The Complete Stephen King Universe Stanley Wiater, Christopher Golden, Hank Wagner, 2006-05-30 The Stephen King companion to end all Stephen King companions An indispensable insider's guide to his influences stories adaptations and more Publishers Weekly The Stephen King Universe is a vast expanse of grotesque horror dark magic and fearsome wonder Conjured from on man's imagination it is an ever expanding kingdom of twisting dark pathways a place where one might easily get lost without guidance The Complete Stephen King Universe is the only definitive reference work that examines all of Stephen King's novels short stories motion pictures miniseries and teleplays and deciphers the threads that connect all of his work This ultimate resource includes in depth story analyses character breakdowns little known facts and startling revelations on how the plots themes characters and conflicts intertwine

**Stephen King** Rocky Wood, 2017-02-10 This companion provides a two part introduction to best selling author Stephen King whose enormous popularity over the years has gained him an audience well beyond readers of horror fiction the genre with which he is most often associated Part I considers the reception of King's work the film adaptations that they gave rise to the fictional worlds in which some of his novels are set and the more useful approaches to King's varied corpus Part II consists of entries for each series novel story screenplay and even poem including works never published or produced as well as characters and settings

**IT Chapters One and Two** Alissa Burger, 2023-01-16 Drawing on critical analysis of film the horror genre the Gothic and Stephen King scholarship this book considers Andy Muschietti's IT Chapter One 2017 and IT Chapter Two 2019 on multiple levels as film both as individual films and through their interconnected narrative as adaptation and as a barometer of the horror film's popularity among fans Key points of consideration include the significance of the fictional town of Derry as a traditionally Gothic bad place the role of 1980s nostalgia in these two films the complex navigation of memory and trauma gender representation queer representation and the return of the repressed The terrifying figure of Pennywise the clown is central to this analysis including consideration of performance costuming and significance within the larger landscape of the scary clown popular culture trope and through comparison to Tim Curry's iconic performance in Tommy Lee Wallace's 1990 miniseries This Devil's Advocate contextualizes Muschietti's films within the larger landscape of King's literary and popular culture influence as well as the debate surrounding elevated horror and the horror boom of the late 2010s

Phillips,2021-05-18 This book offers the first introduction to the concepts theories and applications of pricing and revenue optimization From the initial success of yield management in the commercial airline industry down to more recent successes of markdown management and dynamic pricing the application of mathematical analysis to optimize pricing has become increasingly important across many different industries But since pricing and revenue optimization has involved the use of sophisticated mathematical techniques the topic has remained largely inaccessible to students and the typical manager With methods proven in the MBA courses taught by the author at Columbia and Stanford Business Schools this book presents the basic concepts of pricing and revenue optimization in a form accessible to MBA students MS students and advanced undergraduates In addition managers will find the practical approach to the issue of pricing and revenue optimization invaluable With updates to every chapter this second edition covers topics such as estimation of price response functions and machine learning based price optimization New discussions of applications of dynamic pricing and revenue management by companies such as Amazon Uber and Disney and in industries such as sports theater and electric power are also included In addition the book provides current coverage of important applications such as revenue management markdown management customized pricing and the behavioral economics of pricing     Trust in the Capacities of the People, Distrust in Elites Kenneth Good,2014-10-15 Democratization is a sociopolitical process and the society that may grow out of it where people make decisions on matters affecting them It is an unending struggle to win such rights and power to hold and to extend them The contending classes are essentially the poor and weak majority of the people and the elite of wealth status and power This book begins with the study of politics in democratic Athens 508 322 BCE and how it revolved around the

divisions between an uneducated poor majority of citizens and a small wealthy elite All citizens were deemed equally capable of holding political office and life in democratic Athens was itself an education through the wide political experience a citizen necessarily acquired The second study is of Britain s centuries long and profoundly incomplete democratization polarizing usually the urban poor unequally against the Grandees the oligarchy and subsequent elites A third exemplifier is South Africa beginning in the 1970s 80s when two big processes were going on simultaneously an external armed struggle led by the African National Congress ANC and a path breaking domestic democratization represented by the United Democratic Front and the trade unions The democratization that emerges here is a matter of aspiration and impulse by determined men and women which fail more often than they succeed yet appear again in other times and places Two main models of democracy are in contention A representative form revolving around free elections in which competing elites get themselves elected utilizing their wealth and celebrity The liberal form achieved preeminence in Britain and the United States over some 150 years but is now under serious threat from its own dysfunctionalities and the alienation of its citizens from its institutions and their elitist self serving values And there is the participatory model now being approached again since the mid 1970s in many places from Portugal Poland and Czechoslovakia to South Africa Tunisia Egypt and Iceland Many such impulses will fail but they offer hope and on the record immense satisfaction to their participants
