Mangan, Supriya Chaudhuri, 2016-04-08 Sport studies and sports history have witnessed a recent substantial increase in publications However the relationship between literature and sport has been little explored Sport Literature Society looks at a wide variety of case studies ranging from Japan to England from India to Australia and covers sports as diverse as cycling football wrestling and boxing It concentrates on historical perspectives The contributors are all academics of international reputation and include historians of sport and literary scholars Literature may shape our perceptions and reactions to sport as much as sport may inform our reading As mimetic practice as aesthetic object as imaginative release sport is analogous to literature and the other arts at the same time it can become the subject of literary visual or musical elaborations Literature often conceptualises the place and role of sport in culture and society Indeed sport

inhabits literature in ways that have not been adequately studied Sport studies have investigated the relationships between sport and society education gender nation and class To look again at these relationships through the prism of literature enables us to change our focus and to assess the centrality of sport in culture This book was published as a special issue of the International Journal of the History of Sport      **Listurbia** Carly Capielli,2019-01-09 5 things you need to know about this book 1 It is written in lists 2 Set in Western Sydney 3 Features a dysfunctional narrator 4 Who is fixated on stories of missing children 5 Though she is not entirely sure why As her world falls apart will she be able to put the pieces together

**Creativity Begins With You** Andy Neal,Dion Star,2022-09-01 Can creativity be taught Or is it simply innate This book will help you find your creativity through your own unique identity and experience challenging you to fight those negative voices get out of your habitual comfort zones and most importantly play Part practical workshop and part provocative guide Creativity Begins With You is an invaluable companion for any student working across the creative disciplines      **Dicing with Death** Stephen Senn,2022-12-08 From measles to COVID discover how data allied with statistical and probabilistic reasoning are essential to making rational decisions      **For the Love of Cod** Eric Dregni,2023-04-04 A journey to find Norway's supposed bliss makes for a comic travelogue that asks seriously what makes Norwegians so damn happy and does it translate Norway is usually near or at the top of the World Happiness Report But is it really one of the happiest countries on Earth Eric Dregni had his doubts Years ago he and his wife had lived in this country his great great grandfather once fled When their son Eilif was born there the Norwegian government paid for the birth gave them 5 000 and deposited 150 into their bank account every month but surely happiness was more than a generous health care system What about all those grim months without sun When Eilif turned fifteen father and son decided to go back together and investigate For the Love of Cod is their droll report on the state of purported Norwegian bliss Arriving in May a month of festivals and eternal sun the Dregnis are thrust into Norway at its merriest and into the reality of the astronomical cost of living which forces them to find lodging with friends and relatives But this gives them an inside look at the secrets to a better life It's not the massive amounts of money flowing from the North Sea oil fields but how these funds are distributed that fuels the Norwegian version of democratic socialism resulting in miniscule differences between rich and poor Locals introduce them to the principles underlying their avowed contentment from an active environmentalism that translates into flyskam flight shame which keeps Norwegians in the family cabin for the long vacations prescribed by law and charges a 150 percent tax on gas guzzlers which Eilif observes means more Teslas seen in one hour than in a year in Minnesota From a passion for dugnad or community volunteerism and sakte or slow a rejection of the mad pace of modernity to the commodification of Viking history and the dark side of Black Metal music that turns the idea of quaint traditional Norway upside down this idiosyncratic father and son tour lets readers free of flyskam see how or whether Norwegian happiness translates      *Encircling 3* Carl Frode Tiller,2021-07-13 The Encircling Trilogy comes thundering to a close as the man at the center is revealed The final book in

Carl Frode Tiller's groundbreaking *Encircling Trilogy* is here. In Barbara Haveland's powerful translation two new letters circle closer than ever to David who allegedly lost his memory. One is from Marius who has led the life of wealth and privilege that David was meant to live. And yet Marius does not appreciate it; desperate for attention, he lies to his girlfriend with disastrous consequences. The other comes from Susanne, an ex-lover whose affair with David led to the breakup of her marriage. Humiliated by David's unflattering portrayal of her in his novel, Susanne is determined to exact revenge on him in the most painful possible way. Last of all, we come face to face with David himself, a frustrated writer whose early successes have faded. His therapy sessions seem to reveal a dangerous and violent individual bent on getting what he wants at any cost. With David's own story told, the last piece falls into place and his true character is unveiled. But as with books one and two, there are twists and turns that upset expectations and leave the reader wondering whom to believe. Across three books, Tiller's incisive character portraits lay bare the inequalities of class and excesses of wealth in Norwegian society. With *Encircling 3: Aftermath*, Tiller sounds the unexplored depths of David's life in the culmination of this astonishing feat of psychological realism.

