One Second Ahead, 2018 The Mind of the Leader Rasmus Hougaard, Jacqueline Carter, 2018-03-13 Join the global movement that's making corporations more people-centric to achieve great results The world is facing a global leadership crisis Seventy-seven percent of leaders think they do a good job of engaging their people yet 88 percent of employees say their leaders don't engage enough There is also a high level of suffering in the workplace 35 percent of employees would forgo a pay raise to see their leaders fired This is an enormous waste of human talent despite the fact that 46 billion is spent each year on leadership development Based on extensive research including assessments of more than 35 000 leaders and interviews with 250 C-level executives The Mind of the Leader concludes that organizations and leaders aren't meeting employees' basic human needs of finding meaning purpose connection and genuine happiness in their work But more than a description of the problem The Mind of the Leader offers a radical yet practical solution To solve the leadership crisis organizations need to put people at the center of their strategy They need to develop managers and executives who lead with three core mental qualities mindfulness selflessness and compassion Using real-world inspirational examples from Marriott Accenture McKinsey Company LinkedIn and many more The Mind of the Leader shows how this new kind of leadership turns conventional leadership thinking upside down It represents a radical redefinition of what it takes to be an effective leader and a practical hard-nosed solution to every organization's engagement and execution problems The Routledge
