presented by the author Students of development economics will find a new methodological perspective which can supplement the ongoing industrial policy debate The book also gives an excellent account of national pride and pragmatism exhibited by officials in East Asia who produced remarkable economic growth as well as serious effort by an African country to emulate this miracle The Open Access version of this book available at <http://www.taylorfrancis.com/doi/view/10.4324/9780203085530> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
