Meat A Benign Extravagance:

Meat Simon Fairlie, 2010 Meat a benign extravagance is an exploration of the difficult environmental and ethical issues that surround the human consumption of animal flesh The world s meat consumption is rapidly rising leading to devastating environmental impacts as well as having long term health implications for societies everywhere Simon Fairlie s book lays out the reasons why we must decrease the amount of meat we eat both for the planet and for ourselves At its heart the book argues however that the farming of animals for consumption has become problematic because we have removed ourselves physically and spiritually from the land Our society needs to reorientate itself back to the land and Simon explains why an agriculture that is most readily able to achieve this is one that includes a measure of livestock farming Publisher Meat Simon Fairlie, 2011 Bovine Medicine Peter Cockcroft, 2015-04-10 Diese sorgf ltig bearbeitete 3 Auflage pr sentiert die j ngsten Neuerungen in dem Fachgebiet Veterin re f r Nutztiere und Studenten der Tiermedizin finden in diesem Referenzwerk alles Wissenswerte rund um moderne Verfahren zur Gesunderhaltung und Haltung von Rindern Neuauflage dieses Klassikers sorgf ltig bearbeitet und jetzt mit Schwerpunkt auf den wichtigsten allt glichen Aspekten zu Rindergesundheit und haltung Konzentriert sich unter anderem erstmals auf praktische Fertigkeiten und den Wissenstransfer und enth lt weitaus mehr farbige Illustrationen als die fr heren Ausgaben Vermittelt wichtige Kompetenzen f r die Praxis um auf heutige Anforderungen an die Rindergesundheit und haltung ad quat zu reagieren Verbindet nahtlos alles Wissenswerte zu Haltung F tterung und Krankheiten Autoren sind Fachexperten aus aller Welt *The Ethical Carnivore* Louise Gray, 2016-09-22 WINNER OF TWO 2017 GUILD OF FOOD WRITERS AWARDS BEST FOOD BOOK AWARD AND THE CAMPAIGNING AND INVESTIGATIVE FOOD WORK AWARD SHORTLISTED FOR THE 2017 FORTNUM MASON FOOD BOOK OF THE YEAR A BBC RADIO 4 FOOD PROGRAMME BOOK OF THE YEAR 2016 A GUARDIAN BOOK OF THE YEAR 2016 We should all know exactly where our meat comes from But what if you took this modern day maxim to its logical conclusion and only ate animals you killed yourself Louise Gray decides to be an ethical carnivore and learn to stalk shoot and fish Starting small Louise shucks oysters and catches a trout As she begins to reconnect with nature she befriends countrymen and women who can teach her to shoot pigeons rabbits and red deer Louise begins to look into how meat is processed including the beef in our burgers cheap chicken supermarket bacon and farmed fish She investigates halal slaughter and visits abattoirs to ask whether new technology can make eating meat more humane Delving into alternative food cultures Louise finds herself sourcing roadkill and cooking a squirrel stir fry and she explores eating other sources of protein like in vitro meat insects and plant based options With the global demand for meat growing Louise argues that eating less meat should be an essential part of fighting climate change for all of us Her writing on nature food and the environment is full of humour while never shying from the hard facts Louise gets to the heart of modern anxieties about where our meat comes from asking an important question for our time is it possible to be an ethical carnivore **Critical Animal and**

The Ethics of Eating Animals Bob Fischer, 2019-09-05 Intensive animal agriculture wrongs many many animals Philosophers have argued on this basis that most people in wealthy Western contexts are morally obligated to avoid animal products This book explains why the author thinks that s mistaken He reaches this negative conclusion by contending that the major arguments for veganism fail they don t establish the right sort of connection between producing and eating animal based foods Moreover if they didn t have this problem then they would have other ones we wouldn t be obliged to abstain from all animal products but to eat strange things instead e g roadkill insects and things left in dumpsters On his view although we have a collective obligation not to farm animals there is no specific diet that most individuals ought to have Nevertheless he does think that some people are obligated to be vegans but that s because they ve joined a movement or formed a practical identity that requires that sacrifice This book argues that there are good reasons to make such a move albeit not ones strong enough to show that everyone must do likewise

Donovan,2013-09-11 The changing economic environment for the consumer that is emerging from the wreckage of the financial credit crunch plays directly into the importance of food spending This is certainly true from the perspective of food prices in the short run but also from the perspective of sustainability and reducing the impact of the environmental credit crunch The economic changes we experience now have a bearing on our ability to manage the environmental credit crunch that looms Food Policy and the Environmental Credit Crunch From Soup to Nuts elaborates on the issues addressed in the authors first book From Red to Green and asks whether the financial credit crunch could ameliorate or exacerbate the emergent environmental credit crunch The conclusion drawn here is that a significant and positive difference could be made by changing some of the ways in which we procure prepare and consume our food Written by an economist and an investment professional this book addresses the economic and environmental implications of how we treat food The book examines each aspect of the food chain from agriculture to production and processing retail preparation consumption and waste **Taking Stock** Roger Morgan-Grenville,2022-06-16 Funny insightful and hugely informative a charming book

DAILY MAIL Tremendous We all need to take stock and this is the ideal starting point I learnt a lot from this book and laughed a lot too ROSAMUND YOUNG author of The Secret Life of Cows Since highland cattle ransacked his grandmother s vegetable patch when he was six Roger Morgan Grenville has been fascinated by cows So at the age of 61 with no farming experience he signed on as a part time labourer on a beef cattle farm to tell their side of the story The result is this lyrical and evocative book For 10 000 years cow and human lives have been intertwined Cattle have existed alongside us fed and shod us quenched our thirst and provided a thousand other tiny services and yet most of us know little about them We are also blissfully unaware of the de natured lives we often ask them to lead Part history part adventure and part unsentimental manifesto for how we should treat cows in the 21st century Taking Stock asks us to think carefully about what we eat and to let nature back into food production
