**Legal guide on school food and nutrition** Food and Agriculture Organization of the United Nations, 2020-07-01 A solid international consensus has emerged on the importance of nutrition for children's development and well-being. At the Second International Conference on Nutrition ICN2 the Member States of the Food and Agriculture Organization of the United Nations FAO and the World Health Organization WHO committed to developing policies, programmes and initiatives to ensure healthy diets throughout the children's life cycle, emphasizing the potential of schools as platforms for integrated action. This Guide promotes a holistic and human rights-based approach to school food and nutrition in which legislation is an indispensable tool to ensure the sustainability of public policy goals set by a country. In light of international law and standards, it provides practical information and guidance to develop or strengthen national legislation to improve food security and nutrition in schools as well as community development. The Guide presents a range of regulatory options and legislative examples of state practice that may contribute to building sound and coherent legal frameworks for school food and nutrition. It is a useful resource for law practitioners, policymakers, parliamentarians and all actors who are involved in the design, implementation or monitoring of school programmes and policies, and most particularly for those interested in taking legislative action, law-making or law reform.

**European good practices on land banking** Veršinskas, T., Hartvigsen, M., Gorgan, M., 2022-02-08 Many countries in Western Europe have a long tradition of applying land banking as part of the integrated toolbox of land management instruments. As with land consolidation, the traditional purpose of land banking has been to support agriculture and rural development by reducing land fragmentation and facilitating the enlargement of farms. In Western Europe, the objectives of land banking have developed over the last decades and today in several countries the instrument is applied in a multi-purpose approach together with land consolidation. In most countries, land banking shares the objectives of land consolidation, which in addition to continued agricultural development supports the implementation of public projects in rural areas where private landowners and farmers are requested to give up agricultural land, for example in connection with the construction of infrastructure projects such as highways and railways or for the implementation of public projects related to nature restoration, afforestation or climate change adaptation and mitigation. In a few Western European countries, land banking is also applied on use rights where a lease facilitation approach connects owners of agricultural land not using their

land and often leaving it abandoned with local farmers interested in farming more land This study first analyses and identifies good European practices on land banking discusses experiences from the introduction of land banking instruments in countries in Central Europe Finally it provides policy recommendations for the introduction of land banking with a focus on countries in Eastern Europe and Central Asia **The Handbook of Displacement** Peter Adey, Janet C.

**The Regulation of Decommissioning, Abandonment and Reuse Initiatives in the Oil and Gas Industry** André Pereira da Fonseca,, Catherine Banet, Keith B. Hall, Eduardo G. Pereira, Heike Trischmann, 2020-08-10 In the process of resolving disputes it is not uncommon for parties to justify actions otherwise in breach of their obligations by invoking the need to protect some aspect of the elusive concept of public order Until this thoroughly researched book the criteria and

factors against which international dispute bodies assess such claims have remained unclear. Now, by providing an in-depth comparative analysis of relevant jurisprudence under four distinct international dispute resolution systems—trade investment, human rights, and international commercial arbitration—the author of this invaluable book identifies common core benchmarks for the application of the public order exception. To achieve the broadest possible scope for her analysis, the author examines the public order exception's function, role, and application within the following international dispute resolution systems: relevant World Trade Organization (WTO) agreements as enforced by the organization's Dispute Settlement Body and Appellate Body; international investment agreements as enforced by competent Arbitral Tribunals and Annulment Committees under the International Center for Settlement of Investment Disputes; provisions under the Inter American Convention of Human Rights and the European Convention of Human Rights as enforced by the Inter American Court of Human Rights and the European Court of Human Rights respectively; and the New York Convention as enforced by national tribunals across the world. Controversies, tensions, and pitfalls inherent in invoking the public order exception are elucidated along with clear guidelines on how arguments may be crafted in order to enhance prospects of success. Throughout, tables and graphs systematize key aspects of the relevant jurisprudence under each of the dispute resolution systems analysed. As an immediate practical resource for lawyers on any side of a dispute who wish to invoke or strengthen a public order exception claim, the book's systematic analysis will be welcomed by lawyers active in WTO disputes, international investment arbitration, human rights law, or enforcement of foreign arbitral awards. Academics and policymakers will find a signal contribution to the ongoing debate on the existence, legal basis, content, and functions of the transnational public order.
