New Technologies And Human Rights Challenges To Regulation

Joyce De Coninck

New Technologies And Human Rights Challenges To Regulation:

New Technologies and Human Rights Mr Mario Viola de Azevedo Cunha, 2013-10-28 Whilst advances in biotechnology and information technology have undoubtedly resulted in better quality of life for mankind they can also bring about global problems The legal response to the challenges caused by the rapid progress of technological change has been slow and the question of how international human rights should be protected and promoted with respect to science and technology remains unexplored The contributors to this book explore the political discourse and power relations of technological growth and human rights issues between the Global South and the Global North and uncover the different perspectives of both regions They investigate the conflict between technology and human rights and the perpetuation of inequality and subjection of the South to the North With emerging economies such as Brazil playing a major role in trade investment and financial law the book examines how human rights are affected in Southern countries and identifies significant challenges to reform in the areas of international law and policy *New Technologies and Human Rights*

Norberto Nuno Gomes de Andrade, Lúcio Tomé Féteira, 2016-05-13 Whilst advances in biotechnology and information technology have undoubtedly resulted in better quality of life for mankind they can also bring about global problems The legal response to the challenges caused by the rapid progress of technological change has been slow and the question of how international human rights should be protected and promoted with respect to science and technology remains unexplored The contributors to this book explore the political discourse and power relations of technological growth and human rights issues between the Global South and the Global North and uncover the different perspectives of both regions They investigate the conflict between technology and human rights and the perpetuation of inequality and subjection of the South to the North With emerging economies such as Brazil playing a major role in trade investment and financial law the book examines how human rights are affected in Southern countries and identifies significant challenges to reform in the areas of international law and policy New Technologies and Human Rights ,2013 *The Impact of Science and Technology on the Rights of the Individual*

Nicola Lucchi, 2016-06-14 The volume is devoted to the relevant problems in the legal sphere created and generated by recent advances in science and technology In particular it investigates a series of cutting edge contemporary and controversial case studies where scientific and technological issues intersect with individual legal rights The book addresses challenging topics at the intersection of communication technologies and biotech innovations such as freedom of expression right to health knowledge production Internet content regulation accessibility and freedom of scientific research *New Technologies for Human Rights Law and Practice*

Molly K. Land, Jay D. Aronson, 2018-04-19 New technological innovations offer significant opportunities to promote and protect human rights At the same time they also pose undeniable risks In some areas they may even be changing what we mean by human rights The fact that new technologies are often privately controlled raises further questions about accountability and transparency and the role of human rights in

regulating these actors This volume edited by Molly K Land and Jay D Aronson provides an essential roadmap for understanding the relationship between technology and human rights law and practice It offers cutting edge analysis and practical strategies in contexts as diverse as autonomous lethal weapons climate change technology the Internet and social media and water meters This title is also available as Open Access

Current Debates in International Relations & Law

Övgü Kalkan Küçüksolak,2018 In this collection of CUDES 2017 wide spectrum of topics that occupy primary place in the current debates of International Relations and Law were addressed by the papers presented at the Current Debates in Social Sciences Conference which was held in stanbul on December 14 16 2017 The purpose of this conference was to provide a forum for scholars researchers and students to foster discussion and expand understanding on the current themes of Social Sciences In parallel to changing and multiplying dynamics of world politics papers reflect diversity of issues in International Relations and Law including the impacts of the Syrian Refugee Crisis on EU Turkey relations lone wolf terrorism energy security Russia s domestic factors in its foreign policy foreign policy of Iran and Russia in the Middle East Mirziyoyev s first year in presidency Turkish foreign aid under the Justice and Development Party the place of civil aviation in Turkish foreign policy as a soft power instrument the Kosovo intervention in the context of UN s human security discourse UN and gender issues mediation in international law and Turkey the development of good corporate governance in Turkey Ombudsman institution in Turkey the status of surviving spouse in terms of law of succession and the regime of participation in acquired property in Turkey legitimacy of censorship in the West from the perspective of human rights intellectual property protection for plant innovation legal framework of autonomy in modern liberal eugenics the impact of the new technologies on the law

