Bible and the New Testament, systematic theology, ecumenical studies, Christian ethics, practical theology and missiology. It presents new and innovative inquiries primarily from a qualitative methodological viewpoint. The book unveils new themes for deliberation and provides novel interpretations and insights into existing research.

Shared Wisdom Pamela Cooper-White, 2024-11-19 For twenty years, clinical pastoral educators, congregational caregivers, chaplains, pastoral psychotherapists and pastoral theologians have turned to Pamela Cooper White's *Shared Wisdom* to ground their teaching, training and understandings of countertransference and how the use of the caregiver's self in turn impacts the relational dynamic between caregivers and care seekers. Now Cooper White updates her groundbreaking book to present new insights on how understanding one's own emotional reactions remains a core competency for ministry. With precision and depth, Cooper White continues to innovate the theory and practice of spiritual care, counseling and spiritual psychotherapy. This revised and expanded 20th anniversary edition explores current research on countertransference and intersubjectivity, mutual influence and unconscious relationships and intercultural and interreligious dynamics in caring relationships. Cooper White examines how the relational paradigm for pastoral assessment and theological reflection that she pioneered now has important implications for evolving types of care relationships. As she does so, she addresses emerging topics such as postcolonial theory, spiritual and religious fluidity and gender diversity. CPE supervisors, pastoral care and counseling educators and practitioners, pastoral theology scholars and psychotherapists looking for an in-depth understanding of relationality and intersubjectivity will find the 20th anniversary edition of *Shared Wisdom* a must-have resource to build and

Stace, 2022-08-04 This landmark work is the first academic study of a figure who played a defining role in the Australian evangelical movement of the late twentieth century the inimitable preacher evangelist and churchman John C Chapman The study situates Chapman's career within the secularizing Western cultures of the post 1960s a period bringing momentous changes to the social and religious fabric of Western society At the same time global Evangelicalism was reviving bringing vitality to large swathes in the Global South and a re balancing in Western societies as conservative religious movements experienced growth and even renewal amidst wider secularizing trends Against this backdrop the study explores the way in which across a wide array of domestic and international fora Chapman contended for the soteriological priority of the gospel in Christian life mission and thought Accomplished via an absorbing blend of personal wit impassioned oratory innovative missiological strategy and striking theological perception the result was a stimulating history of public advocacy that sought a revival of confidence in Evangelicalism's message and a constantly reforming vision of Evangelicalism's method Such a legacy marks Chapman as a central figure within the generation of postwar leaders whose work has given Australian Evangelicalism its contemporary shape and dynamism Christian Ethics and Contemporary Moral Problems Michael C. Banner, 1999-09-28 This book addresses such key ethical issues as euthanasia the environment biotechnology abortion the family sexual ethics and the distribution of health care resources Michael Banner argues that the task of Christian ethics is to understand the world and humankind in the light of the credal affirmations of the Christian faith and to explicate this understanding in its significance for human action through a critical engagement with the concerns claims and problems of other ethics He illustrates both the distinctiveness of Christian convictions in relation to the above issues and also the critical dialogue with practices based on other convictions which this sense of distinctiveness motivates but does not prevent The book's importance lies in its attempt to show the crucial difference which Christian belief makes to an understanding of these issues whilst at the same time demonstrating some of the weaknesses and confusions of certain
