New Order Douglas Coupland:

From Revolution to Revelation Tara Brabazon, 2017-09-29 From Revolution to Revelation offers a new paradigm for Cultural Studies Tara Brabazon explores our understanding of our own past and the collective past we share with others through popular culture She investigates Generation X the post youth generation born between 1961 and 1981 and the popular cultural literacies that are the basis of this imagining community She looks at the ways in which popular culture offers a vehicle for memory providing the building blocks of identity the politics and passion of life captured in an unforgettable song an amazing nightclub or an unexpected goal in extra time For a fan the joy and exhilaration is enough but it is the task of cultural studies to understand why particular cultural forms survive the passage of time and space Brabazon argues with Lawrence Grossberg that Cultural Studies is the Generation X of the academic world She tracks its journey away from Marxism and subcultural theory and looks at its future In particular she explores the possibilities of popular memory studies in reclaiming and repairing the discipline of Cultural Studies making it as relevant and as revelatory as in its revolutionary past

Consuming Youth Robert Latham, 2007-11-01 From the novels of Anne Rice to The Lost Boys from The Terminator to cyberpunk science fiction vampires and cyborgs have become strikingly visible figures within American popular culture especially youth culture In Consuming Youth Rob Latham explains why showing how fiction film and other media deploy these ambiguous monsters to embody and work through the implications of a capitalist system in which youth both consume and are consumed Inspired by Marx's use of the cyborg vampire as a metaphor for the objectification of physical labor in the factory Latham shows how contemporary images of vampires and cyborgs illuminate the contradictory processes of empowerment and exploitation that characterize the youth consumer system While the vampire is a voracious consumer driven by a hunger for perpetual youth the cyborg has incorporated the machineries of consumption into its own flesh Powerful fusions of technology and desire

these paired images symbolize the forms of labor and leisure that American society has staked out for contemporary youth A startling look at youth in our time Consuming Youth will interest anyone concerned with film television and popular culture

Community in the Digital Age Andrew Feenberg, Darin Barney, 2004-07-19 Is the Internet the key to a reinvigorated public life Or will it fragment society by enabling citizens to associate only with like minded others Online community has provided social researchers with insights into our evolving social life As suburbanization and the breakdown of the extended family and neighborhood isolate individuals more and more the Internet appears as a possible source for reconnection Are virtual communities real enough to support the kind of personal commitment and growth we associate with community life or are they fragile and ultimately unsatisfying substitutes for human interaction Community in the Digital Age features the latest most challenging work in an important and fast changing field providing a forum for some of the leading North American social scientists and philosophers concerned with the social and political implications of this new technology Their provocative arguments touch on all sides of the debate surrounding the Internet community and democracy

An All-Consuming Century Gary Cross, 2000-09-14 The unqualified victory of consumerism in America was not a foregone conclusion The United States has traditionally been the home of the most aggressive and often thoughtful criticism of consumption including Puritanism Prohibition the simplicity movement the 60s hippies and the consumer rights movement But at the dawn of the twenty first century not only has American consumerism triumphed there isn't even an ism left to challenge it An All Consuming Century is a rich history of how market goods came to dominate American life over that remarkable hundred years between 1900 and 2000 and why for the first time in history there are no practical limits to

consumerism By 1930 a distinct consumer society had emerged in the United States in which the taste speed control and comfort of goods offered new meanings of freedom thus laying the groundwork for a full scale ideology of consumer s democracy after World War II From the introduction of Henry Ford s Model T so low in price that no man making a good salary will be unable to own one and the innovations in selling that arrived with the department store window displays self service the installment plan to the development of new arenas for spending amusement parks penny arcades baseball parks and dance halls Americans embraced the new culture of commercialism with reservations However Gary Cross shows that even the Depression the counterculture of the 1960s and the inflation of the 1970s made Americans more materialistic opening new channels of desire and offering opportunities for more innovative and aggressive marketing The conservative upsurge of the 1980s and 90s indulged in its own brand of self aggrandizement by promoting unrestricted markets The consumerism of today thriving and largely unchecked no longer brings families and communities together instead it increasingly divides and isolates Americans Consumer culture has provided affluent societies with peaceful alternatives to tribalism and class war Cross writes and it has fueled extraordinary economic growth The challenge for the future is to find ways to revive the still valid portion of the culture of constraint and control the overpowering success of the all consuming twentieth century

Canadian Culinary Imaginations Shelley Boyd,Dorothy Barenscott,2022-03-30 In the twenty first century food is media it is not just on plates but in literature and on screens displayed in galleries studios and public places Canadian Culinary Imaginations provokes new conversations about the food related concepts memories emotions cultures practices and tastes that make Canada unique This collection brings together academics writers artists journalists and curators to discuss how food mediates our experiences of the nation and the world Together the contributors reveal that culinary imaginations reflect and produce the diverse bodies contexts places communities traditions and environments that Canadians inhabit as well as their personal and artistic sensibilities Arranged in four thematic sections Indigeneity and foodways urban suburban and rural environments cultural and national lineages and subversions of categories the essays in this collection indulge a growing appetite for conversations about creative engagements with food and the world at large As the essays and images in Canadian Culinary Imaginations demonstrate food is more than sustenance as language and as visual and material culture it holds the power to represent and remake the world in unexpected ways