Human Rights in the Age of Platforms Rikke Frank Jorgensen,2019-11-19 Scholars from across law and internet and media studies examine the human rights implications of today s platform society Today such companies as Apple Facebook Google Microsoft and Twitter play an increasingly important role in how users form and express opinions encounter information debate disagree mobilize and maintain their privacy What are the human rights implications of an online domain managed by privately owned platforms According to the Guiding Principles on Business and Human Rights adopted by the UN Human Right Council in 2011 businesses have a responsibility to respect human rights and to carry out human rights due diligence But this goal is dependent on the willingness of states to encode such norms into business regulations and of companies to comply In this volume contributors from across law and internet and media studies examine the state of human rights in today s platform society The contributors consider the datafication of society including the economic model of data extraction and the conceptualization of privacy They examine online advertising content moderation corporate storytelling around human rights and other platform practices Finally they discuss the relationship between human rights law and private actors addressing such issues as private companies human rights responsibilities and content regulation Contributors Anja Bechmann Fernando Bermejo Agn s Callamard Mikkel Flyverbom Rikke Frank J rgensen Molly K Land Tarlach

McGonagle Jens Erik Mai Joris van Hoboken Glen Whelan Jillian C York Shoshana Zuboff Ethan Zuckerman Open access edition published with generous support from Knowledge Unlatched and the Danish Council for Independent Research

The Oxford Handbook of Law, Regulation and Technology Roger Brownsword, Eloise Scotford, Karen Yeung, 2017 The variety pace and power of technological innovations that have emerged in the 21st Century have been breathtaking These technological developments which include advances in networked information and communications biotechnology neurotechnology nanotechnology robotics and environmental engineering technology have raised a number of vital and complex questions Although these technologies have the potential to generate positive transformation and help address grand societal challenges the novelty associated with technological innovation has also been accompanied by anxieties about their risks and destabilizing effects Is there a potential harm to human health or the environment What are the ethical implications Do these innovations erode or antagonize values such as human dignity privacy democracy or other norms underpinning existing bodies of law and regulation These technological developments have therefore spawned a nascent but growing body of law and technology scholarship broadly concerned with exploring the legal social and ethical dimensions of technological innovation This handbook collates the many and varied strands of this scholarship focusing broadly across a range of new and emerging technology and a vast array of social and policy sectors through which leading scholars in the field interrogate the interfaces between law emerging technology and regulation Structured in five parts the handbook I establishes the collection of essays within existing scholarship concerned with law and technology as well as regulatory governance II explores the relationship between technology development by focusing on core concepts and values which technological developments implicate III studies the challenges for law in responding to the emergence of new technologies examining how legal norms doctrine and institutions have been shaped challenged and destabilized by technology and even how technologies have been shaped by legal regimes IV provides a critical exploration of the implications of technological innovation examining the ways in which technological innovation has generated challenges for regulators in the governance of technological development and the implications of employing new technologies as an instrument of regulatory governance V explores various interfaces between law regulatory governance and new technologies across a range of key social domains

Case Studies on the Regulatory Challenges Raised by Innovation and the Regulatory Responses OECD, Korea Development Institute, 2021-12-14 The pace and scope of innovation are challenging the way governments regulate Existing regulatory frameworks might not be agile enough to accommodate the fast pace of technological development and as a consequence rules might become outdated **Strengthening the Human Right to Sanitation as an Instrument for Inclusive Development** Pedi Obani, 2018-05-03 Over a third of the current 7.3 billion people worldwide are burdened with poor sanitation services The resulting social relational and ecological exclusion make the realisation of the human right to sanitation HRS a critical concern development concern However the literature has evolved in a largely compartmentalised

manner focusing on the formal recognition of the HRS in domestic legal systems without sufficiently addressing the drivers of poor sanitation services This research expounds on the impact of the HRS on human wellbeing and the environment within the context of a developing country like Nigeria as a case study The findings show that contrary to the focus in the literature the drivers of poor sanitation services are not confined to legal factors such as the formal recognition of the HRS within domestic legal systems Rather the drivers include social economic and environmental limitations to improved sanitation services Based on the findings the book argues that the focus in the literature on the formal recognition of the HRS in national legal systems is insufficient for tackling the main drivers of poor sanitation services It is therefore necessary to reformulate the HRS discourse using complementary governance instruments that advance social relational and ecological inclusion

