Online Bible Transformation Promise Intercultural Reading:

Reading the Bible across Contexts Esa J. Autero, 2016-06-10 In *Reading the Bible Across Contexts* Esa Autero offers a fresh perspective on Luke's poverty texts. In addition to an historical reading he conducted an empirical investigation of two Latin American Bible reading groups, one poor and the other affluent, to shed light on Luke's poverty texts. The interaction between historical reading and present day readings demonstrates the impact of socio-economic status on biblical hermeneutics and sheds new light on Luke's views on wealth and poverty. At the same time, Esa Autero critically examines liberation theologians' claim that the poor are privileged biblical interpreters. **Abuse in World Religions** Johanna Stiebert, 2025-07-31 This book draws attention to the texts, mechanisms, strategies, and initiatives that address and combat sexualised spiritual abuse in five world religions. It goes beyond identifying, describing, or characterising spiritual abuse in multiple religious traditions and rape culture settings; instead, it describes what is being done in diverse religious communities and settings to confront, address, resist, and heal from spiritual abuse. Just as none of the world religions are free from spiritual abuse, all have developed ways to detoxify, prevent, eliminate, and bring healing and justice in the face of its existence. Solutions focused activities range from analysis of sacred texts to discussion forums, creation of self-representational visual and creative expressions, digital and other forms of activism, and protest, specialist training courses, support groups, and survivor-led initiatives. The book will appeal to academics of religious studies with interest in rape culture and spiritual abuse, as well as upper-level undergraduates and postgraduates, and also religious leaders or leaders of faith-based organisations seeking to understand and to confront spiritual abuse and rape culture in their own communities. **Faith, Class, and Labor** Jin Young Choi, Joerg Rieger, 2020-12-16 Despite the fact that 99 percent of us work for a living, and although work shapes us to the core, class and labor are topics that are underrepresented in the work of scholars of religion, theology, and the Bible. With this volume, an international group of scholars and activists from nine different countries is bringing issues of religion, class, and labor back into conversation. Historians and theologians investigate how new images of God and the world emerge, and what difference they can make. Biblical critics develop new takes on ancient texts that lead to the reversal of readings that had been seemingly stable, settled, and taken for granted. Activists and organizers identify neglected sources of power and energy, returning in new force, and point to transformations happening. Asking how labor and religion mutually shape each other, and how the agency of working people operates in their lives, the contributors also employ intersectional approaches that engage race, gender, sexuality, and colonialism. This volume presents transdisciplinary, transtextual, transactional, transnational, and transgressive work in progress, much needed in our time. **From One Medium to Another** Paul A. Soukup, Robert Hodgson, 1997 Eighteen experts from a wide variety of academic and professional fields engage key questions in a series of thought-provoking essays that define the emerging field of new media Bible translating and how the biblical message will be communicated in the culture and media of the 21st century. **Making Housing Happen, 2nd Edition** Jill

Suzanne Shook, 2012-09-19 The growing housing crisis cries out for solutions that work As many as 3 5 million Americans experience homelessness each year half of them women and children One in four renters spends more than half of their income on rent and utilities more than 30 percent is considered unaffordable With record foreclosures and 28 percent of homes underwater middle and low income homeowners are suffering Many congregations want to address this daunting problem yet feel powerless and uncertain about what to do The good news is that churches are effectively addressing the housing crisis from Washington State to New York City where an alliance of sixty churches has built five thousand homes for low income homeowners with virtually no government funding or foreclosures This book not only presents solid theological thinking about housing but also offers workable solutions to the current crisis true stories by those who have made housing happen Each story features a different Christian denomination geographic area and model adaptive reuse cohousing cooperative housing mixed income mixed use inclusionary zoning second units community land trusts sweat equity and more Making Housing Happen is about vision and faith relationships and persistence Its remarkable stories will inspire and challenge you to action This new edition includes significant new material especially in light of the ongoing mortgage crisis

