foreword by Lt Gen Paul K Van Riper USMC Ret Bren Chair Marine Corps University Quantico Virginia National Security Dilemmas Colin S. Gray, 2009 A primer on enduring issues of U S national security strategy Revival: Taiwan's National Security: Dilemmas and Opportunities (2001) Alexander C. Tan, Steve Chan, 2017-07-28 This title was first published in 2001 Clearly structured and very accessible this book rigorously examines the key issues affecting Taiwan s increasingly precarious position as an independent nation An impressive supplementary resource text for Asian politics and international relations courses *U.S. Army War College Guide to National Security Issues: National security policy and strategy* J. Boone Bartholomees, Army War College (U.S.). Strategic Studies Institute, 2012 Volume II continues the analyses and discussion of national security policy and strategy **The George W. Bush Defense Program** Stephen J. Cimbala, 2010 The events of 9 11 and the wars in Iraq and Afghanistan make an obvious case for expert study of the George W Bush defense program During the Bush administration the rise and fall of governments the fates of peoples and the very definitions of war and victory were up for discussion The United States with its unprecedented global military power at the dawn of the twenty first century created new opportunities for using foreign policy and military strategy on behalf of national and allied interests But this power was limited and its use against unconventional or otherwise unorthodox enemies required careful calibration of its various instruments In this insightful series of essays edited by Stephen Cimbala eleven academic experts prominent in the defense and security think tank communities assess Bush s defense program Many also have past or current experience in the U S government or the American armed forces They examine Bush s defense policy and strategy across several critical issues including Iraq Afghanistan terrorism nuclear arms control and foreign military sales In addition special chapters are devoted to the leadership style of former defense secretary Donald Rumsfeld to the idea of victory as it might apply to Bush s defense decisions and to the best exit strategy from Iraq for the United States The lessons learned from the successes and failures in Bush s defense policy clearly presented in The George W Bush Defense Program can also be applied to the appraisal of all presidents Joint Force Quarterly , 2009 **Military Review** , 2010 Review of Current Military Literature , 2010 *Professional Journal of the United States Army* , 2010 India's National Security Dilemma Rajpal Budania, 2001 **India's Evolving Deterrent Force Posturing in South Asia** Zulfqar Khan, Zafar Khan, 2020-12-16 The book discusses India s evolving deterrent force posturing in South Asia under the conceptual essentials of nuclear revolution when it comes to various combinations of conventional and nuclear forces development and the strategic implications it intentionally or unintentionally poses for the South Asian region The book talks about how the contemporary restructuring of India s deterrent force posture affects India s nuclear strategy in general and how this in turn could affect the policies of its adversaries China and Pakistan in particular Authors discuss the motivations of such posturing that broadly covers India s restructuring of its Nuclear Draft Doctrine DND the ballistic missile development program including that of its Ballistic Missile Defence BMD system and the possibility of conflicts between China India and India Pakistan given their transforming

strategic force postures and their recurring adversarial behavior against each other in the Southern Asian region

Strategic Cultures and Security Policies in the Asia-Pacific Jeffrey S. Lantis, 2016-03-22 This book shows how one of the most powerful tools of security studies strategic culture illuminates the origins and implications of the Asia Pacific region's difficult issues from the rise of China and the American pivot to the shifting calculations of many other actors Strategic culture sometimes challenges and always enriches prevailing neo realist presumptions about the region It provides a bridge between material and ideational explanations of state behavior and helps capture the tension between neoclassical realist and constructivist approaches The case studies in this book survey the role of strategic culture in the behaviors of Australia China Japan the Philippines South Korea and the United States They show the contrast between structural expectations and cultural predispositions as realist geopolitical security threats and opportunities interact with domestic elite and popular interpretation of historical narratives and distinctive political military cultures to influence security policies The concluding chapter devotes special attention to methodological issues at the heart of strategic cultural studies as well as how culture may impact the potential for future conflict or cooperation in the region The result is a body of work that helps deepen our understanding of strategic cultures in the Asia Pacific in comparative perspective and enrich security studies This book was published as a special issue of Contemporary Security Policy