European Law and New Health Technologies Mark L Flear, Anne-Maree Farrell, Tamara K Hervey, Thérèse Murphy, 2013-03-14 New health technologies promise great things but they also pose significant challenges for governments particularly around safety concerns effectiveness and value for money This collection analyses the defining features of the relationship between EU law and new technologies and the roles of risk rights ethics and markets

Cyber Operations and International Law François Delerue, 2020-03-19 This book offers a comprehensive analysis of the international law applicable to cyber operations including a systematic examination of attribution lawfulness and remedies It demonstrates the importance of countermeasures as a form of remedies and also shows the limits of international law highlighting its limits in resolving issues related to cyber operations There are several situations in which international law leaves the victim State of cyber operations helpless Two main streams of limits are identified First in the case of cyber operations conducted by non state actors on the behalf of a State new technologies offer various ways to coordinate cyber operations without a high level of organization Second the law of State responsibility offers a range of solutions to respond to cyber operations and seek reparation but it does not provide an answer in every case and it cannot solve the problem related to technical capabilities of the victim

Research Handbook on Global Governance, Business and Human Rights Marx, Axel, Van Calster, Geert, Wouters, Jan, Otteburn, Kari, Lica, Diana, 2022-03-10 This essential Research Handbook provides a comprehensive and critical assessment of the global governance instruments related to business and human rights from an interdisciplinary perspective Contributions from a diverse range of leading international scholars offer an overview of the existing literature and rapidly evolving research discipline as well as identifying key trends and outlining an ambitious future research agenda

The Routledge Companion to Media and Human Rights Howard Tumber, Silvio Waisbord, 2017-07-14 The Routledge Companion to Media and Human Rights offers a comprehensive and contemporary survey of the key themes approaches and debates in the field of media and human rights The Companion is the first collection to bring together two distinct ways of thinking about human rights and media including scholarship that examines media as a human right alongside that which looks at media coverage of human rights issues This international collection of 49 newly written pieces thus provides a

unique overview of current research in the field while also providing historical context to help students and scholars appreciate how such developments depart from past practices The volume examines the universal principals of freedom of expression legal instruments the right to know media as a human right and the role of media organisations and journalistic work It is organised thematically in five parts Communication Expression and Human Rights Media Performance and Human Rights Political Processes Media Performance and Human Rights News and Journalism Digital Activism Witnessing and Human Rights Media Representation of Human Rights Cultural Social and Political Individual essays cover an array of topics including mass surveillance LGBT advocacy press law freedom of information and children s rights in the digital age With contributions from both leading scholars and emerging scholars the Companion offers an interdisciplinary and multidisciplinary approach to media and human rights allowing for international comparisons and varying perspectives The Routledge Companion to Media and Human Rights provides a comprehensive introduction to the current field useful for both students and researchers and defines the agenda for future research

Copyright and Fundamental Rights in the Digital Age Oreste Pollicino, Giovanni M. Riccio, Marco Bassini, 2020-10-30 This timely and thought provoking book explores how the protection of copyright in the digital age requires a reconsideration of how this is balanced with other fundamental rights and freedoms Analysing the impact of the rise of digital technologies and the internet on copyright regimes it particularly focuses on the effects of recent reforms to the EU s legal framework for the protection and enforcement of copyright

The EU's Human Rights Responsibility Gap Joyce De Coninck, 2024-11-14 Can the EU be held legally responsible for its contributions to human rights harms in its Integrated Border Management policy Or do systemic legal design flaws in the EU s human rights responsibility regime give rise to a significant responsibility gap This book delves into these pressing questions offering a transversal analysis of applicable legal frameworks under international and EU law Divided into three parts the book first analyses the international and EU human rights responsibility frameworks revealing both normative incongruency as well as liability incongruency Part two applies these frameworks to specific illustrations within the four tiers of the EU s Integrated Border Management exposing the critical points where responsibility falters Building on these findings and drawing from shared responsibility and relationality theories part three briefly introduces Relational Human Rights Responsibility as an alternative method to ascertaining human rights responsibility of the EU specifically and international organisations more generally

