Westermann at War](#) David McCarthy, 2004 This book examines the antiwar work of one American artist in relation to the cultural history of the Cold War The study provides new and detailed information on this important artist while also contributing to the study of

masculinity dissent art violence and war in the last half of the twentieth century The study clearly reveals that artists protests against American foreign policy began well before the official U S entry in the Vietnam War and that not all combat veterans looked back fondly on their experience of the Good War Finally in drawing attention to the challenges of being a man in a hostile world Westermann s art enters into a much broader consideration of gender long before this issue became topical in contemporary art director of the American Studies Program at Rhodes College in Tennessee *The Cambridge Companion to English Poets* Claude Julien Rawson,2011-01-27 This volume provides essays by twenty nine leading scholars and critics on the best English poets from Chaucer to Larkin *The Cambridge History of English Literature* Sir Adolphus William Ward,Alfred Rayney Waller,1916 *The Cambridge History of English Literature: The nineteenth century* Sir Adolphus William Ward,1916 *The Trash Phenomenon* Stacey Michele Olster,2003 The Trash Phenomenon looks at how writers of the late twentieth century not only have integrated the events artifacts and theories of popular culture into their works but also have used those works as windows into popular culture s role in the process of nation building Taking her cue from Donald Barthelme s 1967 portrayal of popular culture as trash and Don DeLillo s 1997 description of it as a subversive people s history Stacey Olster explores how literature recycles American popular culture so as to change the nationalistic imperative behind its inception The Trash Phenomenon begins with a look at the mass media s role in the United States emergence as the twentieth century s dominant power Olster discusses the works of three authors who collectively span the century bounded by the Spanish American War 1898 and the Persian Gulf War 1991 Gore Vidal s American Chronicle series John Updike s Rabbit tetralogy and Larry Beinhart s American Hero Olster then turns her attention to three non American writers whose works explore the imperial sway of American popular culture on their nation s value systems hierarchical class structure in Dennis Potter s England Peronism in Manuel Puig s Argentina and Nihonjinron consensus in Haruki Murakami s Japan Finally Olster returns to American literature to look at the contemporary media spectacle and the representative figure as potential sources of national consolidation after November 1963 Olster first focuses on autobiographical historical and fictional accounts of three spectacles in which the formulae of popular culture are shown to bypass differences of class gender and race the John F Kennedy assassination the Scarsdale Diet Doctor murder and the O J Simpson trial She concludes with some thoughts about the nature of American consolidation after 9 11 **The Romantic Fragment Poem** Marjorie Levinson,2017-11-01 The fragment poem long regarded as a peculiarly Romantic phenomenon has never been examined outside the context of thematic and biographical criticism By submitting the unfinished poems of the English Romantics to both a genetic investigation and a reception study Marjorie Levinson defines the fragment s formal character at various moments in its historical career She suggests that the formal determinacy of these works hence their expressive or semantic affinities is a function of historical conditions and projections The English Romantic fragment poems share not so much a particular mode of production as a myth of production Levinson pries apart these two dimensions and analyzes each

independently to consider their relationship By reconstructing the contemporary reception of such works as Wordsworth's Nutting Coleridge's Christabel and Kubla Khan Shelley's Julian and Maddalo and Keats's Hyperion fragments and juxtaposing this model against dominant twentieth century critical paradigms Levinson discriminates layers phases and kinds of intentionality in the poems and considers the ideological implications of this diversity This study is the first to investigate the English Romantic fragment poem by identifying the assumptions contemporary and belated that govern interpretative procedures In a substantial summary chapter Levinson reflects upon the meaning and effects of these assumptions with respect to the facts and fictions of literary production in the period and to the processes of canon formation Originally published in 1986 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value
