**Smart Mixes for Transboundary Environmental Harm** Judith van Erp, Michael Faure, André Nollkaemper, Niels Philipsen, 2019-03-28 Analyzes how combinations of instruments at different levels of government or smart mixes can effectively regulate transboundary environmental harm

**Judicial Decisions in International Law Argumentation** Letizia Lo Giacco, 2022-10-20 This book explores the question of how the multiplication of judicial decisions on international law has influenced the way in which legal findings in international law adjudication are justified International law practitioners frequently cite judicial decisions to persuade Courts interpreting international law are no exception to this practice However judicial decisions do much more than persuading they enable and constrain interpretive discretion Instead of taking the road of the sources of international law this book turns to the somewhat uncharted terrain of legal argumentation Using international criminal law as a case study it shows how the growing number of judicial decisions has normalised courts resort to them in legal justification and enabled some argumentative practices to become constitutive of international law In so doing it critically revisits the implications of an iterative use of judicial decisions and reassesses the influence of the judicialisation turn on the ways in which the meaning of international law is formed shaped and reshaped by reference to judicial decisions

**Comparative Counter-Terrorism Law** Kent Roach, 2015-07-23 Terrorism law is as international as it is regionally distinct and as difficult to define as it is essential to address Given recent pressures to harmonize terrorism laws from international organizations like the United Nations Security Council the Financial Action Task Force and the Council of Europe this book presents readers with an up to date assessment of terrorism law across the globe Covering twenty two jurisdictions across six continents the common framework used for each chapter facilitates national comparisons of a range of laws including relevant criminal administrative financial secrecy and military laws Recognizing that similar laws may yield different outcomes when transplanted into new contexts priority of place is given to examples of real world application Including a thematic introduction and conclusion this book will help to establish comparative counter terrorism law as an emerging discipline crossing the boundaries of domestic and international law

**Citizenship in a Connected Canada** Elizabeth Dubois, Florian Martin-Bariteau, 2020-11-10 No detailed description available for Citizenship in a Connected Canada

**Internet Service Provider Liability for Copyright and Trade Mark Infringement** Zoi Krokida, 2022-06-16 This book critically evaluates the EU regulatory framework for the liability of host Internet Service Providers ISPs for copyright and trade mark infringements and provides a cluster of novel recommendations for its improvement The book recommends the imposition of a duty of care to host ISPs to curb the dissemination of unauthorised works and counterfeit goods the ascription of a transparency obligation to host ISPs

towards their users and the establishment of a supervisory authority for host ISPs Host ISPs have facilitated the dissemination of content amongst users and the purchase of goods online enabling copyright holders and brand owners to attract a greater audience for their works and goods However their services have attracted a high number of copyright and trade mark violations too Neither Article 14 of the e Commerce Directive nor Article 17 of the Copyright in the Digital Single Market Directive provide a solid response to the issue of host ISPs liability This book is a valuable resource for researchers in IT and IP law and offers a new perspective for resolving online IP disputes
