**Socioeconomic Inclusion During an Era of Online Education** Garcia, Manuel B., 2022-06-24 The unwelcomed arrival of the COVID 19 pandemic has exacerbated inequities and inequalities in accessing educational opportunities among different social groups Abruptly the idea of inclusivity in education has become more of an abstract phenomenon that widens the digital divide and creates social injustice The resulting intensification of digital disparities demands an immediate coordinated response from all education and government stakeholders to guarantee that no one is left behind as we navigate the so called new normal Without an appropriate intervention and sound policy guidance negative repercussions may be so widespread that they will remain a problem in the education sector far into the future Socioeconomic Inclusion During an Era of Online Education aims to answer emerging questions on inclusive online education by exploring and collating the

experiences and lessons learned during the implementation of emergency remote education. With the earlier than expected arrival of the online education era, best practices and innovative approaches from various educational institutions are concrete paradigms for safeguarding the promise of an undivided future of learning through equal access to quality education from a distance. Covering topics from learning space to education governance, this reference work is ideal for policymakers, administrators, practitioners, researchers, scholars, instructors, and students seeking to adjust and adapt to technology-enabled education during and after the COVID-19 era.

*The Power of Technology in School Leadership during COVID-19* Antonios Kafa, Nikleia Eteokleous, 2024-02-28. This book discusses school leaders' ability to use digital technologies successfully through specific approaches and techniques. It also discusses the technological challenges arising from the COVID-19 pandemic and the obstacles derived from the lack of digital capacity of school leaders in various contexts. The work addresses school leaders' experiences, confidence, competence, skills, and practices to use digital technologies effectively. Also, it explores how the COVID-19 pandemic influenced school leaders' role in establishing effective processes towards educational digital transformation and provides further knowledge as part of school leaders' digital professional development aspect. The book draws information and knowledge from the thematic areas of technology and school leadership in educational practice and includes both conceptual and empirical information on autonomous and less autonomous educational systems, centralized and decentralized education systems. Overall, this edited book fills the gap with information on the connection between school leadership and technology as an aftermath of the COVID-19 pandemic in school organizations.
