**Reciprocal Learning for Cross-Cultural Mathematics Education** Sijia Cynthia Zhu, Shu Xie, Yunpeng Ma, Douglas McDougall, 2020-12-15 This edited volume examines new ways of teaching mathematics through a cross cultural reciprocal learning project between sister schools in Canada and China. Situating teacher learning in the intersection of the two different school systems, curriculums and cultures of mathematics learning and teaching in both nations, this volume offers teachers a unique and much needed perspective on how practices between countries become more and more likely shaped by each other in the emerging global society. Born out of a comparative study project sponsored by the SSHRC, this volume compiles five years worth of findings from reciprocal partnerships between researchers, teachers, school administrators and students from both nations. Through the process of reciprocal learning and narrative inquiry, the research described in these chapters illuminates the unknown and shares newly created mathematics education knowledge. **West-East Reciprocal**

**Learning in Teacher Education** Shijing Xu, Yibing Liu, Zuochen Zhang, Michael Connelly, Chenkai Chi, 2024-10-21 During this uncertain time, teacher education has never been more needed for West-East dialogues and Reciprocal Learning. This book focuses on the field work done by the Teacher Education Research Team with chapter contributors from Canadian and Chinese professors, graduate students and pre-service teachers who have been deeply engaged in the RLP. Following Xu and Connelly's conceptual framework of Reciprocal Learning as Collaborative Partnership, the book begins with knowing the Teacher Education RLP, followed by doing the West-East reciprocal learning through the program. It concludes with a discussion of the envisioned future of the RLP and commentaries from distinguished scholars in teacher education, one from the West and the other from the East. *Reciprocal Learning*
