Pyramids were constructed via levitation Disturbing military encounters with Middle Eastern djinns Claims of nuclear warfare in ancient India Links between the Face on Mars and the pharaohs And many more Nick Redfern's *The Pyramids and the Pentagon* clearly and provocatively demonstrates that deep and dark conspiracies exist within the shadowy world of officialdom conspiracies that have the ability to rock the foundations of civilization religion and history to their very core The strange and amazing secrets of the past are just a heavily guarded government vault away *Heritage Comics Signature Auction #814* Ivy Press, 2004-10 *Moondust* Andrew Smith, 2006-04-04 In 1999 Andrew Smith was interviewing Charlie Duke astronaut and moon walker for the Sunday Times During the course of the interview which took place at Duke's Texan home the telephone rang and Charlie left the room to answer it When he returned some twenty minutes later he seemed visibly upset It seemed that he'd just heard that the previous day one of his fellow moon walkers the astronaut Pete Conrad had died The more Charlie spoke the more Andrew realised that his grief was something more than the mere fact of losing a friend Now there's only nine of us he said Only nine Which meant that one day not long from now there would be none and when that day came no one on earth would have known the giddy thrill of gazing back at us from the surface of the moon The thought shocked Andrew and still does *Moondust* is his attempt to understand why The Apollo moon programme has been called the last optimistic act of the 20th Century Over a strange three year period between 1969 and 1972 twelve men made the longest and most eccentric of all journeys and all were indelibly marked by it In *Moondust* Andrew sets out to interview all the remaining astronauts who walked on the moon and to find out how their lives were changed for ever by what had happened Where do you go after you've been to the moon In addition to this question that would prove hugely troubling to many of the returned astronauts they also had to deal with the fantasies of faceless millions at their backs for this was the first truly global media event The walkers would forever be caught between the gravitational pull of the moon and the earth's collective dreaming *Comic Books and the Cold War, 1946-1962* Chris York, Rafael York, 2014-01-10 Conventional wisdom holds that comic books of the post World War II era are poorly drawn and poorly written publications notable only for the furor they raised Contributors to this thoughtful collection however demonstrate that these comics constitute complex cultural documents that create a dialogue between mainstream values and alternative beliefs that question or complicate the grand narratives of the era Close analysis of individual titles including EC comics Superman romance comics and other more obscure works reveals the ways Cold War culture from atomic anxieties and the nuclear family to communist hysteria and social inequalities manifests itself in the comic books of the era By illuminating the complexities of mid century graphic novels this study demonstrates that postwar popular culture was far from monolithic in its representation of American values and beliefs **Race for the Moon**, 2016-01-20 *Race for the Moon* was originally published by Harvey in 1958 long before we landed on the moon The stories contained inside are the product of the time period our race against the Reds and the desire to reach the moon This is sci fi and told through the eyes of Jack Kirby Joe Simon Al Williamson Bob Powell and others
