Leadership Motivation Inspiration Empowerment is a must have book for anyone who occupies a leadership position e.g. administrator, director, coordinator, team leader, manager, lead teacher, or anticipates doing so in the future. It addresses one of the most challenging workplace issues facing employers today: the ability to encourage employees' creativity, productivity, and long-term commitment to an organization. Studies consistently show that low employee morale and high turnover rates are common in early childhood programs and in turn affect the quality of services provided for children and families. Unfortunately, strategies used by many supervisors to guide and manage employee behavior often contribute to employee dissatisfaction and attrition. A sound understanding of motivational theory and skills e.g. communication, leadership, team building, decision making enables effective leaders to create positive work environments, boost employee morale, and encourage positive performance. When employees believe their efforts are being acknowledged and valued, they are less likely to leave their jobs, an additional and important benefit, especially in the field of early childhood education. Blueprint for Engagement Norma T. Hollis, 2018-06-05. Authentic leadership is an approach to leadership that emphasizes building the leader's legitimacy through honest relationships with followers which value their input and are built on an ethical foundation. By building trust and generating enthusiastic support from their subordinates, authentic leaders are able to improve individual and team performance. Many scholars and practitioners of authentic leadership say that the number one quality of an authentic leader is self-awareness. Self-aware leaders are transformational. Armed with self-awareness, they build engaging, cooperative teams. How to gain and sustain self-awareness is the focus of the book. This book addresses current leadership challenges in health care and gives leaders guidelines for finding, living, and sharing their authentic voice at home and at work. It is a much-needed handbook to give current leaders perspective and practical tips to being more authentic, communicating more effectively while building engaging rapport across the organization. Additionally, a focus of the book is patient satisfaction. With a focus on nurse and physician leadership, this book provides new perspectives and action plans to increase patient satisfaction through communication that speaks to the needs of the patient in authentic and engaging ways.