Safeguarding the Stranger Jayme R Reaves, 2017-08-31 In our troubled world protective hospitality is tragically necessary and requires informed shared action and belief on behalf of the threatened other In Safeguarding the Stranger Jayme R Reaves argues that protective hospitality and its faith based foundations as seen in the Abrahamic traditions of Judaism Christianity and Islam merit greater theological attention Reaves shows that the practice of protective hospitality in Christianity can be enhanced by a better understanding of Jewish and Muslim practices of hospitality as well as of their codes and etiquettes related to honour Safeguarding the Stranger draws on a contextual and political theological approach informed by liberation and feminist theologies as viewed through the lens of a co operative and complementary theological view which is influenced by inter religious Abrahamic and hospitable approaches to dialogue forecasting the positive role that religions can play in resolving conflicts **At the Intersection of Hermeneutics and Homiletics** Yung Suk

Kim, 2025-04-18 While hermeneutics involves comprehensive study of the biblical text whether through historical or literary or reader focused approaches homiletics is concerned with a selected theme message and on the composition and delivery of sermon discourse aimed at a particular audience But the border between hermeneutics and homiletics is blurry because both disciplines require readers to engage the biblical text from their own contexts This collection deals with the intersection of hermeneutics and homiletics by exploring two revelatory texts one from the Hebrew Bible and the other from the New Testament the book of Ruth and Matthew 15 21 28 a Canaanite woman s encounter with Jesus Both reflect agonizing issues that readers must tackle immigration family community identity agency race ethnicity gender class culture economy and religion A diverse group of scholars brings their transgressive perspectives to the above texts Unfolding new areas of interest inquiry and insight they will transgress authoritative readings of biblical texts fashion hermeneutic horizons in dialogue with

the text and forge homiletic trajectories toward contemporary audiences Without limiting interpretation to a box this volume looks to register bold voices to perennial issues in our day Homiletic transformation occurs through the relentless resistant reading of the text and through reimagining our world *Religion in Sociological Perspective* Keith A. Roberts, David Yamane, 2011-06-09 Religion in Sociological Perspective is an introduction to the sociology of religion core text designed to present and illustrate the basic theories sociologists use to understand the social dimensions of religion First and foremost the authors seek to help students understand the perspective from which sociologists view religion By the time students have finished this book they should understand the central theories and methods of research in the sociology of religion and they should have an idea of how to apply these analytical tools to new groups they encounter The goal of this text is to be illustrative rather than all encompassing The Fifth Edition continues to draw on a wide range of perspectives The text aims to help students recognize the contributions of various theoretical perspectives and the blind spots of each theory Conflict functional social constructionist and rational choice paradigms are used throughout the text Various middle range theories are also utilized to explore specific processes Despite the effort to introduce many perspectives however we have made an effort to enhance integration of the text by using one framework throughout the book the open systems model

Multimodal Approaches to Media Discourses Tim Griebel, Stefan Evert, Philipp Heinrich, 2020-08-18 Multimodal Approaches to Media Discourses brings together contributions from an interdisciplinary group of scholars on corpus assisted analyses of multimodal data on austerity discourses in the United Kingdom which extend and expand on the understanding of austerity but also of the methodologies used to analyse multimodal corpora The volume demonstrates how the austerity measures introduced in response to global economic and financial crises in recent years can be viewed as being more complexly layered than they appear not simply reduced to their connections to spending cuts and fiscal debt The book employs an innovative methodological approach in which established and emerging scholars from linguistics and computational and social sciences critically reflect on the exact same set of data multimodal texts and articles from The Guardian and The Daily Telegraph from 2010 to 2016 This framework allows for the exploration of the role of the media in mediating the public s assessment of austerity and the ideas actors emotions geographies and broader material context which contribute to such perceptions In so doing the volume also offers unique insights into systematic analyses to multimodal data which may be applied to other topics and connected with other disciplines Enhancing our awareness and assessment of austerity in public discourse and of the methodologies to study it this book is key reading for students and researchers in discourse analysis corpus linguistics multimodality and those working at the intersection of these fields

