Caring Hearts and Critical Minds Steven Wolk, 2013 Wolk demonstrates how to integrate inquiry learning exciting and contemporary literature and teaching for social responsibility across the curriculum He takes teachers step by step through the process of designing an inquiry based literature unit and then provides five full units used in real middle grade classrooms Featuring a remarkable range of recommended resources and hundreds of novels from across the literary genres Caring Hearts Critical Minds gives teachers a blueprint for creating dynamic units with rigorous lessons about topics kids care about from media and the environment to personal happiness and global poverty Wolk shows teachers how to find stimulating real world complex texts called for in the Common Core State Standards and integrate them into literature units Publisher's website

**Reading America** Matthew Guillen, 2007 Is there a unique visual infrastructure that keeps and defines a culture Professor Guillen discusses a culture built entirely on the visual modality and most significantly on that province of the visual we negotiate through the written word Although this work analyzes features critical to the American legal tradition from its origins in Anglo Saxon jurisprudence to recent Supreme Court decisions substantially exploring Judge Scalia's originalist movement and Posner's law and economics theories the presiding agency remains the power of the written language to provide scaffolding to American culture Writing it is argued contours our worldview our laws morality science social problems and affects film media broadcasting comics and literary criticism The effects of our national formation and the literature that sprung up to discuss the new nation and define its people have

directly led to the evolution of our idiosyncratic legal and philosophical perspectives The title of this work purposely carries a double meaning since it proposes to deal with a reading of American culture through its legal and cultural legacy as well as concluding with questions revolving around a well informed American readership essential for the preservation of the culture as well as the continued existence of a national collective conscience     U.S. Foreign Policy Steven W. Hook,2015-12-18 The same aspects of American government and society that propelled the United States to global primacy have also hampered its orderly and successful conduct of foreign policy This paradox challenges U S leaders to overcome threats to America s world power in the face of fast moving global developments and political upheavals at home The fully updated Fifth Edition of Steven W Hook s U S Foreign Policy The Paradox of World Power explores this paradox identifies its key sources and manifestations and considers its future implications as it asks whether U S foreign policymakers can manage these dynamics in a manner that preserves U S primacy     **Gender on Ice** Lisa Bloom,1993 In this book Bloom takes what might seem a very localized subject and shows how it opens up to all the central questions today in cultural studies around gender nationhood the politics of imperialism race male homosocial behavior and the sociality of science Gender on Ice has an eloquence and elegance that positively refreshing and the prose is stylish engaging and direct Dana Polan University of Pittsburgh     **Education for people and the planet: Creating sustainable futures for all** UNESCO,2016-09-12 This edition of the Global Education Monitoring Report GEM Report is the first in a series that will assess the progress of education under the new Sustainable Development Goals SDGs     The Guided Reader to Teaching and Learning History Richard Harris,Katharine Burn,Mary Woolley,2013-10-15 The Guided Reader to Teaching and Learning History draws on extracts from the published work of some of the most influential history education writers representing a range of perspectives from leading classroom practitioners to academic researchers and highlighting key debates surrounding a central range of issues affecting secondary History teachers This book brings together key extracts from classic and contemporary writing and contextualises these in both theoretical and practical terms Each extract is accompanied by an introduction a summary of the key points and issues raised questions to promote discussion and suggestions for further reading to extend thinking Taking a thematic approach and including a short introduction to each theme the chapters include The purpose of history education Pupil perspectives on history education Assessment and progression in history Inclusion in history Diversity in history Teaching difficult issues Technology and history education Change and continuity Historical Interpretations Professional development for history teachers Aimed at trainee and newly qualified teachers including those working towards Masters level qualifications as well as existing teachers this accessible but critically provocative text is an essential resource for those that wish to deepen their understanding of History Education     **The Haraway Reader** Donna Jeanne Haraway,2004 First Published in 2004 Routledge is an imprint of Taylor Francis an informa company     **Interpreting Our World** Joseph J. Kerski,2016-10-17 This important book demonstrates why geography matters in the

