Assessing Adolescent and Adult Intelligence Alan S. Kaufman, Elizabeth O. Lichtenberger, 2005-08-05 The classic text now updated with a new interpretive approach to the WAIS III *Assessing Adolescent and Adult Intelligence* the classic text from Alan Kaufman and Elizabeth Lichtenberger has consistently provided the most comprehensive source of information on cognitive assessment of adults and adolescents The newly updated Third Edition provides important enhancements and additions that highlight the latest research and interpretive methods for the WAIS III Augmenting the traditional sequential and simultaneous WAIS III interpretive methods the authors present a new approach derived from Cattell Horn Carroll CHC theory This approach combines normative assessment performance relative to age peers with ipsative assessment performance relative to the person's own mean level Following Flanagan and Kaufman's work to develop a similar CHC approach for the WISC IV Kaufman and Lichtenberger have applied this system to the WAIS III profile of scores along with integrating recent WAIS III literature Four appendices present the new method in depth In addition to a detailed description the authors provide a blank interpretive worksheet to help examiners make the calculations and decisions needed for applying

the additional steps of the new system and norms tables for the new WAIS III subtest combinations added in this approach. Assessing Adolescent and Adult Intelligence remains the premier resource for the field covering not only the WAIS III but also the WJ III, the KAIT and several brief measures of intelligence as well as laying out a relevant up to date discussion of the discipline. The new theory based interpretive approach for the WAIS III makes this a vital resource for practicing psychologists as well as a comprehensive text for graduate students.

Handbook of Child Custody Mark L. Goldstein, 2015-08-03. This authoritative reference brings together leading experts for up to date theory findings and guidelines on the core aspects of child custody evaluations. Contributors offer steps for gathering more accurate family data through home observations, interviews and collateral information. Chapters examine psychological assessment tools commonly used in evaluations including measures relating to parenting competencies, mental illness, domestic violence and substance abuse and consider increasingly salient issues such as relocation and families in therapy. The section on case studies shows best practices applied in real life custody situations and a chapter authored by a family court judge offers a rarely seen perspective from the bench. Featured in the Handbook: A survey of ethical and professional issues; Observing and interviewing children, adolescents and adults; Psychological assessment and personality testing; A detailed review of the Bricklin scales; Specialized issues including parental alienation, attachment, cults and more; Illustrative case studies and psychological reports. Mental health professionals who conduct child custody evaluations including psychiatrists, clinical psychologists, clinical social workers, family and marriage counselors and licensed clinical professional counselors will appreciate the Handbook of Child Custody. Family law attorneys will also find the Handbook useful in assisting them in child custody litigation. Its thorough coverage will aid evaluators in making recommendations that are professional, ethical and impartial and family lawyers in understanding the evaluation process and preparing for expert
