Immortal Guardians (Spirit Animals: Fall of the Beasts, Book 1) Eliot Schrefer, 2015-08-11 A dark threat faces the world of Erdas in this riveting new saga from the New York Times bestselling series A heart pounding new adventure from the New York Times bestselling series In the world of Erdas every child must discover if they will summon a spirit animal a rare and incredible gift Conor Abeke Meilin and Rollan were rare even among those few They summoned legendary animals brave guardians who were reborn to protect their world Now more of these legends are appearing across Erdas bonded to special children But a dark force has emerged Older than memory it has slept for centuries beneath the surface of the world With the power to tear away spirit animals it begins a rampage that will be felt in every corner of Erdas If the young heroes can t stop it the darkness will first consume the spirit animals and then the world

Nature's Web Peter Marshall, 2015-02-12 This powerful book provides the first comprehensive overview of the intellectual roots of the worldwide environmental movement from ancient religions and philosophies to modern science and ethics and synthesizes them into a new philosophy of nature in which to ground our moral values and social action It traces the origins and evolution of the dominant worldview that has built our industrial technocratic man centered civilization and brought us to the current ecological crisis At the same time it uncovers an

alternative cultural tradition in the world's different religions and philosophies and describes how these ideas are now surfacing and coalescing to form an ecological sensibility and a new vision of nature which recognizes the inter relatedness of all living things Finally this book integrates these varied traditions with modern physics and the science of ecology into a larger philosophical whole that provides the environmental movement with a comprehensive vision of an organic and sustainable society in harmony with nature As ecological disasters continue to threaten our planet becoming worse with every passing moment of indifference it has become clear that we must take action We must change our relationship with nature and return to the days when our lives were intimately connected to and dependent upon the natural world Nature's Web lays the foundations for that change by explaining where our complex ideas about nature come from why they are wrong and what we can do to change them **The Return (Spirit Animals: Fall of the Beasts, Book 3)** Varian
