Cookbook Andrew Jotischky,2011-06-02 How did medieval hermits survive on their self denying diet What did they eat and how did unethical monks get around the rules The Egyptian hermit Onuphrios was said to have lived entirely on dates and perhaps the most famous of all hermits John the Baptist on locusts and wild honey Was it really possible to sustain life on so little food The history of monasticism is defined by the fierce and passionate abandonment of the ordinary comforts of life the most striking being food and drink A Hermit s Cookbook opens with stories and pen portraits of the Desert Fathers of early Christianity and their followers who were ascetic solitaires hermits and pillar dwellers It proceeds to explore how the ideals of the desert fathers were revived in both the Byzantine and western traditions looking at the cultivation of food in monasteries eating and cooking and why hunting animals was rejected by any self respecting hermit Full of rich anecdotes and including recipes for basic monk s stew and bread soup and many others this is a fascinating story of hermits monks food and fasting in the Middle Ages

Mors Britannica Douglas J. Davies,2015-11-12 A people s lifestyle is one thing their death style another The proximity or distance between such styles says much about a society not least in Britain today Mors Britannica takes up this style issue in a society where cultural changes involve distinctions between traditional religion secularisation and emergent forms of spirituality all of which involve emotions where fear longing and a sense of loss rise in waves when death marks the root embodiment of our humanity These world orientations evident in older and newer ritual practices engage death in the hope and desire that love relationships community and human identity be not rendered meaningless Yet both emotions and ritual have an uneasiness to them because death is a slippery topic as the twenty first century gets under way in Britain In this work Douglas J Davies draws from a largely anthropological sociological perspective with consideration of history literature philosophy psychology and theology to provide a window into British life and insights into the foundation links between individuals and society across the spectrum of traditionally religious views through to humanist and secular alternatives He considers memorial sites from churchyards to roadside memorials forms of corporeal disposal from cremation to composting and death rites in a range of religious and secular traditions
