The Critical Media Literacy Guide

Douglas Kellner, Jeff Share, 2019-05-20 Over half the world's population is now online interconnected through a globally networked media and consumer society. The convergence of information media and technology has created the predominant ecosystem of our time. Yet most educational institutions are still teaching what and how they have for centuries and are thus increasingly out of date and out of touch with our current needs. *The Critical Media Literacy Guide: Engaging Media and Transforming Education* provides a theoretical framework and practical applications for educators and teacher education programs to transform education by putting critical media literacy into action in classrooms with students from kindergarten to university. Douglas Kellner and Jeff Share lay out the evolution of thinking and development of media and cultural studies from the Frankfurt School to current intersectional theories about information and power that highlight the importance of race, gender, class, and sexuality. They provide insightful and accessible entry into theorizing education and information communication technologies through linking the politics of representation with critical pedagogy. The increase in fake news, alternative facts, bots, and trolls challenge our abilities to judge credibility and recognize bias. Kellner and Share present a critical lens and strategies to contextualize and analyze the dominant ideologies going viral across social media platforms and disseminated globally from enormous transnational corporations. *The Critical Media Literacy Guide* is a powerful resource to analyze and challenge representations and narratives of multiple forms of identity, privilege, and oppression. Since the struggle for social justice and democracy requires new theories and pedagogies to maneuver the constantly changing terrain, this book is essential for all educators.