Maxwell's Demon and the Golden Apple Randall L. Schweller,2014-05-01 Mixing myth entropy and Angry Birds Randall Schweller brings a novel perspective to international studies Just what exactly will follow the American century This is the question Randall L Schweller explores in his provocative assessment of international politics in the twenty first century Schweller considers the future of world politics correlating our reliance on technology and our multitasking distracted disorganized lives with a fragmenting world order He combines the Greek myth of the Golden Apple of Discord which explains the start of the Trojan War with a look at the second law of thermodynamics or entropy In the coming age Schweller writes disorder will reign

supreme as the world succumbs to entropy an irreversible process of disorganization that governs the direction of all physical changes taking place in the universe Interweaving his theory of global disorder with issues on the world stage coupled with a disquisition on board games and the cell phone app Angry Birds Schweller's thesis yields astonishing insights Maxwell's Demon and the Golden Apple will appeal to leaders of multinational corporations and government programs as well as instructors of undergraduate courses in international relations All Things New Pete Hughes, 2020-02-01 God is on a mission to make all things new from the fashion industry to the business community from politics to education and from entertainment to media and the arts God's burning desire is to bring restoration to every sphere of society Starting in Genesis and working through the Scriptures All Things New will take you on a journey into the very heart of God and His relentless passion to redeem lives heal the nations rewire the culture and bring renewal to all of creation As we immerse ourselves in the greatest story ever told we find our ultimate sense of belonging our purpose in the present and our hope for the future We become actors in this unfolding drama pushing forward God's purposes for the world and joining His mission to make all things new **Apocalyptic Discourse in Contemporary Culture** Monica Germana, Aris

Mousoutzanis, 2014-09-15 This interdisciplinary collection of essays focuses on critical and theoretical responses to the apocalypse of the late twentieth and early twenty first century cultural production Examining the ways in which apocalyptic discourses have had an impact on how we read the world's globalised space the traumatic burden of history and the mutual relationship between language and eschatological belief fifteen original essays by a group of internationally established and emerging critics reflect on the apocalypse its past tradition pervasive present and future legacy The collection seeks to offer a new reading of the apocalypse understood as a complex and frequently paradoxical paradigm of contemporary Western culture The majority of published collections on the subject have been published prior to the year 2000 and in their majority of cases locate the apocalypse in the future and envision it as something imminent This collection offers a post millennial perspective that perceives the end as immanent and simultaneously rooted in the past tradition *American Literature in Transition, 1990-2000* Stephen J. Burn, 2017-12-28 Written in the shadow of the approaching millennium American literature in the 1990s was beset by bleak announcements of the end of books the end of postmodernism and even the end of literature Yet as conservative critics marked the century's twilight hours by launching elegies for the conventional canon American writers proved the continuing vitality of their literature by reinvigorating inherited forms by adopting and adapting emerging technologies to narrative ends and by finding new voices that had remained outside that canon for too long By reading 1990s literature in a sequence of shifting contexts from independent presses to the AIDS crisis and from angelology to virtual reality *American Literature in Transition 1990-2000* provides the fullest map yet of the changing shape of a rich and diverse decade's literary production It offers new perspectives on the period's well known landmarks Toni Morrison Thomas Pynchon David Foster Wallace but also overdue recognition to writers such as Ana Castillo Evan Dara Steve Erickson and Carole Maso

The New York Times Book Review ,1994-04 Presents extended reviews of noteworthy books short reviews essays and articles on topics and trends in publishing literature culture and the arts Includes lists of best sellers hardcover and paperback

It Takes a Storyteller to Know a Storyteller Julia Nikiel,2023-01-23 If it is indeed impossible to think beyond capitalism then capital has become reality If global capitalism organizes reality through the stories it weaves capital is as strong as its fictions If capital is reality and capital is fiction then reality as such is fiction as well It is by reading this fiction for both patterns and inconsistencies that contemporary individuals can challenge global capital and unveil its hypocrisies and it is by fighting fiction with fiction i e projecting new realities such as those in the post millennial novels by William Gibson Douglas Coupland and Dave Eggers that people can imagine the world anew