Acts of Reading Thomas Page Anderson, Ryan Netzley, 2010 Acts of Reading examines how John Foxe s Actes and Monuments shaped reading and interpretive practice in the early modern period and addresses the impact of recent electronic editions of Foxe s text on current reading practice and scholarship The collection draws on history of the book

scholarship to make a plea for the centrality of Foxe to any discussion of Renaissance literary history These essays also productively attend to the relationship between the materiality of books and the conceptual assumptions that govern our engagement with them The anthology's focus on digital editions of Foxe's Book of Martyrs allows it to explore the often conflicted relationship between modern technologies of book production and reception and the early modern texts transmitted via these technologies More broadly Acts of Reading explores how books and our encounters with them through different media turn us into who we are Thomas Anderson is an Assistant Professor of English at Mississippi State University Ryzn Netzley is an Assistant Professor of English at Southern Illinois University *Take Back the Word* Robert Goss, Mona West, 2000 Perhaps the most revolutionary contribution of this volume is in its presentation of new and resistant practices of reading the Bible that challenge some of the prevailing authorized patterns of reading that allow the Bible to clobber oppressed people If lesbians gay men bisexuals transgender and seeking people are to take back this word for themselves they must take it back in a new way **Bulletin of the Atomic Scientists**, 1972-10 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world *The Missing Baptism* Richard E. Snowden, 2017-03-06 Are you spiritually thirsty Perhaps you have been a Christian for a long time You attend a respectable assembly or fellowship you study the Bible and you regularly hear good ministry You have escaped nearly two decades of increasingly deceptive spiritual movements from the so called Toronto blessing to the Purpose Driven and Emergent Church to name but a few Yet still you sense that there must be more to Christianity More than ticking boxes for orthodox doctrine more than preaching the Gospel to ourselves when once again the Lord has not seen fit to send in any of the unsaved to hear our noble efforts Have you ever read the book of Acts and been thrilled by the sheer spiritual dynamism of those early believers Have you wondered why there seems to be such a wide difference between their achievements and ours Have we forgotten that we serve the same God who changes not Perhaps you have heard others talk about the Baptism with the Holy Spirit and wondered what it is all about Sadly for many whose hearts have been stirred the stagnant waters of traditionalized teaching have quickly extinguished their yearnings One of the 20th century's most gifted Bible teachers once said We don't need Pentecostal doctrine and we don't need Brethren doctrine what we need is Bible doctrine How true The Missing Baptism is an attempt to help believers examine the Scriptures afresh on this vital matter It invites you to lay aside the distorting spectacles of denominational prejudice unbelief fear and pride and take the Scriptures at face value American Book Publishing Record, 2003 **Cincinnati Magazine**, 2003-04 Cincinnati Magazine taps into the DNA of the city exploring shopping dining living and culture and giving readers a ringside seat on the issues shaping the region Filipinas Magazine, 2005 **The Quest for Gender Equity in Leadership** KeumJu Jewel Hyun, Diphus Chosefu Chemorion, 2016-07-29 The call for gender equity in leadership has become a global concern From a Christian perspective all

forms of gender prejudice are sinful because they violate God's intention for creating both men and women in God's image. Although many Christian authors have published books and journal articles to address gender-based injustice, very few publications have approached the subject from an African perspective. This book is meant to fill the existing gap. With a specific reference to the African context, this book explores the phenomenon of equity in leadership from various dimensions such as African culture and traditional religion, church tradition, biblical interpretation, as well as from the perspective of contemporary socio-economic and political realities in Africa. By giving vivid examples of success stories of men and women working together, the authors have demythologized the view that women cannot be leaders. In addition, this book is intended for general readership by Christian men and women throughout the globe. For universities and colleges that teach gender studies as a subject, the book can serve as a class text or reference resource. Seminaries and theological institutions will also find it handy for training and mentoring Christians to promote equity in the church, ministry, business, and family.
