New Media Art Taschen Basic Art Series:

New Media Art Mark Tribe, Reena Jana, 2009 A collection of digital artworks from the 20th century and early 21st century *Contemporary Art and the Digitization of Everyday Life* Janet Kraynak, 2020-11-10 Digitization is the animating force of everyday life Rather than defining it as a technology or a medium Contemporary Art and the Digitization of Everyday Life argues that digitization is a socio historical process that is contributing to the erosion of democracy and an increase in political inequality specifically along racial ethnic and gender lines Taking a historical approach Janet Kraynak finds that the seeds of these developments are paradoxically related to the ideology of digital utopianism that emerged in the late 1960s with the rise of a social model of computing a set of beliefs furthered by the neo liberal tech ideology in the 1990s and the popularization of networked computing The result of this ongoing cultural worldview which dovetails with the principles of progressive artistic strategies of the past is a critical blindness in art historical discourse that ultimately compromises art's historically important role in furthering radical democratic aims **Come as You Are** Alexandra Schwartz, 2015-01-02 Come as You Are Art of the 1990s is the largest and most ambitious contemporary art exhibition ever to be mounted by the Montclair Art Museum The exhibition and book spotlight a pivotal moment in the recent history of art Chronicling the long 1990s between 1989 and 2001 from the fall of the Berlin Wall to 9 11 Come As You Are examines how the art of this period both reflected and helped shape the dramatic societal events of the era when the combined forces of new technologies and globalization gave rise to the accelerated international art world that we know today **Reading Contemporary Performance** Gabrielle Cody, Meiling Cheng, 2015-09-25 As the nature of contemporary performance continues to expand into new forms genres and media it requires an increasingly diverse vocabulary Reading Contemporary Performance provides students critics and creators with a rich understanding of the key terms and ideas that are central to any discussion of this evolving theatricality Specially commissioned entries from a wealth of contributors map out the many and varied ways of discussing performance in all of its forms from theatrical and site specific performances to live and New Media art The book is divided into two sections Concepts Key terms and ideas arranged according to the five characteristic elements of performance art time space action performer audience Methodologies and Turning Points The seminal theories and ways of reading performance such as postmodernism epic theatre feminisms happenings and animal studies Case Studies entries in both sections are accompanied by short studies of specific performances and events demonstrating creative examples of the ideas and issues in question Three different introductory essays provide multiple entry points into the discussion of contemporary performance and cross references for each entry also allow the plotting of one's own pathway Reading Contemporary Performance is an invaluable guide providing not just a solid set of familiarities but an exploration and contextualisation of this broad and vital field *Ecologies of Artistic Practice* Ashley Lee Wong, 2025-05-27 An in depth look at how we make and circulate art today and how creative and economic processes shape the meaning and value of artworks

In *Ecologies of Artistic Practice* Ashley Lee Wong explores the economic relationships of artists working at the nexus of art and technology as they negotiate a means to make art in a neoliberal creative economy Wong looks at the diverse ways in which artworks circulate both online and offline in galleries on digital platforms and on media facades and investigates some of the mechanisms that enable artists to create works including selling artworks and NFTs grants licensing commissions and artist residencies The book also looks at the ways in which artists collaborate with corporations and develop practices as commercial entities themselves The book provides unique insights into the diverse creative and economic processes that shape the meaning and value of artworks Wong seeks to shift away from notions of individual authorship and finite artworks that can be bought and sold and instead toward an understanding of artistic practices as collaborative social and cultural processes Rather than critique this economy *Ecologies of Artistic Practice* opens space for engaging in hypercommercialized contexts while considering how money is not an end goal but a means to initiate or continue an artistic process **Video**

Art Historicized Malin Hedlin Hayden, 2016-03-03 Video art emerged as an art form that from the 1960s and onwards challenged the concept of art hence art historical practices From the perspective of artists critics and scholars engaged with this new medium art was seen as too limiting a notion Important issues were to re think art as a means for critical investigations and a demand for visual reconsiderations Likewise art history was argued to be in crisis and in need of adapting its theories and methods in order to produce interpretations and thereby establish historical sense for moving images as fine art Yet as this book argues video art history has evolved into a discourse clinging to traditional concepts ideologies and narrative structures manifested in an increasing body of texts *Video Art Historicized* provides a novel insightful and also challenging re interpretation of this field by examining the discourse and its own premises It takes a firm conceptual approach to the material examining the conceptual theoretical and methodological implications that are simultaneously contested by both artists and authors yet intertwined in both the legitimizing and the historicizing processes of video as art By engaging art history's most debated concepts canon art and history this study provides an in depth investigation of the mechanisms of the historiography of video art Scrutinizing various narratives on video art the book emphasizes the profound and widespread hesitations towards but also the efforts to negotiate traditional concepts and practices By focusing on the politics of this discourse theoretical issues of gender nationality and particular themes in video art Malin Hedlin Hayden contests the presumptions that inform video art and its history *Planet/Cuba* Rachel

