**Terrorism: A Very Short Introduction** Charles Townshend, 2011-09-08 Is one person's terrorist another's freedom fighter? Is terrorism crime or war? Can there be a War on Terror? For many, the terrorist attacks of September 2001 changed the face of the world, pushing terrorism to the top of many political agendas and leading to a series of world events including the war in Iraq and the invasion of Afghanistan. Charting a clear path through the efforts to understand and explain modern terrorism, Charles Townshend unravels a series of complex questions including: Are terrorists criminals? How far does media publicity sustain terrorism and what can be done about it? Fully updated for 2011, this Very Short Introduction examines the historical, ideological and local roots of terrorist violence. Townshend explores terrorism in relation to revolutionary power, nationalism and religious extremism, considering the successes of specific terrorist and anti-terrorist campaigns in the distant past and in recent years. Providing a discussion surrounding the on-going debates about the erosion of civil liberties in response to increased terrorist activities, Townshend addresses the question we are all facing: how does terrorism end? *European Union in the Global Context* Simon Sweeney, 2023-12-22 *European Union in the Global Context* explores the interplay between the state and state sovereignty, nationalism, European integration and globalisation. It provides essential foundations in these areas while using stimulating arguments to prompt discussion and provoke interest in the relationships between these processes. It critically analyses the challenges faced by the EU from the contemporary political and economic dynamics of globalisation, IPE including trading relationships set through the WTO and bilateral relations with emerging markets, especially the BRICS economies. Likewise, pressures from within such as a resurgence of nationalism, localisation, anti-austerity politics and Euroscepticism are examined. While the Union is fundamentally challenged by pressures from above and below and by its own internal dysfunction, it remains central to the effective management of the international political

economy European Union in the Global Context is a lively focused and engaging text incorporating anecdotes and contemporary arguments and presenting different perspectives on European integration and globalisation It will be of key interest to students of European Politics European Studies European Union Studies and more broadly global political economy foreign and security policy and international relations

**The Practice of Global Citizenship** Luis Cabrera, 2010-10-14 In this novel account of global citizenship Luis Cabrera argues that all individuals have a global duty to contribute directly to human rights protections and to promote rights enhancing political integration between states The Practice of Global Citizenship blends

careful moral argument with compelling narratives from field research among unauthorized immigrants activists seeking to protect their rights and the Minuteman activists striving to keep them out Immigrant rights activists especially those conducting humanitarian patrols for border crossers stranded in the brutal Arizona desert are shown as embodying aspects of global citizenship Unauthorized immigrants themselves are shown to be enacting a form of global civil disobedience claiming the economic rights central to the emerging global normative charter while challenging the restrictive membership regimes that are the norm in the current global system Cabrera also examines the European Union seeing it as a crucial laboratory for studying the challenges inherent in expanding citizen membership      The UK Challenge to Europeanization Karine Tournier-Sol, 2016-04-29 This timely contribution pulls no punches and views the UK as institutionally Eurosceptic across politics and society from the press to defence It represents a rich and original contribution to the emerging field of Eurosceptic studies and a key contribution to this important issue      Western Europe 2018-2019 Wayne C. Thompson, 2018-08-31 The World Today Series Western Europe is an annually updated presentation of each sovereign country in Western Europe past and present It is organized by individual chapters for each country expertly covering the region's geography people history political system constitution parliament parties political leaders and elections The combination of factual accuracy and up to date detail along with its informed projections make this an outstanding resource for researchers practitioners in international development media professionals government officials potential investors and students Now in its 37th edition the content is thorough yet perfect for a one semester introductory course or general library reference Available in both print and e book formats and priced low to fit student budgets      **European Union Politics** Michelle Cini, 2007 With its established authority and reputation the new edition is an invaluable resource Michelle Cini has brought together a team of international contributors each specialising in a different field of EU politics The book is divided into five parts and deals with the history of the European integration process theories of European integration the European institutions a select number of European policy areas and issues of relevance to the study of EU politics The second edition has been updated throughout to reflect recent developments and there are four new chapters on the constitutional treaty CFSP and ESDP the single market and public opinion This book is supported by a cutting edge Online Resource Centre Student resources Interactive timeline BRAND NEW HE ONLINE RESOURCE Interactive map of Europe with facts key dates and web links for all the EU countries BRAND NEW HE ONLINE RESOURCE Maps Case studies Web links Information on key articles and books Flashcard glossary Multiple Choice Questions Lecturer resources PowerPoint slides      **The National Interest in Question** Christopher Hill, 2013-08-22 For three decades multiculturalism has been the focus of fierce debates At the same time Europeans have worried at the national level and at that of the European Union about how to relate to a world in which their influence has been steadily reducing But the two discussions on society and on foreign policy have rarely intersected The events of 11 September 2001 did shock the citizens of Western countries into an awareness that

international politics could literally explode onto their home streets and generated fear and suspicion about and among minority groups But the excessive focus on terrorism and on Islam which followed hardly did justice to the deeper processes of transnationally induced change which were at work This book attempts to go beyond the emotive political debate to show how foreign policy and domestic society have been becoming more entangled with each other for some time It focuses on the more established Member States of the European Union and the varying paths which they have taken in coping with the new domestic environment fostered by increased migration ethnocultural diversity and transnational relations It investigates the contrasting approaches taken by the European states to what is loosely called multiculturalism and analyses their impact on the interplay between foreign policy and domestic society something which is now a structural feature of political life It concludes with the argument that since domestic society is now taking on some of the diversity associated with international relations governments can no longer assume a national consensus in their relations with the outside world let alone the steady homogenisation of world society

