**Napoleon's Undefeated Marshal** Martin Sullivan,2024-12-31 The war of 1809 between France and Habsburg Austria culminating in the titanic battle of Wagram has been described often as Napoleon s last successful campaign Napoleon said later that the manoeuvres and actions of the French army and their German allies in the opening two weeks of this conflict were among the most brilliant and skilful of his entire career But matters might have gone very differently A series of miscalculations mistakes and poor communications both prior to Austria s declaration of war and in the early days of hostilities might have resulted in a major setback if not a disaster for the French Emperor That they did not is due in large part to the decisions and actions of Marshal Louis Davout the so called Iron Marshall This is the first English study of

Marshal Davout's command and leadership in over fifty years Little known outside of France Louis Davout was one of the finest generals in Napoleon's army as evidenced by his comprehensive defeat of the main Prussian force at Auerstadt in October 1806 A hard even harsh disciplinarian an utterly ruthless opponent on the field of battle Davout was also a loving family man meticulously concerned for the health and well being of his troops and able to command the loyalty of his divisional commanders for far longer than any of his contemporaries In this new study Martin Sullivan describes in detail the decision making processes and actions of Marshal Davout and from this analysis illustrates leadership concepts and theories which remain relevant to the world of today Focusing upon the opening phase of the Wagram campaign he examines in detail the decisions and actions of the participants Davout his opponent the Archduke Charles and Napoleon himself By this method the art of leadership may be seen exercised in the heat of an intense and deadly conflict

*The Campaigns of Napoleon*  
David G. Chandler, 2009-12-01 In this engrossing The New Yorker vivid and intensively researched volume esteemed Napoleon scholar David Chandler outlines the military strategy that led the famous French emperor to his greatest victories and to his ultimate downfall Napoleonic war was nothing if not complex an ever shifting kaleidoscope of moves and intentions which by themselves went a long way towards baffling and dazing his conventionally minded opponents into that state of disconcerting moral disequilibrium which so often resulted in their catastrophic defeat The Campaigns of Napoleon is a masterful analysis and insightful critique of Napoleon's art of war as he himself developed and perfected it in the major military campaigns of his career Napoleon disavowed any suggestion that he worked from formula Je n'ai jamais eu un plan d'opérations but military historian David Chandler demonstrates this was at best only a half truth To be sure every operation Napoleon conducted contained unique improvisatory features But there were from the first to the last certain basic principles of strategic maneuver and battlefield planning that he almost invariably put into practice To clarify these underlying methods as well as the style of Napoleon's fabulous intellect Chandler examines in detail each campaign mounted and personally conducted by Napoleon analyzing the strategies employed revealing wherever possible the probable sources of his subject's military ideas Writing clearly and vividly Chandler turns dozens of persons besides Napoleon from mere wooden soldiers into three dimensional characters The Boston Globe and this definitive work is a fine book for the historian the student and the intelligent reader The New York Review of Books