*Historical Dictionary of Scandinavian Literature and Theater* Jan Sjøvik, 2006-04-19 The literature of Scandinavia is amazingly rich and varied, consisting of the works produced by the countries of Denmark, Norway, Sweden, Finland, and Iceland, and stretching from the ancient Norse Sagas to the present day. While much of it is unknown outside of the region, some has gained worldwide popularity, including the fairy tales of Hans Christian Andersen, the stories of Isak Dinesen, and the plays of Henrik Ibsen and August Strindberg. While obviously including the area's most famous works, the *Historical Dictionary of Scandinavian Literature and Theater* also provides information on lesser-known authors and current trends, literary circles and journals, and historical background. This is accomplished through a list of acronyms, a chronology, an introductory essay, a bibliography, and several hundred cross-referenced dictionary entries which together make this reference the most comprehensive and up-to-date work of its kind related to Scandinavian literature and theater available anywhere.

**Naiv. super** Erlend Loe, 1998      **Culture and Customs of Norway** Margaret Hayford O'Leary, 2010-09-16

This thorough introduction to modern-day Norway and Norwegian culture shows the impact a small country can have on the world in terms of peace-building, environmental issues, technological innovation, and more. *Culture and Customs of Norway* provides an up-to-date view of Norway, showcasing a nation that is part of modern Europe yet zealously maintains its own culture and identity. Providing the most current information on a broad range of topics, including cinema, literature, food, art, performing arts, and architecture, the book also places modern-day Norway in a historical context that makes it possible to understand how Norwegian culture came to be as it is today. Readers will discover a nation that is a fascinating juxtaposition of advanced technology, especially in such fields as oil production and climate, and some of the most spectacular natural beauty in the world. They will read about such famous writers, artists, and composers as Henrik Ibsen, Edvard Munch, and Edvard Grieg. And they will discover how Norway confronts the challenges of modern society without sacrificing its social

democratic philosophy of social justice and shared responsibility both at home and globally

**The Passage from Youth to Adulthood** Pierluca Birindelli, 2014-09-26 The Passage from Youth to Adulthood explores a society unanchored from culturally endorsed rites of passage in which young people and adults appear to build their identities within a culture of dependency In this book author Pierluca Birindelli interviews Italian young adults still living with their parents and focuses on how those individuals view the bedroom and the objects therein From there he analyzes self narrations and longer autobiographies written by university students measuring his impressions against sociological psychological and anthropological literature Birindelli explores the paradigm of what he calls intergenerational collusion in which fathers and sons are playing to the same script heedless of the common good the other and the future Finally integrating the experience of young Americans abroad sparks transcultural reflections about the concept of play and the authenticity of social performance

The Charm of a List Lucie Doležalová, 2009-01-14 Lists one of the most archaic literary genres stand behind many of our complex mental or rhetorical structures and they often influence the way we conceptualize the world even if we are unaware of it They seem plain but may conceal a complicated inner logic They are agrammatical but may tell a story Their basic features selection order and layout may be enough to give them enormous power by including they exclude by ordering they create a hierarchy by taking on particular physical aspects they place themselves into a specific context These and other issues are discussed in the present transdisciplinary volume collecting the best revised contributions to a workshop on lists held at the Center for Theoretical Study in Prague in November 2008 Each of the 13 articles by researchers from seven countries provides a case study on the subject of list The fields covered include late antique medieval and early modern history philology philosophy cognitive and computer science The contributors aim both at presenting particular cases specific lists or list types and at the same time at addressing methodological issues exploring the ways of researching lists in their particular disciplines formulating relevant research themes and questions contextualizing the subject Since theoretical discourse on lists has not been established yet this volume should be seen as a first step in the process showing the variety of possible research directions on a transdisciplinary level and raising interest in the topic which although it may seem a bit obscure at first has indeed a lot to offer
