Nice Love Vienna Sigmund Freud Minna Bernays:

Love in Vienna Barry G. Gale, 2015-11-02 For many decades critics and supporters of Freudian theory have debated the exact nature of Freud's relationship with his sister-in-law. This book examines the arguments pro and con in light of recently exposed evidence, the first study to do so in depth. For many decades controversy has surrounded the exact nature of famed psychoanalyst Sigmund Freud's relationship with Minna Bernays, his sister-in-law. Why did Freud and Bernays travel alone together on many occasions? Why did she seem to be so much closer to Freud than his own wife Martha? The idea that Freud and Minna Bernays had a long-standing affair, an allegation that Freudians typically deny, was first mentioned by Carl Gustav Jung, an early supporter of Freud's and later a critic. Love in Vienna: The Sigmund Freud Minna Bernays Affair provides the first comprehensive look at the relationship and offers conclusions as to its nature and the implications for Freud's life and work. Organized logically, the book provides background information regarding the two chief antagonists in the story: Sigmund Freud and Carl Gustav Jung. It then presents and critically analyzes arguments for and against there having been an affair. Finally, it looks closely at Freud's relationships with both Minna Bernays and his wife Martha, Minna's sister, and offers conclusions as to the exact nature of Freud's relationship with Bernays. Beyond fascinating those studying Freud or his theories, this work's subject matter and insights will appeal to readers interested in the history of psychology, psychoanalysis, and psychiatry; the intellectual history of Europe; the history of sex and manners; the history of ideas; the fin de siècle period in Vienna; and the history of medicine.

Freud Frederick Crews, 2025-06-25 From the master of Freud debunkers, the book that definitively puts an end to the myth of psychoanalysis and its creator. Since the 1970s, Sigmund Freud's scientific reputation has been in an accelerating tailspin, but nonetheless the idea persists that some of his contributions were visionary discoveries of lasting value. Now drawing on rarely consulted archives, Frederick Crews has assembled a great volume of evidence that reveals a surprising new Freud: a man who blundered tragicomically in his dealings with patients who in fact never cured anyone; who promoted cocaine as a miracle drug capable of curing a wide range of diseases; and who advanced his career through falsifying case histories and betraying the mentors who had helped him to rise. The legend has persisted. Crews shows, thanks to Freud's fictive self-invention as a master detective of the psyche and later through a campaign of censorship and falsification conducted by his followers. A monumental biographical study and a slashing critique, Freud: The Making of an Illusion will stand as the last word on one of the most significant and contested figures of the twentieth century.

Freud's Mistress Karen Mack, Jennifer Kaufman, 2014-06-03 A thrilling story of seduction, betrayal, and loss, Freud's Mistress will titillate fans of *Memoirs of a Geisha* and *The Other Boleyn Girl*. Booklist. In fin de siècle Vienna, it was not easy for a woman to find fulfillment, both intellectually and sexually. But many believe that Minna Bernays was able to find both with one man, her brother-in-law, Sigmund Freud. At once a portrait of two sisters, the rebellious, independent Minna and her inhibited sister Martha, and of the compelling and controversial doctor who would be revered as one of the twentieth century's greatest minds, Freud's Mistress is a story of love, power, and the search for fulfillment in a world of repression.

The Bloomsbury Handbook to Literature and Psychoanalysis Jeremy Tambling, 2023-03-09. Providing the most comprehensive examination of the two-way traffic between literature and psychoanalysis to date, this handbook looks at how each defines the other as well as addressing the key thinkers in psychoanalytic theory: Freud, Klein, Lacan, and the schools of thought each of these has generated. It examines the debts that these psychoanalytic traditions have to literature and offers plentiful case studies of literature's influence from psychoanalysis. Engaging with critical issues such as madness, memory, and colonialism, with reference to texts from authors as diverse as Shakespeare, Goethe, and Virginia Woolf, this collection is admirably broad in its scope and wide-ranging in its geographical coverage. It thinks about the impact of psychoanalysis in a wide variety of literatures as well as in film and critical and cultural theory. [La psicología en 100 preguntas](#) Vicente Caballero de la Torre, 2018-01-03. Las respuestas de la Psicología a temas tan relevantes como los límites de la percepción humana, la falsedad de los recuerdos biográficos, la medicina de la inteligencia o la conducta patológica suscitan un gran interés entre los lectores que quieren conocerse mejor a sí mismos y a los demás. Descubra qué tipo de personalidad psíquica se corresponde con su forma de ser y cómo su cuerpo delata lo que piensa y siente realmente aunque se esfuerce en fingir otra cosa. Sepa por qué no consigue olvidar o recordar según qué cosas y averigüe si podemos cambiar para mejor como personas o si más bien tenemos que aceptarnos tal y como somos. Todo esto entre otros muchos asuntos de su interés. Una obra para lectores que no se conforman con haberse hecho alguna vez una pregunta especial sino que ansían obtener la respuesta. **An Anatomy of Addiction** Howard Markel, 2012-07-03. Acclaimed medical historian Howard Markel traces the careers of two brilliant young doctors: Sigmund Freud, neurologist, and William Halsted, surgeon, showing how their powerful addictions to cocaine shaped their enormous contributions to psychology and medicine. When Freud and Halsted began their experiments with cocaine in the 1880s, neither they nor their colleagues had any idea of the drug's potential to dominate and endanger their lives. *An Anatomy of Addiction* tells the tragic and heroic story of each man accidentally struck down in his prime by an insidious malady, tragic because of the time, relationships, and health cocaine forced each to squander; heroic in the intense battle each man waged to overcome his affliction. Markel writes of the physical and emotional damage caused by the then-heralded wonder drug and how each man ultimately changed the world in spite of it or because of it. One
