**Rowan Williams** Andrew Goddard, 2013-01-02 Rowan Williams has served as Archbishop of Canterbury through one of the most turbulent periods in the history of global Anglicanism. He has also faced numerous challenges within the Church of England. How has he coped with the huge issues of a divided church and a rapidly changing world? What has he done as archbishop when parts of the church are campaigning for an inclusive church with gay partnered clergy and women bishops while others are determined to resist these developments? How has he related to other Christian traditions and those of other faiths? What has he said about the Iraq war, the financial crash, Sharia Law? In this fascinating assessment, Andrew Goddard surveys Archbishop Rowan's time in office. Goddard draws on Williams' speeches and writings as well as interviews and comments from those who have worked with him. This book shows the pressures faced by an academic scholar who only took on this demanding role because he believed it to be God's call. What sort of leader has he been and what sort of legacy does he leave for his successor Justin Welby.

**Faith in the Public Square** Rowan Williams, 2012-11-08 Rowan Williams on critical contemporary issues in his final book as Archbishop of Canterbury.

**Freedom of Religion at Stake** Dion A. Forster, Elisabeth Gerle, Goran Gunner, 2019-11-01 How can freedom of religion protect the dignity of every human being and safeguard the well-being of creation? This question arises when considering the competing claims among faith traditions, states, and persons. Freedom of religion or belief is a basic human right, and yet it is sometimes used to undermine other human rights. This volume seeks to unpack and wrestle with some of these challenges. In order to do so, scholars were invited from different contexts in Africa and Europe to write about freedom of religion from various angles. How should faith traditions in a minority position be protected against majority claims, and what is the responsibility of the religious communities in this task? When does the state risk overstepping its boundaries in the delicate balance between freedom of religion and other human rights? How can new voices who claim their human rights in relation to gender roles, reproductive rights, and as sexual minorities be heard within their faith traditions? These are some of the questions that are raised by the authors. This is a book for all who are engaged in faith communities, leaders as well as people trying to be recognized. It is also important reading for all interested in international legal frameworks for freedom of religion, state advisers, and human rights defenders.

**On Rowan Williams** Matheson Russell, 2009-01-01 Theologian, poet, public intellectual, and clergyman, Rowan Williams is one of the leading lights of contemporary British theology. He has published over twenty books and one hundred scholarly essays in a distinguished career as an academic theologian that culminated in his appointment as Lady Margaret Professor of Divinity at Oxford University. Williams left this post to serve in the Anglican Church, first as Bishop of Monmouth, then Archbishop of Wales, before finally being enthroned in 2003 as the 104th Archbishop of Canterbury. In this collection of essays, a talented younger generation of Australian theologians critically analyzes the themes that bind together Williams's theology. These sympathetic yet probing essays traverse the full breadth of Williams's work, from his studies on Arius to the

Desert Fathers Hegel and Trinitarian theology to his more pastoral writings on spirituality sexuality politics and the Anglican Church

**A New Introduction to Theology** Richard Bourne, Imogen Adkins, 2020-09-17 Encountering theology for the first time is exciting but it can also be daunting Some struggle to connect with doctrinal discussion they perceive to be abstract or abstruse Others may find the scope of theology and the connections between different theological issues dizzying In order to address these difficulties and keep the initial excitement alive A New Introduction to Theology offers a range of accessible practical experiential and interactive encounters with the major elements of academic Christian theology The guiding motif of this book is the claim that theology is full bodied thought The phrase full bodied shows both the richness of the experience of theology and its nature as a thoroughly embodied encounter with ways of knowing God and God's ways with the world This motif allows the authors to bring together topics ranging from theology through the arts sexuality and the body and the nature of the church's everyday life to mystical theology spirituality political action and ecology Working imaginatively with the five senses and the notions of loving and resting each chapter provides a range of activities guided discussions and reflections on key theological texts authors and issues This is a unique introduction to the key innovative and interdisciplinary elements from contemporary theology ideal for individual reflection classroom work or flexible and distributed learning