High and Low Corruption Harry Adams, 2023-12-19 High and Low Corruption Children Capabilities and Crime provides a systematic theory of corruption and analyzes high corruption in terms of political corruption and high end white collar crime and low corruption in terms of juvenile delinquency and street crime It shows how delinquents and street criminals often suffer from arrested development of their basic human capabilities In turn Harry Adams argues that their maldevelopment often emerges neither merely through their own fault when they were children nor through the fault of biological caregivers who were guilty of parental child neglect Beyond this Adams argues that the maldevelopment of at risk youth commonly emerges through a kind of political child neglect when corrupt public officials fail to provide adequate protection or back up support for their development In these ways the author shows how the former type of high corruption or suite crime can significantly contribute to the latter type of corruption and street crime By applying a set of moral constitutional and criminological principles from Derek Parfit Ronald Dworkin and Jeffrey Reiman respectively Adams also provides a systematic account of why and how both these types of corruption should be curbed

Strategic Thinking in 3D Ross Harrison, 2013-05-31 Effective strategic thinking requires a clear understanding of one's external environment Each organization has a unique environment but as Ross Harrison explains in Strategic Thinking in 3D any environment whether in the fields of national security foreign policy or business has three dimensions systems opponents and groups

Naval War College Review, 2013 *Iraqi Kurdistan, the PKK and International Relations* Hannes Černý, 2017-07-28 Due to its primacy in explaining issues of war and peace in the international arena the discipline of International Relations IR looms large in analyses of and responses to ethnic conflict in

academia politics and popular media in particular with respect to contemporary conflicts in the Middle East Grounded in constitutive theory this book challenges how ethnic ethno nationalist conflict is represented in explanatory IR by deconstructing its most prominent state centric models frameworks and analytical concepts As much a critique of contemporary scholarship on Kurdish ethno nationalism as a detailed analysis of the most prominent Kurdish ethno nationalist actors the book provides the first in depth investigation into the relations between the PKK and the main Iraqi Kurdish political parties from the 1980s to the present It situates this inquiry within the wider context of the ambiguous political status of the Kurdistan Region of Iraq its relations with Turkey and the role Kurdish parties and insurgencies play in the war against ISIS in Iraq and Syria Appreciating these complex dynamics and how they are portrayed in Western scholarship is essential for understanding current developments in the Iraqi and Syrian theatres of war and for making sense of discussions about a potential independent Kurdish state to emerge in Iraq Iraqi Kurdistan provides a comprehensive and critical discussion of the state centric and essentialising epistemologies ontologies and methodologies of the three main paradigms of explanatory IR as well as their analytical models and frameworks on ethnic identity and conflict in the Middle East and beyond It will therefore be a valuable resource for anyone studying ethnicity and nationalism International Relations or Middle East Politics

U.S. Army War College Guide to National Security Issues: Theory of war and strategy J. Boone Bartholomees, Army War College (U.S.). Strategic Studies Institute, 2012 This edition of the U S Army War College Guide to National Security Policy and Strategy continues to reflect the structure and approach of the core national security strategy and policy curriculum at the War College The 5th Edition is published in two volumes that correspond roughly to the Department of National Security and Strategy s core courses Theory of War and Strategy and National Security Policy and Strategy Like previous editions this one is based on its predecessor but contains both updates and new scholarship Over a third of the chapters are new or have undergone significant rewrites Many chapters some of which appeared for years in this work have been removed Nevertheless the book remains unchanged in intent and purpose Although this is not primarily a textbook it does reflect both the method and manner we use to teach strategy formulation to America s future senior leaders The book is not a comprehensive or exhaustive treatment of either strategic theory or the policymaking process Both volumes are organized to proceed from the general to the specific Thus the first volume opens with general thoughts on the nature and theory of war and strategy proceeds to look at the complex aspect of power and concludes with specific theoretical issues Similarly the second volume begins by examining the policy strategy process moves to a look at the strategic environment and concludes with some specific issues This edition continues the effort begun in the 4th Edition to include several short case studies to illustrate the primary material in the volume

The Guns of August 2008 Svante E. Cornell, S. Frederick Starr, 2015-01-28 In the summer of 2008 a conflict that appeared to have begun in the breakaway

Georgian territory of South Ossetia rapidly escalated to become the most significant crisis in European security in a decade. The implications of the Russian-Georgian war will be understood differently depending on one's narrative of what transpired and perspective on the broader context. This book is designed to present the facts about the events of August 2008 along with comprehensive coverage of the background to those events. It brings together a wealth of expertise on the South Caucasus and Russian foreign policy with contributions by Russian, Georgian, European, and American experts on the region.
