Power of Bonding and Non-Western Emerging Great Powers Engagement Md. Nazmul Islam, 2023-10-30 In international politics states often strive to maintain their position through either cooperation or force Soft power theory has emerged as a non-violent approach for states to achieve national interest by utilizing intangible resources China and India have both successfully employed soft power strategies to expand their influence and Pakistan is a relevant case study for examining the soft power of China and India as it neighbors both countries The withdrawal of the United States from Afghanistan has raised questions about how India and China will engage and cooperate in dealing with Pakistan as well as how they will fill the regional gap left by the US Nazmul Islam considers Joseph S Nye's Soft Power theory and develops a new idea of Power of Bonding based on non-Western perspectives to examine India and China's soft power strategy on Pakistan Additionally it evaluates their areas of influence and soft power strategy in three thematic areas political and diplomatic engagement cultural attributions and attraction for power bonding and economic partnerships To accomplish these objectives the study relies on various research methods including content

The End of the End of History Alex Hochuli, George Hoare, 2021-06-25 It's been a long time since a text was so useful in helping me think through our present moment and my role within it The End of The End of History is a clear powerful and panoramic analysis of our world at the dawn of the 2020s Vincent Bevins author The Jakarta Method The End of History is over The idea that Western liberal democracy was the final form of human government has been exposed as bluster the old order is crumbling before our eyes Angry anti politics have arisen to threaten political establishments across the world Elites have fallen into hysteria blaming voters populism Putin Facebook anyone but themselves They are suffering from Neoliberal Order Breakdown Syndrome Emerging from four years of interviews and debates on the popular global politics podcast Aufhebung Bunga The End of the End of History examines how the political consequences of the 2008 financial crisis have come home to roost If Trump and Brexit shattered the liberal democratic consensus in 2016 then the global pandemic of 2020 put a final end to the End of History Politics is back but it's stranger than ever Civil Rights Music Reiland Rabaka, 2016-05-03 While there have been a number of studies that have explored African American movement culture and African American movement politics rarely has the mixture of black music and black politics or rather black music as an expression of black movement politics been explored across several genres of African American movement music and certainly not with a central focus on the major soundtracks of the Civil Rights Movement gospel freedom songs rhythm blues and rock roll Here the mixture of music and politics emerging out of the Civil Rights Movement is critically examined as an incredibly important site and source of spiritual rejuvenation social organization political education and cultural transformation not simply for the non violent civil rights soldiers of the 1950s and 1960s but for organic intellectual artist activists deeply committed to continuing the core ideals and ethos of the Civil Rights Movement in the twenty first century Civil Rights Music The Soundtracks of the Civil Rights Movement is primarily preoccupied with that liminal in between and often inexplicable place where black popular music and black popular movements meet and merge Black popular movements are more than merely social and political affairs Beyond social organization and political activism black popular movements provide much needed spaces for cultural development and artistic experimentation including the mixing of musical and other aesthetic traditions Movement music experimentation has historically led to musical innovation and musical innovation in turn has led to new music that has myriad meanings and messages some social some political some cultural some spiritual and indeed some sexual Just as black popular movements have a multiplicity of meanings this book argues that the music that emerges out of black popular movements has a multiplicity of meanings as well Ideas on the Move in the Social Sciences and Humanities Gisèle Sapiro, Marco Santoro, Patrick Baert, 2020-04-06 This edited collection analyses the reception of a selection of key thinkers and the dissemination of paradigms theories and controversies across the social sciences and humanities since 1945 It draws on data collected from textbooks curricula interviews archives and

references in scientific journals from a broad range of countries and disciplines to provide an international and comparative perspective that will shed fresh light on the circulation of ideas in the social and human sciences The contributions cover high profile disputes on methodology epistemology and research practices and the international reception of theorists that have abiding and interdisciplinary relevance such as Antonio Gramsci Hannah Arendt Karl Polanyi Pierre Bourdieu Michel Foucault Edward Said and Gayatri Spivak This important work will be a valuable resource to scholars of the history of ideas and the philosophy of the social sciences in addition to researchers in the fields of social cultural and literary theory

This volume also serves as an important reminder for all of us that the learning process continues across a lifetime and transcends the limits of the traditional classroom Brian Bicknell President Manchester Community College We all pay lip service to the importance of lifelong learning but what is it exactly and how does it come about The connections between identity and learning are intriguing and complex especially when it comes to adult learners In this very thoughtfully organized collection researchers present qualitative and narrative studies along with personal narratives to explore identity development in formal and informal learning environments Contributions from varied cultural contexts most with powerful and moving stories to tell provide insight into how identity meaning making and adult learning and development intersect and influence each other Psychologists scholars and educators interested in identity development and meaning making will find inspiration and fresh understanding in this innovative and enlightening series Ruthellen Josselson Author *Paths to Fulfillment Women's Search for Meaning and Identity* This innovative series on adult development is inspiring and substantive We hear voices from the margins and stories of courage We read identity formation narratives by young adults and experienced professionals who share impressive capacities for transparency vulnerability and self reflection Many of the narratives are embedded in rigorous qualitative research that highlights diverse ways that identity is shaped through social positionality lived experience the quest for individuation and willingness to encounter life as a dynamic learning process Jared D Kass Lesley University Author *A Person Centered Approach to Psychospiritual Maturation Mentoring Psychological Resilience and Inclusive Community in Higher Education* **The Legacy of Cornelius Cardew** Tony Harris, 2016-03-03 Cornelius Cardew is an enigma Depending on which sources one consults he is either an influential and iconic figure of British musical culture or a marginal curiosity a footnote to a misguided musical phenomenon He is both praised for his uncompromising commitment to world changing politics and mocked for being blindly caught up in a maelstrom of naive political folly His works are both widely lauded as landmark achievements of the British avant garde and ridiculed as an archaic and irrelevant footnote to the established musical culture Even the events of his death are shrouded in mystery and lack a sense of closure As long ago as 1967 Morton Feldman cited Cardew as an influential figure central to the future of modern music making The extent to which Cardew has been a central figure and a force for new ideas in music forms the backbone to this book Harris demonstrates that Cardew was an original thinker a charismatic leader an able facilitator and a committed activist He argues that Cardew exerted considerable influence on numerous individuals and groups but also demonstrates how the composer's significance has been variously underestimated undermined and misrepresented Cardew's diverse body of work and activity is here given coherence by its sharing in the values and principles that underpinned the composer's world view The apparently disparate and contradictory episodes of Cardew's career are shown to be fused by a cohesive Cardew aesthetic that permeates the man his politics and his music C.L.R. James's Notes on Dialectics John H. McClendon, 2005-01-01 John H McClendon III's CLR James's Notes on Dialectics Left Hegelianism or Marxism Leninism is

the first ever book devoted exclusively to James's magnum opus Notes on Dialectics Hegel Marx Lenin The seed for this study was planted over thirty years ago when James handed the author his personal copy of Notes James's contribution to dialectical philosophy and his vast intellectual and scholarly output is rivalled only by the seemingly bottomless depths of McClendon's own analysis and erudition McClendon provides a thorough going critique of James's exploration into the dialectic of Hegel Marx and Lenin while challenging all the seminal texts on James's Notes A book of this magnitude is rare This is ever more the truth when it is focused on a giant like James who stands at the nexus of so many disciplines philosophy history sociology Caribbean studies cultural studies African and African American studies CLR James's Notes on Dialectics Left Hegelianism or Marxism Leninism is a must read for anyone concerned with how revolutionary theory is a guide to contemporary struggles
