The Digital Is Kid Stuff Josef Nguyen, 2021-12-28 How popular debates about the so called digital generation mediate anxieties about labor and life in twenty first century America The children are our future goes the adage a proclamation that simultaneously declares both anxiety as well as hope about youth as the next generation In The Digital Is Kid Stuff Josef Nguyen interrogates this ambivalence within discussions about today s digital generation and the future of creativity an ambivalence that toggles between the techno pessimism that warns against the harm to children of too much screen time and a techno utopianism that foresees these digital natives leading the way to innovation economic growth increased democratization and national prosperity Nguyen engages cultural histories of childhood youth and creativity through chapters that are each anchored to a particular digital media object or practice Nguyen narrates the developmental arc of a future creative laborer from a young kid playing the island fictions of Minecraft to an older child learning do it yourself skills while reading Make magazine to a teenager posting selfies on Instagram to a young adult creative laborer imagining technological innovations using design fiction Focusing on the constructions and valorizations of creativity entrepreneurialism and technological savvy Nguyen

argues that contemporary culture operates to assuage profound anxieties about and to defuse valid critiques of both emerging digital technologies and the precarity of employment for creative laborers in twenty first century neoliberal America

Mediale Entwürfe des Selbst Robert Dörre, 2022-04-06 In den letzten Jahren sind auf Plattformen der sozialen Medien und insbesondere durch sogenannte InfluencerInnen neuartige Formen der öffentlichen Selbstdokumentation populär geworden die einen eigenen medienkulturellen Mikrokosmos bilden Auch wenn YouTube Sinnbild dieser Kulturtechnik geworden ist sind mediale Selbstentwürfe auch für andere Dienste wie Instagram TikTok oder Snapchat prägend Robert Dörre begreift die Entstehung

dieser Selbstentwerfung als ästhetische Praktik und geht den medienhistorischen Verschiebungen nach, die die öffentliche Selbstdokumentation im Internet erfahren hat. Um diese spezifischen ästhetischen Rituale, Motive und Konzepte medienkulturwissenschaftlich zugänglich zu machen, nähert sich die Arbeit dem Phänomen aus fünf Perspektiven: Der Rezeption als authentischem Selbst, dem Selbst als Teil der sozialen Medien, dem Selbst als Marke, dem seriellen Selbst und dem Selbst als AmateurIn und KünstlerIn.

Class Divisions in Serial Television Sieglinde Lemke, Wibke Schniedermann, 2016-12-21

This book brings the emergent interest in social class and inequality to the field of television studies. It reveals how the new visibility of class matters in serial television functions aesthetically and examines the cultural class politics articulated in these programmes. This ground-breaking volume argues that reality and quality TV's intricate politics of class entices viewers not only to grapple with previously invisible socio-economic realities but also to reconsider their class alignment. The stereotypical ways of framing class are now supplemented by those dedicated to exposing the economic and socio-psychological burdens of the lower middle class. The case studies in this book demonstrate how sophisticated narrative techniques coincide with equally complex ways of exposing class divisions in contemporary American life and how the examined shows disrupt the hegemonic order of class. The volume therefore also invites a rethinking of conventional models of social stratification.
