Charity Gibson,2024-09-30 Homemaking is about values and priorities rather than job status It s time to ditch the notion that women who work outside the home are not homemakers and redefine homemaking as nurturing relationships and cultivating a lifestyle that allows for flourishing within the home as well as eventually extending beyond Working Christian mamas can nurture thriving homelives for their families by cultivating relationships setting healthy routines and embracing simplicity to practice kingdom living A woman s homelife and work life can be molded to honor God our families and our employers when homemaking is valued and prioritized The Working Homemaker encourages countercultural simplicity relationships healthy household rhythms margin in schedules and if possible work flexibility Homemaking is not just what we do at home but also the choices we make regarding being away from home that allow for our time at home to be lifegiving Who is this book for Working moms Moms who are considering employment Working women who are considering motherhood Anyone else who wants to better understand and support working moms **Adolescence in Context** Tara L. Berger,2019-11-04 Contemporary grandmothers are often marginalized from extended family life because social institutions and grandmothers themselves do not understand that they could be vital for working parents for overactive children for suicidal youth indeed for many of the problems of modern grandchildren The genetics and hormones of older women have designed them to be vital family members with patience and perspective that come with age and experience In addition biology helps directly via menopause The grandmother hypothesis explains that human women unlike almost any other living creature experience decades of life after menopause in order to make grandmothers available to their descendants Here Kathleen Berger explores the role of grandmothers in the lives of their grandchildren She uses real life examples to illustrate how grandmothers can best integrate themselves into the lives of their children s families without overstepping She explores the particular needs of each stage of childhood as they relate to grandmother involvement and input Before a child is born

grandmothers need to attend to building a strong relationship with the future parents In infancy attachment and feeding are crucial In early childhood grandmothers need to follow the parent s lead remembering that a parental alliance is essential In childhood children need to be safe but not isolated and both bullies and victims benefit from a grandmother s support and assistance In adolescence and emerging adulthood grandmothers need to build direct connections and not avoid the difficult topics of sex drugs death disease and money Throughout elders need to learn technology insuring that it fosters not impedes relationships Problems in relationships are explained honestly and with insight Among these are issues when three generations share a home when parents get divorced and when grandchildren rebel against parental authority Throughout the work both the joy and the complications of effective grandmothering are described Whether you re a biological grandmother a trusted step grandmother or just a warm and trusted older woman with young ones in your life you can be a vital force in the lives of future generations
