StylesCoda      **Pastoral, Identity, and Memory in the Works of John Banville** Alexander G.Z. Myers, 2018-08-27 John Banville's works waver indecisively between modernism and postmodernism. This study offers a hitherto unexplored vista on his works and argues that Banville is a post-modern pastoralist. The pastoral lens opens new vistas to Banville's central concerns: the collusion of ethics and aesthetics, self-identification in narrative, and the topography of the troubled mind. Banville's characters harbour an Arcadia of the unconscious conditioned by a subtext of nostalgia. Caught in a crisis, his characters explore, subvert, and transform the pastoral mode into an ambiguous quest for a stable self.      **The Scandals of Translation** Lawrence Venuti, 2002-09-11 Translation is stigmatized as a form of writing discouraged by copyright law, deprecated by the academy, exploited by publishers and corporations, governments and religious organizations. Lawrence Venuti exposes what he refers to as the scandals of translation by looking at the relationship between translation and those bodies: corporations, governments, religious organizations, publishers who need the work of the translator yet marginalize it when it threatens their cultural values. Venuti illustrates his arguments with a wealth of translations from The Bible, the works of Homer, Plato, and Wittgenstein, Japanese and West African novels, advertisements, and business journalism.      *The Facts on File Companion to the World Novel* Michael Sollars, Arbolina Llamas Jennings, 2008      *Rewriting Wrongs* Angela Kimyongür, Amy Wigelsworth, 2014-10-02 *Rewriting Wrongs* French Crime Fiction and the Palimpsest furthers scholarly research into French crime fiction and within that broad context examines the nature, functions, and specificity of the palimpsest. Originally a palaeographic phenomenon, the palimpsest has evolved into a figurative notion used to define any cultural artefact which has been reused but still bears traces of its earlier form. In her 2007 study *The Palimpsest*, Sarah Dillon refers to the persistent fascination with palimpsests in the popular imagination, embodying as they do the mystery of the secret, the miracle of resurrection, and the thrill of detective discovery. In the context of crime fiction, the palimpsest is a particularly fertile metaphor. Because the practice of rewriting is so central to popular fiction as a whole, crime fiction is replete with hypertextual transformations. The palimpsest also has tremendous extra-diegetic resonance in that crime fiction frequently involves the rewriting of criminal or historical events and scandals. This collection of essays therefore exemplifies and interrogates the various manifestations and implications of the palimpsest in French crime fiction.      **Detecting Texts** Patricia Merivale, Susan Elizabeth Sweeney, 2011-06-07 Although readers of detective fiction ordinarily expect to learn the mystery's solution at the end, there is another kind of detective story: the history of which encompasses writers as diverse as Poe, Borges, Robbe-Grillet, Auster, and Stephen King that ends with a question rather than an answer. The detective not only fails to solve the crime but also confronts insoluble mysteries of interpretation and identity. As the contributors to *Detecting Texts* contend, such stories belong to a distinct genre: the metaphysical detective story, in which the detective hero's inability to interpret the mystery inevitably casts doubt on the reader's similar attempt to make sense of the text and the world. *Detecting Texts* includes an introduction by the editors that defines the metaphysical detective story and traces its history.

from Poe's classic tales to today's postmodernist experiments. In addition to the editors, contributors include Stephen Bernstein, Joel Black, John T. Irwin, Jeffrey T. Nealon, and others.

**Manzoni and the Aesthetics of the Lombard Seicento**  
 Glenn Palen, 1998. Aligning these historical treatises with what little Manzoni said about art in his critical treatises justifies a methodology that combines elements of ekphrasis and a comparison of the variants from the first to the final version of the novel. Such methodology allows us to identify how both dramatic and pictorial influences common in seventeenth-century Lombard art manifest themselves in Manzoni's narrative constructs.

**Secret of the Muses Retold**  
 John T. Kirby, 2000. Precious repositories of ancient wisdom. Musty relics of outmoded culture. Timeless paragons of artistic achievement. Hegemonic tools of intellectual repression. Just what are the classics anyway, and why do or should we still pay so much attention to them? What is the literary canon? What is myth, and how do we use it? These are some of the questions that gave rise to John Kirby's *Secret of the Muses Retold*. This new study of works by five twentieth-century Italian writers investigates the abiding influence of the Greek and Roman classics and their rich legacy in our own day. The result is not only a splendid introduction to contemporary Italian literature but also a lucid and stimulating meditation on the insights that writers such as Umberto Eco and Italo Calvino have tapped from the wellspring of ancient tradition. Kirby's book offers an impassioned plea for the recuperation of the humanities in general and of classical studies in particular. No expertise in Greek, Latin, Italian, or literary theory is presumed, and both traditional and postmodern perspectives are accommodated.
