work is inherently meaningful was reinforced and tasked to those who lived on the margins and needed assistance during nineteenth century America *Indigenous Bodies* Jacqueline Fear-Segal, Rebecca Tillett, 2013-09-30 This interdisciplinary collection of essays by both Natives and non Natives explores presentations and representations of indigenous bodies in historical and contemporary contexts Recent decades have seen a wealth of scholarship on the body in a wide range of disciplines *Indigenous Bodies* extends this scholarship in exciting new ways bringing together the disciplinary expertise of Native studies scholars from around the world The book is particularly concerned with the Native body as a site of persistent fascination colonial oppression and indigenous agency along with the endurance of these legacies within Native communities At the core of this collection lies a dual commitment to exposing numerous and diverse disempowerments of indigenous peoples and to recognizing the many ways in which these same people retained and or reclaimed agency Issues of reviewing relocating and reclaiming bodies are examined in the chapters which are paired to bring to light juxtapositions and connections and further the transnational development of indigenous studies **On Not Looking** Frances

Guerin, 2015-01-09 *On Not Looking* The Paradox of Contemporary Visual Culture focuses on the image and our relationship to it as a site of not looking The collection demonstrates that even though we live in an image saturated culture many images do not look at what they claim viewers often do not look at the images and in other cases we are encouraged by the context of exhibition not to look at images Contributors discuss an array of images photographs films videos press images digital images paintings sculptures and drawings from everyday life museums and galleries and institutional contexts such as the press and political arena The themes discussed include politics of institutional exhibition and perception of images censored repressed and banned images transformations to practices of not looking as a result of new media interventions images in history and memory not looking at images of bodies and cultures on the margins responses to images of trauma and embodied vision **Undesirability and Her Sisters** Tiffany E. most prized materials the ever expanding collection of records that now accompany each of us from birth to death This data complex backs up and protects our most vital information against decay and destruction and yet it binds us to corporate and government institutions whose power is also preserved in its bunkers infrastructures and sterilized spaces We the Dead traces the emergence of the data complex in the early twentieth century and guides readers through its expansion in a series of moments when Americans thought they were living just before the end of the world Depression era eugenicists feared racial contamination and the downfall of the white American family while contemporary technologists seek ever denser and more durable materials for storing data from microetched metal discs to cryptocurrency keys encoded in synthetic DNA Artfully written and packed with provocative ideas this haunting book illuminates the dark places of the data complex and the ways it increasingly blurs the lines between human and machine biological body and data body life and digital afterlife

Characters of Blood Celeste-Marie Bernier,2012 Across the centuries the acts and arts of black heroism have inspired a provocative experimental and self reflexive intellectual political and aesthetic tradition In Characters of Blood Celeste Marie Bernier illuminates the ways in which six iconic men and women Toussaint Louverture Nathaniel Turner Sengbe Pieh Sojourner Truth Frederick Douglass and Harriet Tubman challenged the dominant conceptualizations of their histories and played a key role in the construction of an alternative visual and textual archive While these figures have survived as symbolic touchstones Bernier contends that scholars have yet to do justice to their complex bodies of work or their multifaceted lives Adopting a comparative and transatlantic approach to her subjects remarkable life stories the author analyzes a wealth of creative work from literature drama and art to public monuments religious tracts and historical narratives to show how it represents enslaved heroism throughout the United States Africa and the Caribbean In mapping this black diasporic tradition of resistance Bernier intends not only to reveal the limitations and distortions on record but also to complicate the definitions of black heroism that have been restricted by ideological boundaries between heroic and anti heroic sites and sights of struggle

The Sovereignty of Quiet Kevin Quashie,2012-07-25 African American culture is often considered expressive dramatic and even defiant In The Sovereignty of Quiet Kevin Quashie explores quiet as a different kind of expressiveness one which characterizes a person s desires ambitions hungers vulnerabilities and fears Quiet is a metaphor for the inner life and as such enables a more nuanced understanding of black culture The book revisits such iconic moments as Tommie Smith and John Carlos s protest at the 1968

