Social Media Marketing: Breakthroughs in Research and Practice Management Association,

Information Resources,2018-05-04 In the digital age numerous technological tools are available to enhance business processes When these tools are used effectively knowledge sharing and organizational success are significantly increased Social Media Marketing Breakthroughs in Research and Practice contains a compendium of the latest academic material on the use strategies and applications of social media marketing in business today Including innovative studies on email usage social interaction technologies and internet privacy this publication is an ideal source for managers corporate trainers researchers academics and students interested in the business applications of social media marketing Double Down on Your Data, Third Edition Clive J. Pearson,2012-09-25 Gambling has been with us since ancient times and it is unquestionably here to stay Although Poseidon Zeus and Hades may no longer be dividing the world up in a game of dice flocks of tourist still flood through the gates of Las Vegas Caesars Atlantic City s Taj Mahal and Macau s oddly named casino Greek Mythology In Double Down On Your Data author Clive Pearson reveals that we have entered a brave new world of gambling and entertainment a world where casino executives can cull through their casino s in house patron data and discover who are their most profitable patrons Armed with this information these casino executives can then market to their most valuable patrons in a highly personal way thereby creating a long and lasting and usually highly profitable relationship Double Down On Your Data teaches casino executives how best to manage their customer relations as today they are faced with a gambler who is much more sophisticated than the ancient Roman soldier who tossed a coin in the air and called Heads or Ships

The A.I. Marketer Andrew W. Pearson,2019-04-15 We seem to be living in the age of A I Everywhere you look companies are touting their most recent A I machine learning and deep learning breakthroughs even when they are far short of anything that could be touted as a breakthrough A I has eclipsed Blockchain and Crypto as the buzzword of today Indeed one of the best ways to raise VC funding is to stick AI or ML at the front of your prospectus and ai at the end of your website Separating fact from fiction is more important than it has ever been The A I Marketer breaks down A I machine learning and deep learning into five unique use cases sound time series text image and video and also reveals how marketing executives can utilize this powerful technology to help them more finely tune their marketing campaigns better segment their customers increase lead generation and foster strong customer loyalty Today Personalization the process of utilizing mobile social geo location data web morphing context and even affective computing to tailor messages and experiences to an individual interacting with them is becoming the optimum word in a radically new customer intelligence environment The A I Marketer explains this complex technology in simple to understand terms and then shows how marketers can utilize the psychology of personalization with A I to both create more effective marketing campaigns as well as increase customer loyalty Pearson shows companies how to avoid Adobe s warning of not using industrial age technology in the digital era Pearson also reveals how to create a platform of technology that seamlessly integrates EDW and real time streaming data with social media content Analytical models and neural nets can then be built on both commerical and open source technology to better

understand the customer thereby strengthening the brand and just as importantly increasing ROI

Advertising and Branding: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources, 2017-01-06 Effective marketing techniques are a driving force behind the success or failure of a particular product or service When utilized correctly such methods increase competitive advantage and customer engagement Advertising and Branding Concepts Methodologies Tools and Applications is a comprehensive reference source for the latest scholarly material on emerging technologies techniques strategies and theories for the development of advertising and branding campaigns in the modern marketplace Featuring extensive coverage across a range of topics such as customer retention brand identity and global advertising this innovative publication is ideally designed for professionals researchers academics students managers and practitioners actively involved in the marketing industry

ICT as Innovator Between Tourism and Culture Ramos, Célia M.Q., Quinteiro, Silvia, Gonçalves, Alexandra R., 2021-11-05 Lately tourists consider their mobile devices as essential accessories for the realization of their trip before during and after the visit Such devices allow them to consult information about points of interest services or products in real time Thus mobile devices have come to be considered as tools to support decision making regarding the realization of trips In the digital environment tourists seek complementary information to consolidate knowledge about the destination heritage culture customs and traditions that make the visited place unique Simultaneously they transform tourist experiences into a memory associated with travel contribute to the sustainability of local populations reduce inequalities and cooperate to improve the quality of life of all involved ICT as Innovator Between Tourism and Culture differs from others on the same areas because it aims to place the emphasis on and increase the bridge of knowledge between information communications technology ICT tourism and culture considering ICT as the main driver that creates the development environment and enhances the tourist experience in general In particular it is linked to cultural heritage making it a more sustainable and intelligent tourist destination taking into account the well being of the local population and visitors Covering topics such as destination image religious tourism and innovation dynamics this book is an essential resource for IT consultants hotel managers marketers travel agencies tour operators tourism researchers professors students practitioners within the tourism industry and academicians
