Stam, 2001-11-01 Following the format of Fitzroy Dearborn's highly successful *International Dictionary of Historic Places* and *International Dictionary of University Histories* the *International Dictionary of Library Histories* provides basic information for each institution location and holdings followed by an extensive 1 000 5 000 word essay on its history as well as a Further Reading list In addition the dictionary includes introductory articles on the history of various types of libraries and a library history in various regions of the world The dictionary profiles more than 200 institutions from around the world including the world's most important research libraries and other libraries with globally or regionally notable collections innovative traditions and significant and interesting histories The essays take advantage of the growing scholarship of library history to provide insightful overviews of each institution including not only the traditional values of these libraries but their innovations as well such as developments in automated systems and electronic delivery The profiles will emphasize the unique materials of research in these institutions archives manuscripts personal and institutional papers The introductory articles on types of libraries include topics ranging from theological libraries to prison libraries from the ancient to the digital An international team of more than 200 leading scholars in the field have contributed essays to the project **Yale University and New Haven Michelin Travel Publications (Firm), 2000** **Yale Scientific**, 2001 **Library Catalog of the Metropolitan Museum of Art, New York** Metropolitan Museum of Art (New York, N.Y.). Library, 1985 **Italy, Malta, and San Marino** Rachel Bean, Stefano Bruno, Helen Doe, 2010 **Clear and Simple as the Truth** Francis-Noël Thomas, Mark Turner, 2011-02-28 For more than a decade *Clear and Simple as the Truth* has guided readers to consider style not as an elegant accessory of effective prose but as its very heart Francis No l Thomas and Mark Turner present writing as an intellectual activity not a passive application of verbal skills In classic style the motive is truth the purpose is presentation the reader and writer are intellectual equals and the occasion is informal This general style of presentation is at home everywhere from business memos to personal letters and from magazine articles to student essays Everyone talks about style but no one explains it The authors of this book do and in doing so they provoke the reader to consider style not as an elegant accessory of effective prose but as its very heart At a time when writing skills have virtually disappeared what can be done If only people learned the principles of verbal correctness the essential rules wouldn't good prose simply fall into place Thomas and Turner say no Attending to rules of grammar sense and sentence structure will no more lead to effective prose than knowing the mechanics of a golf swing will lead to a hole in one Furthermore ten step programs to better writing exacerbate the problem by failing to recognize as Thomas and Turner point out that there are many styles with different standards The book is divided into four parts The first *Principles of Classic Style* defines the style and contrasts it with a number of others The *Museum* is a guided tour through examples of writing both exquisite and execrable The *Studio* new to this edition presents a series of structured

exercises Finally Further Readings in Classic Prose offers a list of additional examples drawn from a range of times places and subjects A companion website classicprose com offers supplementary examples exhibits and commentary and features a selection of pieces written by students in courses that used Clear and Simple as the Truth as a textbook