**Faithful Exchange** David W. Opderbeck, 2025-06-24 Debates about capitalism versus socialism reflect a deep divide in American society in both the broader culture and the church While those attracted to liberation theology radical orthodoxy and some kinds of Anabaptist theologies support forms of socialism many others continue to believe capitalism is the best real world option Among serious theologians as well as at the popular level the debate suffers from misunderstandings and mischaracterizations of how different economic systems function and how those systems relate to higher ethical and legal principles These misunderstandings and mischaracterizations in turn fuel overly confident pronouncements about what the biblical witness and the Christian tradition say about possible forms of economic life Faithful Exchange offers a careful review of the biblical and historical materials and a critical appraisal of the current debate The book does not recommend either capitalism or socialism as a preferred form of economic order but rather suggests perspectives from Christian theology that provide both prophetic critique of and missional engagement with various economic structures in cultural and historical context

**Steampunk** Claire Nally, 2019-06-27 What is steampunk Fashion craze literary genre lifestyle or all of the above Playing with the scientific innovations and aesthetics of the Victorian era steampunk creatively warps history and presents an alternative future imagined from a nineteenth century perspective In her interdisciplinary book Claire Nally delves into this contemporary subculture explaining how the fashion music visual culture literature and politics of steampunk intersect with theories of gender and sexuality Exploring and occasionally critiquing the ways in which gender functions in the movement she addresses a range of different issues including the controversial trope of the Victorian asylum gender and the graphic novel the legacies of colonialism science and the role of Ada Lovelace as a feminist steampunk icon Drawing upon interviews theoretical readings and textual analysis Nally asks why are steampunks fascinated by our Victorian heritage and what strategies do they use to reinvent history in the present

**Ius Doni in International Law and EU Law** Christian H. Kälén, 2019-03-27 In Ius Doni in International Law and EU Law Dr Christian H

Klin establishes the concept of *ius doni* in the contemporary legal and political theorising of citizenship. Providing a comprehensive analysis of the subject, the book discusses the legal and political concepts of citizenship. It also introduces a new term for what is already an increasingly common and accepted practice of granting citizenship on the basis of substantial contributions to the State. Consisting of two main parts, law and practice, the monograph analyses the *ius doni* concept in both international law and EU law, further tests its application in practice and establishes best practices among states. Finally, the book discusses the conceptual and practical implications for citizenship. **Western Europe 2017-2018**

**Europe 2012** Wayne C. Thompson, 2012-08-09. The World Today Series. Western Europe is an annually updated presentation of each sovereign country in Western Europe, past and present. It is broken down into individual chapters on each country, dealing with its geography, people, history, political system, constitution, parliament, decentralization, and states if a federation, parties, political leaders, and elections. There are also sections on foreign and defense policy, economy, culture, future, and a lengthy bibliography. Europe and the Everyday Elena Glockzin, Stephan Stetter, 2024-12-30. Due to significant processes of transnationalization in the European context, a considerable relevance of potential social and political conflicts or disagreements in everyday life linked to Europe or the European Union can be observed. Consequently, the focus of this book is on the increasingly intertwined European citizens themselves and their everyday experiences with European and EU-related issues. The individual chapters provide fine-tuned perspectives on the connection of social and political European integration processes in the context of the EU and the everyday life of Europeans. Overall, the book draws attention to both how contestations over Europe and the EU figure in everyday life and on how European integration shapes individual social and political subjectivities and identities. This book is intended for scholars and advanced students of European Studies, Sociology, and Political Science, and International Relations. **Political and Legal Perspectives of the EU Eastern**

**Partnership Policy** Tanel Kerikmäe, Archil Chocia, 2016-01-23. This book examines EU Eastern Partnership, taking into account geopolitical challenges of EU integration. It highlights reasons for limited success, such as systematic conflict of EU External Action. In addition, the book analyses country-specific issues and discusses EaP influence on them, investigating political, economic, and social factors while seeking for potential solutions to existing problems. The reluctance of the Eastern

countries to the European reforms should not reduce political pro activeness of the EU The authors suggest that EaP strategies should be reviewed to be more reciprocal and not based solely on the EU laden agenda This book is one of the good examples of cooperation between scholars not only from EaP and EU countries but also from different disciplines bringing diversity to the discussion process