Price, 2016-02-16 Transformations in Cuban art literature and culture in the post Fidel era Cuba has been in a state of massive transformation over the past decade with its historic resumption of diplomatic relations with the United States only the latest development While the political leadership has changed direction other forces have taken hold The environment is under threat and the culture feels the strain of new forms of consumption *Planet Cuba* examines how art and literature have responded to a new moment one both more globalized and less exceptional more concerned with local quotidian worries than

international alliances more threatened by the depredations of planetary capitalism and climate change than by the vagaries of the nation's government Rachel Price examines a fascinating array of artists and writers who are tracing a new socio-cultural map of the island

Van Gogh TV's »Piazza Virtuale« Tilman Baumgärtel, 2021-11-05 Piazza virtuale by the group of artists known as Van Gogh TV was not only the biggest art project ever to appear on television but from a contemporary point of view the project was also a forerunner of today's social media The ground-breaking event that took place during the 100 days of documenta IX in 1992 was an early experiment with entirely user-created content This is the first book-length study of this largely forgotten experiment It documents the radicality of Piazza virtuale's approach the novel programme ideas and the technical innovations It also allows via QR codes direct access to videos from the show which until now have been inaccessible

Girlhood and the Plastic Image Heather Warren-Crow, 2014-06-03 You are girlish our images tell us You are plastic Girlhood and the Plastic Image explains how revealing the increasing girlishness of contemporary media The figure of the girl has long been prized for its mutability for the assumed instability and flexibility of the not yet woman The plasticity of girlish identity has met its match in the plastic world of digital art and cinema A richly satisfying interdisciplinary study showing girlish transformation to be a widespread condition of mediation Girlhood and the Plastic Image explores how and why our images promise us the adaptability of youth This original and engaging study will appeal to a broad interdisciplinary audience including scholars of media studies film studies art history and women's studies

The Literariness of Media Art Claudia Benthien, Jordis Lau, Maraike M. Marxsen, 2018-09-21 The beginning of the 20th century saw literary scholars from Russia positing a new definition for the nature of literature Within the framework of Russian Formalism the term literariness was coined The driving force behind this theoretical inquiry was the desire to identify literature and art in general as a way of revitalizing human perception which had been numbed by the automatization of everyday life The transformative power of literariness is made manifest in many media artworks by renowned artists such as Chantal Akerman Mona Hatoum Gary Hill Jenny Holzer William Kentridge Nalini Malani Bruce Nauman Martha Rosler and Lawrence Weiner The authors use literariness as a tool to analyze the aesthetics of spoken or written language within experimental film video performance moving image installations and other media-based art forms This volume uses as its foundation the Russian Formalist school of literary theory with the goal of extending these theories to include contemporary concepts in film and media studies such as Neoformalism intermediality remediation and postdrama

Delirious Kelly Baum, Lucy Bradnock, Tina Rivers Ryan, 2017-09-12 Can postwar art be understood as an exercise in calculated insanity Taking this provocative question as its basis this book explores the art and history of delirium from 1950 to 1980 an era shaped by the brutality of World War II and the rapid expansion of industrial capitalism Skepticism of science and technology along with fear of its capability to promote mass destruction developed into a distrust of rationalism which profoundly influenced the art of the times Delirious features work by more than sixty artists from Europe Latin America and the United

States including Dara Birnbaum, Len Ferrari, Gego, Bruce Nauman, Howardena Pindell, Peter Saul, and Nancy Spero. Experimenting with irrational subject matter and techniques, these artists forged new strategies that directly responded to such unbalanced times. Disturbing and challenging the works in this book in multiple media and often counterintuitively incorporating highly ordered and systematic structures upend traditional notions of aesthetic harmony. Three wide-ranging essays and a richly illustrated plates section investigate the degree to which delirious times demand delirious art, inviting readers to think crazy.