Human Tissue and Embryos (Draft) Bill Great Britain: Parliament: Joint Committee on the Human Tissue and Embryos (Draft) Bill, 2007-08-08 The draft Bill was published in May 2007 as Command paper Cm 7087 ISBN 9780101708722 Vol 1 of this report is also available ISBN 9780104011348

Transnational Governance and Constitutionalism Christian Joerges, Inger-Johanne Sand, Gunther Teubner, 2004-06-30 The term transnational governance designates untraditional types of international and regional collaboration among both public and private actors These legally structured or less formal arrangements link economic scientific and technological spheres with political and legal processes

They are challenging the type of governance which constitutional states were supposed to represent and ensure They also provoke old questions Who bears the responsibility for governance without a government Can accountability be ensured The term constitutionalism is still widely identified with statal form of democratic governance The book refers to this term as a yardstick to which then contributors feel committed even where they plead for a reconceptualisation of constitutionalism or a discussion of its functional equivalents Transnational governance is neither public nor private nor purely international supranational nor totally denationalised It is neither arbitrary nor accidental that we present our inquiries into this phenomenon in the series of International Studies on Private Law Theory *Archives and Human Rights* Jens Boel,Perrine Canavaggio,Antonio González Quintana,2021-02-09 Why and how can records serve as evidence of human rights violations in particular crimes against humanity and help the fight against impunity *Archives and Human Rights* shows the close relationship between archives and human rights and discusses the emergence at the international level of the principles of the right to truth justice and reparation Through a historical overview and topical case studies from different regions of the world the book discusses how records can concretely support these principles The current examples also demonstrate how the perception of the role of the archivist has undergone a metamorphosis in recent decades towards the idea that archivists can and must play an active role in defending basic human rights first and foremost by enabling access to documentation on human rights violations Confronting painful memories of the past is a way to make the ghosts disappear and begin building a brighter more serene future The establishment of international justice mechanisms and the creation of truth commissions are important elements of this process The healing begins with the acknowledgment that painful chapters are essential parts of history archives then play a crucial role by providing evidence This book is both a tool and an inspiration to use archives in defence of human rights The Open Access version of this book available at <http://www.taylorfrancis.com/books/e> ISBN has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license **Pandemics, Public Health, and the Regulation of Borders** Colleen M. Flood,Y.Y. Brandon Chen,Raywat Deonandan,Sam Halabi,Sophie Thériault,2024-02-15 This book examines how the COVID 19 pandemic has engendered a new and challenging environment in which borders drawn around people places and social structures have hardened and new ones have emerged Over the course of the COVID 19 pandemic borders closed or became unwelcoming at the international national sub national and local levels Debate persists as to whether those countries and territories that tightly managed their borders like New Zealand Australia or Hong Kong got it right compared to those that did not Without doubt a majority of those who suffered and died throughout the pandemic have been those from vulnerable populations Yet on the other hand efforts taken to manage the spread of the disease such as through border management have also disproportionately affected those who are most vulnerable How then is the right balance to be struck acknowledging too the economic and other imperatives that may dissuade governments from taking public health steps This book considers how international organizations countries and

institutions within those countries should conceive of and manage borders as the world continues to struggle with COVID 19 and prepares for the next pandemic Engaging a range of international and sub national examples the book thematizes the main issues at stake in the control and management of borders in the interests of public health This book will be of considerable interest to academics in the fields of health law anthropology economics history medicine public health and political science as well as policymakers and public health planners at national and sub national levels

Thank you entirely much for downloading **New Technologies And Human Rights Challenges To Regulation**. Maybe you have knowledge that, people have look numerous time for their favorite books as soon as this New Technologies And Human Rights Challenges To Regulation, but stop occurring in harmful downloads.

Rather than enjoying a good book when a mug of coffee in the afternoon, on the other hand they juggled similar to some harmful virus inside their computer. **New Technologies And Human Rights Challenges To Regulation** is nearby in our digital library an online entry to it is set as public correspondingly you can download it instantly. Our digital library saves in multiple countries, allowing you to acquire the most less latency time to download any of our books in the same way as this one. Merely said, the New Technologies And Human Rights Challenges To Regulation is universally compatible taking into consideration any devices to read.
