Special Correspondence and the Newspaper Press in Victorian Print Culture, 1850-1886 Catherine Waters, 2019-02-06 This book analyses the significance of the special correspondent as a new journalistic role in Victorian print culture within the context of developments in the periodical press throughout the second half of the nineteenth century Examining the graphic reportage produced by the first generation of these pioneering journalists through a series of thematic case studies it considers individual correspondents and their stories and the ways in which they contributed to and were shaped by the broader media landscape While commonly associated with the reportage of war special correspondents were in fact tasked with routinely chronicling all manner of topical events at home and abroad What distinguished the work of these journalists was their effort to picture the news to transport readers imaginatively to the events described While criticised by some for its sensationalism special correspondence brought the world closer shrinking space and time and helping to create our modern news culture **A Bibliography of Journalism** Hubert W. Peet, 1915 The Journalist's Library University of Missouri. concern such as whether the mass media should be under private or public control These tensions have dominated the way in which Britain and other western societies have thought about the newer broadcasting media but their origins are older and more complex than studies of contemporary media acknowledge A guide to English composition James Henry Bacon,1892