modern day world through its examination of 100 moments throughout history that had a significant impact on the study of geography literally writing about the earth Geography is not simply accounts of the lands of earth and their features it s about discovering everything there is to know about our planet This book shows why geography is of critical importance to our world s 21st century inhabitants through an exploration of the past and present discoveries that have been made about the earth It pinpoints 100 moments throughout history that had a significant impact on the study of geography and the understanding of our world including widely accepted maps of the ancient world writings and discoveries of key thinkers and philosophers key exploration events and findings during the Age of Discovery the foundations of important geographic organizations and inventions in digital mapping The book begins with a clear explanation of geography as a discipline a framework and a way of viewing the world followed by coverage of each of the 100 discoveries and innovations that provides sufficient background and content for readers to understand each topic The book concludes with a concise synopsis of why it all matters and a look forward to 10 possible future discoveries in the next 50 years of geography Students will gain a clear sense of what is truly revolutionary about geography perhaps challenging their preconceived notion of what geography actually is and grasp how important discoveries revolutionized not only the past but the present day as well *IPTVisions*, 1997 *Forum*, 1996 **Women in Anthropology** Maria G Cattell, Marjorie M Schweitzer, 2016-07-01 Women in academia have struggled for centuries to establish levels of acceptance and credibility equal to men in the same fields and anthropology has been no different The women anthropologists in this book speak frankly about their challenges and successes as they navigated through their personal and professional lives Riding the changing tides of social and disciplinary history they struggled through various and sometimes conflicting arenas of life marriage raising children caring for families publishing conducting research going into the field teaching and mentoring They did this during volatile periods in the twentieth century when the roles and expectations for women were being constantly reestablished and repositioned For anyone interested in the cultural and demographic shifts that are fundamentally altering opportunities for women in the workplace *Women in Anthropology* is a thought provoking and inspirational read For anthropologists it is an important and intimate portrait of the realities of professional life *A Guide to Spatial History* Konrad Lawson, Riccardo Bavaj, Bernhard Struck, 2022-01-07 This guide provides an overview of the thematic areas analytical aspects and avenues of research which together form a broader conversation around doing spatial history Spatial history is not a field with clearly delineated boundaries For the most part it lacks a distinct unambiguous scholarly identity It can only be thought of in relation to other typically more established fields Indeed one of the most valuable utilities of spatial history is its capacity to facilitate conversations across those fields Consequently it must be discussed in relation to a variety of historiographical contexts Each of these have their own intellectual genealogies institutional settings and conceptual path dependencies With this in mind this guide surveys the following areas territoriality infrastructure and borders nature environment and landscape city and

home social space and political protest spaces of knowledge spatial imaginaries cartographic representations and historical GIS research

**Pursuing Justice, 2nd Edition** Margot Hurlbert, 2020-07-25T00:00:00Z Pursuing justice is daunting It plays out in a variety of contexts like the environment employment the criminal justice system and raises tough issues like racism gender discrimination and poverty But ultimately the aim of studying justice is to achieve it This book is about justice in Canada its definition its boundaries its contradictions and its nuances It is also about the mechanisms and practices that enable the pursuit of justice It problematizes the notion of justice while defining and pursuing the illusive notion of justice in Canadian society This second edition features updated content from the popular first edition as well as new content about social justice and racism the experiences of racialized persons with police settler colonialism and issues of justice for gender and sexual minorities all from a Canadian perspective Additionally each chapter contains objectives of the chapter case studies and discussion questions

Divas on Screen Mia Mask, 2010-10-01 This insightful study places African American women's stardom in historical and industrial contexts by examining the star personae of five African American women Dorothy Dandridge Pam Grier Whoopi Goldberg Oprah Winfrey and Halle Berry Interpreting each woman's celebrity as predicated on a brand of charismatic authority Mia Mask shows how these female stars have ultimately complicated the conventional discursive practices through which blackness and womanhood have been represented in commercial cinema independent film and network television Mask examines the function of these stars in seminal yet underanalyzed films She considers Dandridge's status as a sexual commodity in films such as *Tamango* revealing the contradictory discourses regarding race and sexuality in segregation era American culture Grier's feminist camp performances in sexploitation pictures *Women in Cages* and *The Big Doll House* and her subsequent blaxploitation vehicles *Coffy* and *Foxy Brown* highlight a similar tension between representing African American women as both objectified stereotypes and powerful self-defining icons Mask reads Goldberg's transforming habits in *Sister Act* and *The Associate* as representative of her unruly comedic routines while Winfrey's daily television performance as self-made self-help guru echoes Horatio Alger narratives of success Finally Mask analyzes Berry's meteoric success by acknowledging the ways in which Dandridge's career made Berry's possible

**Children's Literature and Culture** Rebecca Rowe, 2025-08-08 Children's Literature and Culture An Introduction guides readers in the study of culture in around and through children's literature Children's literature has long been used as a mechanism by which a culture passes its values from one generation to the next Because of this culturally didactic purpose children's literature can be viewed as one of the most fruitful areas of study of any given culture At the same time studying the cultures from which works of children's literature emerge and in which they circulate can also help better understand not only the ideas of childhood that underpin individual texts for children but the

role they play in the construction and transmission of different cultural ideologies This book teaches readers this double work of using culture to understand children s literature and vice versa This volume traces the scholarly methodologies and histories that have attended the study of each of the 20 chapters given subject from the representation of race in and around children s literature to questions of censorship to how libraries can and do shape children s literature In the process it prepares readers to confidently enter and forward scholarly debates and to teach such debates to their own students
