Intimacy on the Internet Lauren Rosewarne, 2016-04-14 The focus of this book is on the media representations of the use of the Internet in seeking intimate connections be it a committed relationship a hook up or a community in which to dabble in fringe sexual practices Popular culture film narrative television the news media and advertising present two very distinct pictures of the use of the

Internet as related to intimacy From news reports about victims of online dating to the presentation of the desperate and dateless the perverts and the deviants a distinct frame for the intimacy Internet connection is negativity In some examples however a changing picture is emerging The ubiquitousness of Internet use today has meant a slow increase in comparatively more positive representations of successful online romances in the news resulting in more positive spin advertising and a more even handed presence of such liaisons in narrative television and film Both the positive and the negative media representations are categorised and analysed in this book to explore what they reveal about the intersection of gender sexuality technology and the changing mores regarding intimacy

Boundaries of Self and Reality Online Jayne Gackenbach,Johnathan Bown,2017-03-01 As technology continues to rapidly advance individuals and society are profoundly changed So too are the tools used to measure this universe and therefore our understanding of reality improves *Boundaries of Self and Reality Online* examines the idea that technological advances associated with the Internet are moving us in multiple domains toward various edges These edges range from self to society to relationships and even to the very nature of reality Boundaries are dissolving and we are redefining the elements of identity The book begins with explorations of the digitally constructed self and the relationship between the individual and technological reality Then the focus shifts to society at large and includes a contribution from Chinese researchers about the isolated Chinese Internet The later chapters of the book explore digital reality at large including discussions on virtual reality Web consciousness and digital physics Cyberpsychology architecture Video games as a tool for self understanding Avatars and the meaning behind them Game transfer phenomena A Jungian perspective on technology Politics of social media The history and science of video game play

Transcendent virtual reality experiences The theophoric quality of video games Handbook of Research on Human Development in the Digital Age Bryan, Valerie C., Musgrove, Ann T., Powers, Jillian R., 2017-07-13 The rapid evolution of technology continuously changes the way people interact work and learn By examining these advances researchers can further optimize the various opportunities that technology provides The Handbook of Research on Human Development in the Digital Age is a pivotal reference source presenting the latest scholarly research on the impact of technology on the population through different theories and perspectives Featuring extensive coverage on a broad range of topics such as cyberbullying mobile technology and social skills development this publication is ideally designed for academicians researchers and practitioners seeking current research on new trends in technology that impact society *Psychoanalysis, the Self, and the World* Mark Leffert, 2022-12-09 This book takes psychoanalysis into the 21st century examining issues of existentialism postphenomenology social media and death and death anxiety that have gone largely ignored in the psychoanalytic and psychotherapeutic literature Using an interdisciplinary perspective Leffert explains that it is impossible to close the door of the consulting room The therapeutic relationship is invaded by the outside world and its relationships for both patient and therapist and cannot be isolated from these influences Drawing on richly detailed case studies Leffert demonstrates how the internet social media and the metaverse have changed and expanded the self in ways that could not have been imagined in the last century In turn Leffert acknowledges recent advances in the neurosciences and addresses the lack of engagement with their implications for theories and practices of therapeutic action Finally the ways in which death and death anxiety impinge on the self which have also gone mostly undealt with in psychoanalytic literature become an important focus of this book As a novel exploration of interdisciplinary connections this book will be of use to both scholars and practitioners of psychotherapy psychoanalysis social network theory philosophy and neuroscience *Books in the Digital Age* John B. Thompson, 2013-10-21 The book publishing industry is going through a period of profound and turbulent change brought about in part by the digital revolution What is the role of the book in an age preoccupied with computers and the internet How has the book publishing industry been transformed by the economic and technological upheavals of recent years and how is it likely to change in the future This is the first major study of the book publishing industry in Britain and the United States for more than two decades Thompson focuses on academic and higher education publishing and analyses the evolution of these sectors from 1980 to the present He shows that each sector is characterized by its own distinctive logic or dynamic of change and that by reconstructing this logic we can understand the problems challenges and opportunities faced by publishing firms today He also shows that the digital revolution has had and continues to have a profound impact on the book publishing business although the real impact of this revolution has little to do with the ebook scenarios imagined by many commentators Books in the Digital Age will become a standard work on the publishing industry at the beginning of the 21st century It will be of great interest to students taking courses in the sociology of culture media and cultural studies and

publishing It will also be of great value to professionals in the publishing industry educators and policy makers and to anyone interested in books and their future