Faith, Politics, and Belonging Ian Geary, 2024-07-19 Drawing on the author's years spent working in and around Westminster this essay collection provides a personal perspective on the themes of faith politics and belonging To understand identity and place we need faith Faith should lead to engagement in the wider world and engagement in the wider world should deepen our faith and sense of purpose In three sections each drawing on his experience Ian Geary reflects on the cognate themes of faith politics and belonging Each section concludes with some questions for discussion and some suggestions for further reading Written from personal experience via immersion in British political life and informed by his understanding of theology the author seeks to animate a generous debate about the key themes not to secure readers attachment to a cause or political ideology These essays are written in the hope that Christians engaged in politics will find them helpful and that they will also reach a wider audience to show how viewing politics through the lens of faith might yield a fresh perspective Ian Geary would venture to suggest that politics despite its critics is a necessary and good thing

**Apologetics without Apology** Elaine Graham, 2017-07-19 Against many expectations religion has not vanished from Western culture People are troubled and fascinated in equal measure by this new visibility and are unsure whether it is right to re incorporate the vocabulary of faith into our common life This unprecedented co existence of religion and secularism is sometimes termed the postsecular and in this book Elaine Graham considers some of its implications for the public witness of Christianity She argues that everyone from church leaders theologians local activists and campaigners needs to learn again how to speak Christian in these contexts They need to articulate credible theological justifications for their involvement in public life and to justify the very relevance of their faith to a culture that no longer grants automatic privilege or credence

This entails a retrieval of the ancient practice of apologetics in order to encourage and equip Christians to defend and commend their core principles and convictions in public This new apologetics involves discerning the actions of God in the world participating in the praxis of God's mission and bearing witness in word and deed Rather than being an adversarial or argumentative process this is an invitation to dialogue and to the rejuvenation of our public life **God is No Thing** Rupert Shortt, 2024-10-24 God is no thing but not nothing These words from the renowned thinker Herbert McCabe point to a fallacy at the heart of New Atheist polemics against religion the deity rejected by Richard Dawkins Christopher Hitchens Sam Harris and their followers is not God as taught in classical tradition but merely a blown up thing From this basic error flow many more misunderstandings about Christianity and other creeds As a result debate on life's biggest questions has grown vitriolic as well as confused Although parts of the Western world now appear almost totally secularised Christianity remains the most potent worldview on earth alongside Islam In this compelling book Rupert Shortt gracefully argues that Christianity is a much more coherent progressive body of belief philosophically scientifically and culturally than often supposed by its critics Alert to the menace posed by religious fundamentalism as well as to secularist blind spots he shows how a self-critical faith is of huge consequence to wider human flourishing including through promoting peace and environmental sustainability

**Prayer and Embodiment in Nineteenth-Century Women's Writing** Elizabeth Ludlow, 2025-02-20 In the 19th century an era that saw a reconfiguration of the relationship between the self the world and the divine women writers probed the theological depths of embodied faith in new ways through poetry fiction devotional prose and life writing Elizabeth Ludlow explores how through this process they articulated what it means to pray and thereby understand one's place in a world of individual and communal bodies The eight women writers discussed Elizabeth Barrett Browning Josephine Butler George Eliot Elizabeth Gaskell Dora Greenwell Felicia Hemans Adelaide Procter and Christina Rossetti provide accounts of prayer that stress that the only way to experience and respond to something of the transcendent is through embracing lived experience and through a recognition of the connectedness of all bodies In detailing how these writers engage with new ways of thinking about faith desire and the material world Ludlow argues that they offer models for ethical modes of being in the world and pave the way for later theologies of embodiment **A Companion to Public Theology**, 2017-01-23 Winner of the 2017 Choice Outstanding Academic Title Award Public theology has emerged in the twentieth and twenty-first centuries as theologians have increasingly entered the public square to engage complex issues This Companion to Public Theology brings a much needed resource to this relatively new field The essays contained here bring a robust and relevant faith perspective to a wide range of issues as well as foundational biblical and theological perspectives which equip theologians to enter into public dialogue Public theology has never been more needed in public discourse whether local or global In conversation across disciplines its contribution to the construction of just policies is apparent in this volume as scholars examine the areas of political social and economic spheres as well as issues of ethics and civil societies and draw on contexts