Mexico City Olympics and Elizabeth Alexander's reading at the 2009 inauguration of Barack Obama Quashie also examines such landmark texts as Gwendolyn Brooks's Maud Martha James Baldwin's *The Fire Next Time* and Toni Morrison's *Sula* to move beyond the emphasis on resistance and to suggest that concepts like surrender dreaming and waiting can remind us of the wealth of black humanity

At the Edge of Sight Shawn Michelle Smith, 2013-11-04 The advent of photography revolutionized perception making visible what was once impossible to see with the human eye In *At the Edge of Sight* Shawn Michelle Smith engages these dynamics of seeing and not seeing focusing attention as much on absence as presence on the invisible as the visible Exploring the limits of photography and vision she asks What fails to register photographically and what remains beyond the frame What is hidden by design and what is obscured by cultural blindness Smith studies manifestations of photography's brush with the unseen in her own photographic work and across the wide ranging images of early American photographers including F Holland Day Eadweard Muybridge Andrew J Russell Chansonetta Stanley Emmons and Augustus Washington She concludes by showing how concerns raised in the nineteenth century remain pertinent today in the photographs of Abu Ghraib Ultimately Smith explores the capacity of photography to reveal what remains beyond the edge of sight

Picturing Migrants James R. Swensen, 2015-10 As time passes personal memories of the Great Depression die with those who lived through the desperate 1930s In the absence of firsthand knowledge John Steinbeck's *The Grapes of Wrath* and the photographs produced for the New Deal's Farm Security Administration FSA now provide most of the images that come to mind when we think of the 1930s That novel and those photographs as this book shows share a history Fully exploring this complex connection for the first time *Picturing Migrants* offers new insight into Steinbeck's novel and the FSA's photography and into the circumstances that have made them enduring icons of the Depression Looking at the work of Dorothea Lange Horace Bristol Arthur Rothstein and Russell Lee it is easy to imagine that these images came straight out of the pages of *The Grapes of Wrath* This should be no surprise James R Swensen tells us because Steinbeck explicitly turned to photographs of the period to create his visceral narrative of hope and loss among Okie migrants in search of a better life in California When the novel became an instant best seller upon its release in April 1939 some dismissed its imagery as pure fantasy Lee knew better and traveled to Oklahoma for proof The documentary pictures he produced are nothing short of a photographic illustration of the hard lives and desperate reality that Steinbeck so vividly portrayed In *Picturing Migrants* Swensen sets these lesser known images alongside the more familiar work of Lange and others giving us a clearer understanding of the FSA's work to publicize the plight of the migrant in the wake of the novel and John Ford's award winning film adaptation A new perspective on an era whose hardships and lessons resonate to this day *Picturing Migrants* lets us see as never before how a novel and a series of documentary photographs have kept the Great Depression

unforgettably real for generation after generation

Analyzing Art and Aesthetics Anne Collins Goodyear, Margaret A. Weitekamp, 2013-10-30 This ninth volume of the *Artefacts* series explores how artists have responded to developments in science and technology past and present Rather than limiting the discussion to art alone editors Anne Collins Goodyear and Margaret Weitekamp also asked contributors to consider aesthetics the scholarly consideration of sensory responses to cultural objects When considered as aesthetic objects how do scientific instruments or technological innovations reflect and embody culturally grounded assessments about appearance feel and use And when these objects become museum artifacts what aesthetic factors affect their exhibition Contributors found answers in the material objects themselves This volume reconsiders how science technology art and aesthetics impact one another

Fox-Amato, 2019-03-01 Drawing upon unpublished and little studied photographs of slaves ex slaves and abolitionists Fox Amato argues that slavery abolition and race in antebellum America cannot be understood without looking at the visual culture photography spawned or the development of photography without considering how slavery shaped it **Tribal**