Decade of Nightmares Philip Jenkins,2006-03-15 Why did the youthful optimism and openness of the sixties give way to Ronald Reagan and the spirit of conservative reaction a spirit that remains ascendant today Drawing on a wide array of sources including tabloid journalism popular fiction movies and television shows Philip Jenkins argues that a remarkable confluence of panics scares and a few genuine threats created a climate of fear that led to the conservative reaction He identifies 1975 to 1986 as the watershed years During this time he says there was a sharp increase in perceived threats to our security at home and abroad At home America seemed to be threatened by monstrous criminals serial killers child abusers Satanic cults and predatory drug dealers to name just a few On the international scene we were confronted by the Soviet Union and its evil empire by OPEC with its stranglehold on global oil by the Ayatollahs who made hostages of our diplomats in Iran Increasingly these dangers began to be described in terms of moral evil Rejecting the radicalism of the 60s which many saw as the source of the crisis Americans adopted a more pessimistic interpretation of human behavior which harked back to much older themes in American culture This simpler but darker vision ultimately brought us Ronald Reagan and the ascendancy of the political Right which more than two decades later shows no sign of loosening its grip Writing in his usual crisp and witty prose Jenkins offers a truly original and persuasive account of a period that continues to fascinate the American public It is bound to captivate anyone who lived through this period as well as all those who want to understand the forces that transformed and continue to define the American political landscape

Sofia Coppola and Generation X (So Far) Robert C. Sickels,2024-08-19 While the work of Sofia Coppola is sometimes dismissed as being stereotypically feminine and placing more focus on spectacle over substance Sofia Coppola and Generation X So Far Anxious and Effervescent draws attention to common characteristics present in Coppola s films to present an authorial signature and aesthetic that are both familiar yet evocative of Generation X s perception in the public consciousness In analyzing Coppola s films from *The Virgin Suicides* 1999 to *Priscilla* 2023 this book argues that her filmography acts as a reflection of her generation s evolving mindset and self image from its initial rise to prominence during the late 1980s to its current sentiment of discomfort with its fading influence

Opting Out Ana Sobral,2012-01-01 *Opting Out* explores the theme of deviance as a form of protest in famous cult novels

that have left an indelible mark on contemporary American culture from Jack Kerouac's *On the Road* to Chuck Palahniuk's *Fight Club*. Adopting a generational lens, it centers on the deviant heroes and literary spokesmen of two major cohorts: the Baby Boomers and Generation X. Here for the first time, the cult texts that defined these generations are submitted to a critical analysis that allows them to enter into a dialogue or rather a heated debate with each other. This opens new perspectives on the generation gap in America since 1945, offering a dynamic look at the role of youth as agents of social change and cultural innovation. The volume is of interest to students and researchers in contemporary American literature and culture, as well as to fans of cult fiction in general. The interdisciplinary approach to the themes of generational conflict and deviant behaviour also makes a significant contribution to the fields of sociology, contemporary history, and cultural studies.

Future West William Henry Katerberg, 2008. What is the future of the American West? This book looks at works of utopian, dystopian, and apocalyptic science fiction to show how narratives of the past and future powerfully shape our understanding of the present-day West.

Lean Out Tara Henley, 2020-03-24. INSTANT NATIONAL BESTSELLER. Travel to the land of Couldn't Be More Timely. Margaret Atwood on *Lean Out* in the West End Phoenix. What begins as one woman's critique of our culture of overwork and productivity ultimately becomes an investigation into our most urgent problems: vast inequality, loneliness, economic precarity, and isolation from the natural world. Henley punctures the myths of the meritocracy in a way few writers have. This is an essential book for our time.

Mandy Len Catron, author of *How to Fall in Love with Anyone*. A deeply personal and informed reflection on the modern world and why so many feel disillusioned by it.

In 2016, journalist Tara Henley was at the top of her game, working in Canadian media. She had traveled the world from Soweto to Bangkok and Borneo to Brooklyn, interviewing authors and community leaders, politicians, and Hollywood celebrities. But when she started getting chest pains at her desk in the newsroom, none of that seemed to matter. The health crisis, not cardiac, it turned out, but anxiety forced her to step off the media treadmill and examine her life and the stressful twenty-first-century world around her. Henley was not alone. North America was facing an epidemic of lifestyle-related health problems. And yet the culture was continually celebrating the elite few who thrived in the always-on work world. Those who perpetually leaned in. Henley realized that if we wanted innovative solutions to the wave of burnout and stress-related illness, it was time to talk to those who had leaned out. Part memoir, part travelogue, and part investigation, *Lean Out* tracks Henley's journey from the heart of the connected city to the fringe communities that surround it. From early retirement enthusiasts in urban British Columbia to moneyless men in rural Ireland, Henley uncovers a parallel track in which everyday citizens are quietly dropping out of the mainstream and reclaiming their lives from overwork. Underlying these disparate movements is a rejection of consumerism, a growing appetite for social contribution, and a quest for meaningful connection in this era of extreme isolation and loneliness. As she connects the dots between anxiety and overwork, Henley confronts the biggest issues of our time.
