Reichardt's *A Shot at Normal* is a powerful and timely novel about justice, agency, family, and taking your shot even when it seems impossible. Dr Villapando told me to get a good attorney. He wasn't serious. But I am. I'm going to sue my parents. Juniper Jade's parents are hippies. They didn't attend the first Woodstock but they were there for the second one. The Jade family lives an all organic homeschool lifestyle that means no plastics, no cell phones, and no vaccines. It isn't exactly normal but it's the only thing Juniper has ever known. She doesn't agree with her parents on everything but she knows that to be in this family you've got to stick to the rules. That is until the unthinkable happens. Juniper contracts the measles and unknowingly passes the disease along with tragic consequences. She is shell shocked. Juniper knows she is responsible and feels simultaneously helpless and furious at her parents and herself. Now with the help of Nico, the boy who works at the library and loves movies and may just be more than a friend, Juniper comes to a decision: she is going to get vaccinated. Her parents refuse, so Juniper arms herself with a lawyer and prepares for battle. But is waging war for her autonomy worth losing her family? How much is Juniper willing to risk for a shot at normal?
